WILSON NOT TO MAKE REGULAR CAMPAIGN

Will Not Stump But Make Several Speeches, in Larger Cities

Washington, June 12.—To fire what is expected to be the opening gun of his coming campaign, President Wilson leaves this afternoon for New York. He will board the Mayflower there for West Point to present diplomas to the future generals and make an address. Mrs. Wilson will accompany the president.

Although determined not to take the stump in the sense of making any organized campaign tours between now and election, President Wilson is preparing to make set speeches in a number of different localities during the coming month.

On the last day of the present month the president expects to address the New York Press club and between now and October, he will make speeches at Detroit, at Lincoln's birth place in Kentucky, and at the dedication of a new irrigation project at Albuquerque, N. M. His advisers are strongly urging him to accept invitations elsewhere. These invitations are being received in large numbers. A committee of the Baltimore chamber of commerce, expects to call on him next week with a request to speak before the National Grain Dealers association at Baltimore in September.

All arrangements are completed to enable the president to keep in close touch with the deliberations of the St. Louis convention. Besides receiving the full convention of the United Press over its leased wires, special telephone and telegraph wires have been installed between the Jefferson hotel in St. Louis and the White House.

Announcement of the president's choice for chairman of the national committee is still being awaited with interest.

Lemon, of Corvallis, was chosen as secretary and Edward Beattie, of Corvallis, was selected as treasurer of the organization. Percy A. Cupper's term of office as a member of the board expired June 3, at which time he was re-elected for another five years.

Convict Makes Escape From Penitentiary Under Motor Truck

C. H. Droecker, a convict at the Oregon state pen made his escape Saturday from the Oregon state penitentiary and forgot to leave his address with the prison officials who would like to have a word with or from him. It is thought that Droecker crawled under the motor truck of the Peelle Minded institute and rode out through the main gate where he escaped the vigilance of the guards. His absence was not discovered until roll call in the evening. Convicts in the past have frequently crawled under the wagon beds of wood haulers and attempted to ride out on the running gears but all have been discovered and brought back but the officials are able to account for the escape only by way of the motor truck.

Droecker was sent up from Multnomah county May 27, 1915, to serve from one to 10 years for larceny. He served time in San Quentin in 1910 for embezzlement. He is 32 years of age, five feet 5 3/4 inches tall and weighs 150 pounds. He is of medium build and complexion, has dark brown hair and eyes and is a salesman by occupation when he is not doing time.

Hitchcock May Get Job of Management

Chicago, June 12.—Frank Hitchcock, who engineered the Hughes boom in Chicago, took the same stand about the national committee chairmanship that Hughes took about the presidency.

"I am not a candidate," he said today. Political experts figured, however, that Hitchcock was almost certain of getting the job.

Hitchcock remained here on the job today, interviewing bull moosemen in the hope of lining them up for Hughes. He will leave tonight for a fishing camp, he said, "to catch up with his sleep."

GADSKI'S HUSBAND MUST STAND TRIAL

New York, June 12.—Captain Hans Tauscher, husband of Madame Gadski, Wolf Von Igie and others must go on trial for a plot to destroy the Welland canal.

Judge C. E. Wolverton in the United States district court today overruled a demurrer against the indictment. Tauscher and others are indicted for having set on foot a "military enterprise" to destroy the Welland canal.

Herbert C. Smyth, attorney for the defendants, argued that since the men were armed only with pistols and carrying a large quantity of dynamite, that their action was not a military enterprise within the meaning of the law. Judge Wolverton ruled that the indictment sufficiently charges a crime under the laws involved. The government is prepared to go on with the case and will ask for a speedy trial.
