

### TORNADO SEASON IN MIDDLE WEST

#### Train Blown From Track in Illinois and Two Towns Wrecked in Iowa

Pontiac, Ill., June 2.—Twenty persons were injured, one seriously, when the Midnight Special, the Wabash railroad's fast mail train, Chicago to St. Louis, was blown from the tracks one mile south of Sauemina early today, in one of the most severe wind storms that has visited central Illinois in years.

The wreck occurred in a deep cut which kept the cars from overturning and prevented more serious injuries to passengers. The engine, combination smoking and baggage car and four coaches were blown from the track. The baggage car was literally torn to pieces. One woman was thrown through the window of a coach for a distance of 20 feet.

The injured were taken to Forrest, Ill., in a special train rushed from Decatur.

#### McGregor, Iowa, Hit.

LaCrosse, Wis., June 2.—Several people are reported killed at North McGregor, Iowa, and great property damage done in a tornado that struck that village and Prairie Du Chene, across the Mississippi river last night. Wires are down from LaCrosse and railroad communication is interrupted.

Reports reaching here, as yet, unconfirmed, were that the storm was accompanied by a cloudburst and that a number of persons were drowned at McGregor, Iowa. All railroad communication is interrupted by washouts on both sides of the Mississippi river, and all wires are down. Railroad and telephone companies are working desperately to re-establish communication from LaCrosse. Wrecking crews left LaCrosse early today for the scene of the storm.

#### Much Damage Done.

Dubuque, Iowa, June 2.—Telephone messages from McGregor, north of here, say that a cloudburst last night did damage to the extent of \$50,000.

The water fell literally in sheets and hundreds of head of stock were drowned. Hardly a business house escaped injury and the water flooded the local hotel to the top of the dining room tables.

The latest word from McGregor came over a commercial wire from the hotel in that city at midnight. At this time

### PRESIDENT WILSON TALKS AT ANNAPOLIS

#### Tells Graduating Class They Are Not College Boys But Naval Officers

By Robert J. Bender, (United Press Staff Correspondent.) Annapolis, Md., June 2.—President Wilson, speaking at the graduation ceremonies at the naval academy today, told the newly created ensigns, "they are going to live their lives under the most stimulating compulsion imaginable."

"This is the stimulus of public duty," said the president. "I shall personally watch your careers with interest. I have been told that being associated with college should make one able easily to understand college boys. I believe I do; and I understand that your duties are not merely those of college boys, but of officers of the United States."

"You have been trained to act promptly and correctly. The whole history of the world might be changed by what you did not do or did wrongly."

"I have thought there was one interesting bond that united us," said the president. "You were at Washington three years ago and saw me get into trouble (referring to his inauguration as president) and now I am here to see the beginning of your trouble."

"Your trouble will last longer than mine, but I doubt if it will be any more interesting. I have had a liberal education in the last three years with which nothing that went before bears the slightest comparison."

"But what I want to say to you young gentlemen is this: I can illustrate it in this way. Once and again when youngsters here or at West Point have forgotten themselves or have done something they ought not to do and were about to be disciplined, perhaps severely for it I have been appealed to by their friends to excuse them from the penalty."

"Knowing I have spent most of my life at a college, they comment and say to me, 'You college boys; you know what they are. They are heedless youngsters very often and youth ought not to be held up to the same standards of responsibility that older men must submit to,' and I have always replied: 'Yes, I know college, but while these youngsters are college boys they are something more. They are officers of the United States. They are not merely college boys.'

"If they were I would look at derelictions of duty on their part in another spirit but any dereliction of duty on the part of a naval officer of the United States may involve the fortunes of a nation and cannot overlooked."

The diplomas presented by the president passed 178 young officers into country's service. The president shook hands with each.

Two men were reported drowned and two children missing.

The streets of the city were flooded and guests of the hotel were driven from the lower floor by the water. The cyclone smashed the opera house there.

A cloudburst damaged Decorah to the extent of \$25,000. Two bridges over the upper Iowa river there were washed out. Two Milwaukee railroad bridges near Decorah and one Rock Island bridge, two miles out of town, went away with the floods. No fatalities were reported there.

### STRIKERS AT TACOMA TRY EFFECT OF FORCE

#### Board Vessel, Remove Strikebreakers and Send Them to Seattle on Launch

Tacoma, Wash., June 2.—Armed with pieces of lead pipe concealed in newspapers, automatic pistols and clubs, more than 75 striking longshoremen forced their way through a barricade at the Eureka dock here shortly after noon today, boarded the steam schooner Nome City and evicted 20 strikebreakers who had been imported from Seattle earlier in the day. The non-union men were forced aboard a launch and

# Selling Out To Quit Business

when last seen were well on their way toward Seattle.

The strikers battle their way past detectives guarding the gang plank of the vessel with drawn revolvers. Disregarding the officers' guns, the strikers leaped over the side of the Nome City, rushed into the hold, seized the strikebreakers and hustled them aboard the launch Thelma O., which had been used to convey them from Seattle.

The Thelma O. was then towed into the stream by another launch in charge of a crew of strikers, and started out for Seattle with the non-unionists on board.

Members of the Waterfront Employers association appealed to the sheriff

and United States marshal's office for aid. A squad of deputy sheriffs was sent to the scene of rioting but the strikers had dispersed when they arrived.

**BORN**  
 \*\*\*\*\*

JAYES—To Mr. and Mrs. John Jayes, 1343 South Commercial street, Friday June 2, 1916, a daughter, to be named Glenn.

The democratic county central committee will meet at the court house Saturday afternoon for the election of all officers and a member of the state central committee.

signing up non-union workers, the employers announced today.

International vice president Gordon J. Kelly, of the union workers, said that the walk out had been so completely carried out in all Pacific ports of the United States, that violence would not be necessary in order to win.

Mayor Gill has ordered waterfront police to beat roughly with any disorderly persons.

Approximately \$60,000 will be lost in wages daily to the strikers along the coast, as long as they hold out, it was estimated here today.

**Dead Locked at Portland**  
 Portland, Or., June 2.—Today saw no change in the longshoremen's and river steamboat men's strike on the local waterfront and only one clash between strikers and non-union men was reported to the police. Idle firemen and dockhands in small numbers loitered about piers and slips, but no longshoremen ventured near the wharves, and at their union's headquarters all was quiet.

Harbor Master S. Peier asked that his small force be strengthened by details from police headquarters which was done.

Harry Hermauson a deckhand of the river steambot Dallas City was arrested on a charge of disorderly conduct, after a fistie encounter with strikebreakers from the steamer Kellogg. The liner Beaver in compliance

with orders made no attempt to work her cargo and to other sea-going vessels arrived in port except the F. A. Kilburn of the Nova Pacific line late last night.

It was reported that the scale demanded by the union was offered the longshoremen to lead the schooner Aluma at Knappa, but no work was done and no agreement signed. Another report had it that the crew of the schooner A. F. Cones at Waukena walked ashore when asked to handle cargo.

Steambot officers and officials of the different stevedoring companies say no approach has been made by the union men looking toward a settlement or arbitration.

### If Too Fat Get More Fresh Air

Be Moderate in Your Diet And Reduce Your Weight. Take Oil of Kerein.

Lack of fresh air it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open; breathe deeply, and get from Central Pharmacy or any druggist a box of oil of kerein capsules; take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of kerein is absolutely harmless, is pleasant to take, helps the digestion and even a few days treatment has been reported to show a noticeable reduction in weight.

### BIG STRIKE STOPS

(Continued From Page One.)

notified Mayor Gill that there will be no trouble.

Crowds of strikers were standing around the waterfront today watching every vessel in port.

Representatives of W. R. Grace and company, announced that the steamskip Colusa would be sent to Tacoma today where an effort would be made to load her. If the plan works out, they will send the Colusa there Saturday.

Hiring Non-Union Labor

Fourteen non-union men worked the cargo of the Nippon Yusen Kaisha liner Shibusaka Maru and another crew worked the steamskip Al Ki at pier 14 yesterday.

The employers association built a 12 foot fence in front of an old warehouse at the foot of Jackson street, which they said would be used to house strikebreakers. Agents are now
