Impossible To Get So Much Motor Car Value For The Money

WE FIND this is the attitude of many people who come into our salesroom—before they know anything about the Maxwell.

Not until the Maxwell is shown and demonstrated to them—until they sit in it and examine the finish—until they ride in it—or perhaps not until they drive it themselves, do they realize what a tremendous value is offered in the Maxwell car.

It is not unusual that Maxwell value should not be known to everyone, because it is uncommon to find such a car for a good margin more than the Maxwell price.

The Maxwell stands absolutely alone in a highly competitive field, for the amount of value it offers for the price.

Appearance—The lines of the Maxwell are decidedly attractive. There is no break in the contour from the radiator to the back of the car. The fenders are gracefully shaped. All metal parts are enameled or nickel-plated. The upholstery is deep and well-finished. From any angle it is a car that the owner can be proud of.

Motor—The engine in the Maxwell car is not equalled by any other four-cylinder engine of its size. And we know of larger and more expensive cars that have less able power plants. The Maxwell engine carries its load through mud and sand or over the steepest grades without a falter.

Quality—The materials in the Maxwell car are the best that can be bought and the workmanship that turns them into finished parts is no less excellent. It is only the large production of the Maxwell factories that makes it possible to put such quality of materials and workmanship into a car selling at the Maxwell price.

Economy—With its other attractive features, the Maxwell is a most economical car to own. Owners get 22 to 25 miles per gallon of gasoline and 8,000 to 12,000 miles per set of tires. And the car is so durably built that repair expense is negligible.

We are sure you want a car such as we have described the Maxwell to be. If you will give us a few minutes of your time we are sure we can convince you that the Maxwell Car is an exceptional value. Come in today.

Chicago's Municipal Pier and Beach Opened

(By United Press)

Chicago, June 1.—Chicago's biggest playground, 25 miles of Lake Michigan front, came into its own today when 60,000 bathers went to the beaches for the grand opening. The great new municipal pier, which stretches for nearly three-quarters of a mile into the lake at the foot of Grand avenue, began its first season today. Adequate sports of every sort—yacht, canoe, boat races—were planned for the dedication ceremony. The recreation end of the pier will be given over all summer long to dances, band concerts and other festivities. The pier will be the starting point for the small steamers running to the north and south parks of the city. The bid was off today on bathing suits. Sport skirts—cannibal style—for men and no stockings, no skirts for the women marked the official style.

Yesterday's big league homers. Smith, Cardinals, off Benton, Cubs. Merkle, Giants, off Bender, Phillies. Wheat, Brooklyn, off Barnes, Boston.

Dauss, Tigers, off Danforth, White Sox. Meyer, Athletics, off Cullop, Yankees. Gilbooley, Yankees, off Nabors, Athletics.

High, Yankees, off Wyckoff, Athletics.

Joe Jackson, of the White Sox, Hellman, of the Tigers, Neale of the Cincinnati Reds, and Wamby of the Indians, each got four hits. Jackson is hitting the ball in great shape. A triple, two doubles and a single were yesterday's contributions. He has made thirteen hits in his last twenty times at bat.

The Indians are back in first place with the Senators sharing honors with them.

Speaker showed his team mates the way back. He led the way to victory over the Brooks with three crushing bingles, a double, triple and single and ten stole a base out of all that.

In the meantime the Red Sox were knocking the tar out of the Senators. The Yanks copped both ends of a double bill from the Athletics.

The Tigers copped both ends of a double bill from the Athletics. The Tigers, though outbid by the White Sox, outgassed the Chicago tribe and won, seven to four.

The Cubs and Cardinals split an even break at Chicago. Packard was sent in to relieve in both games, but only in the last game did the Cub hurler tool the St. Louis bunch.

The Giants showed they still have the stuff in 'em by starting another winning streak. By bumping the Phillies, four to two they made it two straight.

San Francisco beat Oakland in every one of the nine innings, slugging the cellarites out minus anything remotely resembling a run. Biff Schaller got a home run, three singles and a walk out of his ventures to the old home plate, so he gets the belt as the star hitman of the day.

Jerry Downs, had he been armed with two fish nets, could not have snared more hot drives around second base. Nothing but a cannon ball could elude Jerry.

Horstman was erratic in spots, and Larsen, the Angelle second socker, had a sloppy day, so things were easier for Portland.

Just to give the fans a dash of high life, Vernon Tigers ripped loose with a triple play and no less than four double plays while trouncing Salt Lake 8 to 3. Vernon smashed the ball in the fifth and tied the score, smashing it again in the sixth and won.

Lumber Men Must Advertise More

(By United Press)
Chicago, Ill., June 1.—More extensive newspaper and magazine advertising is essential to the future of the lumber industry, from toothpicks to houses according to every speaker at the Lumbermen's national convention here today.

The day's speakers included James Kelley, editor of the Chicago Herald, who talked on publicity, and the other phases of the merchandising problem all hinged on the same general question of advertising the products of the sawmills. A dozen papers on this subject in its various forms were presented. The speakers were: E. F. Pratt, chief of the bureau of domestic and foreign commerce; Dana H. P. Baker of the New York state college of forestry at Syracuse; Franklin H. Westworth, secretary of the national fire protection association; Jay R. Hamilton of Portland, Ore.; Frank D. Chase of Chicago, P. A. Good of Cowles, Neb.; J. R. Moorehead of Kansas City and Warren B. Bullock of Milwaukee.

sources today that the progressives will stand pat on Roosevelt.

Before leaving New York yesterday for Chicago, Perkins emphasized that he is for Roosevelt, and refused to talk of a compromise candidate.

Under present plans, the progressive convention will run its sessions practically parallel to the republican program. Preliminary work is to be gotten out of the way June 7 and June 8, and nominations made Friday, June 9.

It was generally believed today, however, that the progressive convention would choose one of these two alternatives.

Nominate Roosevelt at once and wait to see what the republicans would do.

"Bill," until the republican convention nominates a candidate and, if he is satisfactory, nominate the same man; if he is not satisfactory, nominate Roosevelt with a third ticket in the race.

Perkins was ordered to confer with leaders of the Roosevelt non-partisan league and with George I. Von Meyer, director of the Roosevelt republican association.

Let people know what you have to sell through the New Today columns—they will meet you with real money.

MASONS TO VISIT STATE COLLEGE

Oregon Agricultural College, Corvallis, June 1.—Delegates to the sixty-sixth annual convention, A. F. and A. M., and the fifty-sixth annual convocation, chapter R. A. M., Oregon, will witness the graduation at O. A. C. and inspect the college plants on Tuesday, June 6, if they accept the invitation of H. M. Guthrie, local chapter W. M., and President W. J. Kerr.
