COMMERCIAL CLUB IS FOR CONCRETE BRIDGE

Passes Resolutions Indorsing Polk County's Action Favoring Concrete

Whereas, The county courts of Marion county and Polk county, having under advisement the construction of a bridge over the Willamette river between the said counties, are at present undecided regarding the material to be used in said structure, whether they be steel or concrete, and

Whereas, The citizens of Polk county in mass meeting assembled recently passed a resolution favoring the erection of a high concrete bridge, and

Whereas, The common council of the city of Salem has passed a like resolution favoring the construction of a similar bridge, and

Whereas, The construction of a concrete bridge would furnish much labor for citizens of Salem and vicinity, and the materials used would be purchased largely in the two counties erecting said bridge, thereby retaining much of the money expended within these two counties, and

Whereas, We believe that a concrete bridge of this character would be much more permanent than a steel bridge, and in the end more economical.

Now therefore be it Resolved, That the Salem Commercial club in meeting assembled endorses the action of the citizens of Polk county and of the common council of the city of Salem, and goes on record as favoring the construction of a concrete bridge, and

Be it further Resolved, That copies of this resolution be sent to the county courts of Polk and Marion counties, to the press, and enrolled on the minute book of this organization.

Signed,
BRIDGE COMMITTEE OF SALEM COMMERCIAL CLUB.

The northwest in the days when Jason Lee arrived here was dominated by the Hudson Bay company interests, there were a few trading posts and in all about 35 white men, no white women or children.

Jason Lee came here as a missionary, but the results of his work showed that he was far more; he was a diplomat, a statesman and a colonizer, his efforts were largely the cause of the Oregon country becoming a possession of the United States, rather than a British colony.

In stating whether or not Jason Lee was a great man, Professor Matthews stated that a great man could only be judged by his work if it was of a great and permanent nature, then he must be considered other than one of the greatest men in the history of the northwest.

The lecture was very much appreciated by the students for two reasons; one that it dealt with the history of Willamette as an institution of learning, the other because it was given by Prof. Matthews.
