

Krumbles

The New Whole Wheat Food with the *Delicious Flavor* originated by the Kellogg Toasted Corn Flake Co.

FOR the first time in the history of things to eat, the whole of the Wheat appears on the table as a delicacy.

KRUMBLES, the new Kellogg food with the delicious flavor, brings to you all the nourishment of the wheat, with a full, rich flavor that you've never known before in a wheat food.

The discovery of Krumbles is an achievement of the Kellogg Toasted Corn Flake Co. It is the whole of the wheat, cooked, "krumbled," and delicately toasted by a special and exclusive method.

Krumbles has a fine sweetness of its own—and the more you chew it, the sweeter it tastes.

Miss Mattie F. Beatty and James Elvin members of Cherry Queen contest committee appeared before the high school student body this morning and urged the students to enter one of the members of the school for candidate for Cherry Queen.

Miss Beatty pleaded for total support. She stated that the Cherry fair was something in which everyone who had the best interests of Salem at heart ought to be interested and that the high school students could show their loyalty to the high school and to the city in no better way than by rallying around a candidate for queen and working for her election.

Mr. Elvin in a brief speech described the plan of the contest and declared that if the high school entered a candidate and worked whole heartedly for her election it would make one of the most interesting queen contests ever held in Salem.

The suggestions were enthusiastically received. The student council has the matter in charge and will bring it before the student body and in all probability the name of the high school candidate will be announced some time Wednesday. Before leaving the school Miss Beatty and Mr. Elvin received positive assurance from an authoritative source that the high school will enter a candidate.

* **THIS SKIN PEELER ALL THE RAGE IN SOCIETY** *

There is a growing tendency among women of culture and fashion to pay more attention to hygienic means of preserving their charms. The advent of mercurized wax has been largely responsible for this. This remarkable substance produces complexion so natural in appearance, so magnetically beautiful, artificial complexion is no longer desired. Instead of "doctoring" an offensive skin, the skin is peeled off. The wax peels the skin so gradually, in such fine particles, no discomfort is experienced. The fresher, younger skin beneath, wholly in evidence within a week or two, is like white, satiny soft and smooth. It's not a patched-over complexion, but a brand new one. That's why mercurized wax has become such a rage among society folk. The wax is not on nights like cold cream and washed off mornings. All druggists have it; one ounce will do.

Another hygienic treatment now much in favor is one to remove wrinkles, made by dissolving 1 oz. powdered saxolite in 1-2 pint witch hazel. Used as a wash lotion it "acts like magic."
