WILLING TO SWAP PLATFORM TO GET THEIR CANDIDATE

Sketch of Probable Platform Gathered From Men Who Will Make It

WILL CONDEMN WILSON MOST IMPORTANT PLANK

Woman Suffrage Plank In Doubt, But Prohibition Is Doomed

By H. L. Rennick.

(United Press staff correspondent) Chicago, June 2.—Ready to swap a platform for a candidate, the Old Guard of the G. O. P. turned its attention to the planks the republican convention is expected to draft.

The old guard is ready to concede practically any old plank to win its purpose.

The platform will contain practically every bull moose plank, in hope of winning the progressive support right off the reel.

Under plans tentatively outlined by leaders today, it is stated the platform, roughly summarized, will read something like this:

First, a plank for "Americanism" parading spectacularly the view of the republicans that the American flag should be restored to its place of honor.

Second, a plank for preparedness, "not half hearted preparedness," but actual preparation for war, with probably a clause favoring "universal opportunity for service."

Third, the tariff plank. As the progressives are believed to favor a higher tariff than in previous years, this plank, it is said, will come out flatly for the practically as to long principle of republicans—a high protective tariff, based on schedules similar to those in force before the Underwood tariff bill passed.

In this connection, it is understood, it will be set forth that the nation's business has survived the democratic administration only through a miracle. It will be contended that the war and its flood of war business enabled American business to build up a false prosperity that "must cease as can only be permanently built up by a protective tariff devised as to foster the development and extension of American trade to all nations of the earth, etc."

Colonel Can Make Platform

The republicans plan to go on record for "mild" regulation only. The fifth plank, it is understood will advocate a large merchant marine, but will oppose government ownership and subsidies, but get around this ticklish question by "advocating a merchant marine that is 'encouraged by the government.'"

These planks, it is said, have already been decided upon. Two others are to be fought over in committee, one, the suffrage plank, with a slight chance of success; the other, prohibition, to be squelched immediately.

Senator Borah of Idaho will fight hard for the suffrage plank. Whether or not Colonel Roosevelt is a possible winner of the republican nomination, even the stand patters were apparently unwilling today to let the colonel have his way about the platform.

Bull moose planks will be inserted beyond number if the colonel will only let somebody else be nominated. That was the view today among the old guard.

A. W. Veatch Is a Much Elected Man But Honor Must Be Limited

A. W. Veatch, of Salem precinct No. 1, at the primary election was elected republican precinct committeeman in Salem precincts No. 1, No. 2, No. 3, No. 4 and No. 13, tied with the leading candidate in precincts No. 13 and No. 16 in Salem, and was elected precinct committeeman for the progressives in one precinct and for the democrats in two others, besides he received votes in nearly every precinct in the county.

Mr. Veatch's marvelous popularity is accounted for by the fact that he was the regular candidate for the republican nomination for precinct committeeman in Salem precinct No. 1 in which he resides.

Attorney General Brown today issued down an opinion in response to an inquiry from Clackamas county in which it was stated that in such cases as that of Mr. Veatch that the committeeman could serve only in his own precinct and only for the party in which he was registered.

Waite Not Perturbed Over Conviction

New York papers discussing the trial of Dr. Arthur Warren Waite on a charge of poisoning and killing his wealthy father-in-law, comment on his calm demeanor in court. It was asserted that Waite in covetousness of the Peck millions, had accomplished his father-in-law's death with 25 cents worth of poison.

ALKALI IN SOAP BAD FOR THE HAIR

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil.
