

THE DOINGS OF DOROTHY

Catarrh Cannot Be Cured
 with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, everywhere. Take Hall's Family Pills for constipation.

WEST SALEM
 (Capital Journal Special Service.)

SCENE FROM "THE BATTLE CRY OF PEACE" THE GREAT PHOTO SPECTACLE—COMING TO THE GRAND THEATRE NEXT WEEK.

Synopsis—Hudson Maxim, international authority on arms and ammunition, delivers a lecture graphically describing America's "defenceless" condition. John Harrison inspired by Maxim's disclosures, and realizing the awful consequences to which our national unpreparedness may lead, resolves to consecrate his every effort to the cause of adequate defense. He is engaged to Virginia Vandergriff, whose father is an advocate of national disarmament and "Peace at any price." John makes a fruitless effort to show Vandergriff the fallacy of his stand. Vandergriff's friend, Linnson, ostensibly a peace proponent, but in reality a foreign spy, is the head of a band of conspirators plotting the invasion of America. The invaders approach New York. The news reaches a huge peace meeting at which Vandergriff is speaker. In the midst of this meeting a shell crashes through the walls of the building. The battleships of the enemy, out of range of the guns of Fort Hamilton, Hancock and Wadsworth, are able to bombard New York.
 Shells are devastating the buildings in the downtown district. Homes are deserted; citizens slain without mercy. Terror reigns.
 John's mother and sister are killed. Vandergriff is shot in the street. John is layouated in defense of the girl he loves. As a climax of the horror, Vir-

The Wheat Yield Tells the Story
 of Western Canada's Rapid Progress
 The heavy crops in Western Canada have caused new records to be made in the hauling of grains by railroads. For while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions. The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.
 Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common. Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railroads, etc. There is no war tax on land and no conscription. Write for illustrated pamphlet, reduced railroad rates and other information to:
 J. N. Grieco, Cor. 1st & Post Sts., Spokane, Wash., Canadian Government Agent.

No Passports are Necessary to Enter Canada

or month's visit with relatives.
 The Al Sharp family have sold out their property here and started for Wisconsin on Wednesday morning.
 Mr. and Mrs. Birch of Kingwood Terrace will board with their daughter Mrs. Mathers and husband in Kingwood Park, until Mrs. Birch, who is ill, regains her health.
 Mr. and Mrs. Al Bell started Monday for a summer's outing in Eastern Oregon.
 Claude Moore will go to French prairie Saturday to work in the logging camp.
 Mr. Arthur Moore went to Nestucca Saturday to bring home his motorcycle, which he had been obliged to come home without the week before, when away on a fishing trip, on account of bad roads.
 A large number of West Salem "irritants" will attend the picnic at Rickwall Saturday. Among Polk county eighth grade graduates to receive their diplomas at that time will be a class of fourteen from here.
 The lines in order in preparation for the fire season and although, to lessen the effects of accident, the wires are mostly run on swinging insulators suspended from the trees, there are in the aggregate a large number of repairs to be made.
 Notwithstanding the number of telephone lines already built, large areas are still without means of communication and consequently lacking in proper equipment for fire protection. Not only are the telephones used by the forest offices, but they are a great convenience to the public very often, if it is said, they enable isolated settlements to have a means of communication that they could secure in no other way.
 Roseburg Review, Arthur M. Fenton, examiner of inheritances in the local Edin offices, yesterday tendered his resignation, to take effect immediately, in order to devote his entire attention for several months to getting a bill through congress securing payment to the Indians along Coos bay for lands which the government long ago acquired, it is alleged without due compensation.

Increased Cost of Wire Affects National Forests
 Portland, Ore., June 10.—With bids for furnishing wire to the Forest Service recently advanced 45 per cent, and prices on other equipment considerably increased, material curtailment of the program for telephone line construction on the National Forests this summer is said to be in prospect. There are over 20,000 miles of telephone line on the National Forests and approximately 2,000 miles of new line was planned for the coming season.
 A certain amount of wire is required also for upkeep, since the lines are peculiarly subject to breakage from falling trees and similar causes. Every spring the Forest rangers have to get
