H. Backus, Company H, Seventh regiment, Chicago, sustained a severe flesh wound in the left thigh last night when, according to his story, a civilian fired three shots at him with a 32 calibre revolver.  
William O'Brien, believed to be of the Seventh regiment of Chicago, spent last night in a straight jacket at the city jail. He became demented during the night. He was much improved today and may be allowed to return to camp.

### Troop Trains First.

Washington, June 26.—War department supplies and troop trains have the right of way on all American railroads. Through the American Railway association, the department, it was learned today, has at its disposal all the rolling stock it desires. As fast as freight is sent to the border, the empty cars will be "dead headed" back to distribution points.  
Cars containing war department materials bear a special placard and this is recognized by every dispatcher and train crew as giving it the right of way.  
Much of the war department freight moves even faster than express trains. A railroad sidetracked on its fast limited trains to make way for the war supplies.  
The railroad association, including in its membership every railroad president in the country, has informed the war department that it will give every ounce of co-operation in its power. Mobilization of railroad forces has been accomplished almost automatically.  
The association has sent a special trained corps here to be at the command when clear tracks ahead.

### California About Ready

Sacramento, Cal., June 26.—Four thousand national guardsmen are preparing here today making final preparations for their trip to the Mexican border. Nearly 1,000 additional troops including several southern California units, have marched into the state fair grounds during the past 24 hours.

Every man must be inoculated against small pox and typhoid. This work is now being rushed under the direction of army surgeons. At the same time, the militiamen are being sworn into the regular service as rapidly as possible by Captain Hantgan.

Among the troops arriving here during Sunday were a battery of field artillery and a hospital corps from Los Angeles, a body of cavalry from Bakersfield and the Fifth infantry.

The machine gun company of the Sixth infantry came in from San Francisco with its death dealing weapons on three trucks. The company brought more than the required fifty men, as it was believed some of them might not be able to pass the federal physical examination.

Companies M and B of the Sixth infantry arrived from San Jose carrying huge bouquets of flowers. Roses had been placed in the men's hats, ropes of flowers twined around their rifles and on the locomotive of the troop train was a wreath of roses with crossed flags.

### Seven Artillery Companies

San Francisco, June 26.—With seven coast artillery companies under unexpected orders, moving toward Mexico today, 10 companies were left to man the fortifications of San Francisco bay. About 805 officers and men were included in the units which departed. The first troop train started south about 2:30 a. m. Two others followed at dawn. The artillerymen are employed as infantry and will probably be used along the border near San Diego and Calexico.

Orders for the move were sudden and absolutely unforeseen. Many members of the companies were on leave. A four p. m. work of rounding up the artillerymen commenced. Orders for them to report were read from the stage of every theatre. Audiences arose and cheered when the soldiers hurried away. At 11 p. m. heavily loaded army wagons drawn by six and eight horse teams began clattering through the streets to the Southern Pacific station.

One company went from Fort Baker, one from Fort Riley and the other five from Fort Winfield Scott. National guardsmen may be used at the fortresses while the regulars are away.

Prospect of War Keeps Stock Prices Lower  
New York, June 26.—The New York Evening Sun financial review today said:

Over Sunday developments, pointing more strongly than ever to the likelihood of war between this country and Mexico, were not of a character to stimulate public buying, a feature of which the professional element took advantage of today is depressing the general list.

In the opinion of shrewd Wall Street observers, the market suffered fully as much, if not more, from the meagreness of outside participation and lack of support as it did from the intrudes of bearish traders, who sought and found many weak spots both among standard railway shares and industrial specialties.

Reported efforts in the direction of mediation on the part of Bolivia and sundry other of the South and Central American governments had little or no influence either upon sentiment or upon the reactionary tone of the market. Fluct prices were irregularly changed but averaged lower. The feature at the outset was a violent break in Corn Products common and preferred which declined four to 10 points respectively.

Prices advanced materially as the Yerevan advanced, specialties like Mexican Petroleum, Mercantile Marine preferred and Industrial Alcohol leading the way. Losses ranging from two to three points or more reflected freely in the list in the early afternoon.

Pronounced weakness in issues like Reading, Chesapeake and Ohio, Union Pacific, Baltimore & Ohio, United States Smelting, American Can and the Bilt, which have figured prominently in recent clique operations, indicated a liquidation as the source of the selling movement.

Sixty Members Are Added to Moose Lodge  
The local Moose lodge is larger by about sixty members than it was Saturday. Three score candidates were put through the degree work by the Portland team which came to Salem for the purpose.

Lodges from other cities were represented in the big parade Saturday evening by about three hundred delegates. Three bands scheduled to appear in the parade were unable to be present as most of the musicians had gone to Clackamas with the militia. Hebel's Cherryband band led the parade which passed through the downtown streets.

Governor Withycombe was kept from attendance by press of business and Walter L. Touse delivered an address in the governor's place. Acting Mayor Mills welcomed the outside lodge men in a brief speech.

## SALEM'S NEW DRINK WILL BE SERVED FREE

"Cerec" Substitute for Coffee To Be On Tap Here For Three Days

For three days beginning tomorrow morning at 10 o'clock, the people of Salem and especially the housekeepers will be given an opportunity to drink and pass judgment on a drink that may yet make Salem famous.

This drink will be made known to the world as "Cerec" and is manufactured in Salem. It will be served free at the offices of the Portland Railway, Light and Power company, State and Commercial streets, the company having given the "Cerec" plant permission to use their offices, just to help along a Salem institution.

"Cerec" is a drink that it is claimed will take the place of coffee. It is not only palatable but is nutritious, made entirely of rye, vegetables and barley. It is claimed to be not only a health builder but that it will assimilate with other foods. Another good point, is that "Cerec" really has a pleasant flavor, which cannot be said of many substitutes for coffee. There is nothing in it in the way of a stimulant, its ingredients being rather a nerve and tissue builder.

This is a home manufacture and the people behind the enterprise are anxious that Salem folks should pass judgment on it. It will be handled by all local grocers. One teaspoonful of "Cerec" is equal to three times the amount of other coffee substitutes.

The plant on South Commercial street has a capacity of 1000 pounds daily and it is expected that this capacity will soon be doubled. They are packing for free distribution, 100,000 samples.

For the past thirteen years, Dr. E. C. Hagel has been experimenting with compounds of a vegetable nature that could be made into a substitute for coffee. The company handling it believes this substitute has been found, one that is really of greater nutritious value than other coffee substitutes. Anyhow, they ask the public to get sample packages at the office of the Portland Railway, Light & Power of free and sample the new drink.

Refused to Take Part In Secret Session—Perkins Represents Hughes

Chicago, June 26.—John N. Parker of Louisiana, progressive nominee for vice-president and the national committee men from six states bolted the meeting of the national committee this afternoon after Colonel Roosevelt's letter supporting Charles E. Hughes was read.

Parker left the committee room followed by Henry E. Koehne, of Wisconsin; A. T. Moon, of Utah; J. M. Ingersoll, of Idaho; Judge H. D. Morfont, of St. Louis, who held a North Carolina proxy; Burton Vance, of Kentucky; and Bainbridge Colby, of New York.

They refused, they said, to become participants in a secret session of the committee. They have been voted down by a large majority on a resolution to make the meeting an open one.

The secrecy was imposed, it was rumored, when George W. Perkins intimated he had a confidential message from Hughes as the progressives.

Parker and his adherents were said to be ready to return to the meeting at any time it was made an open one.

Matthew Hale, of Massachusetts, noted as chairman of the committee, Committee man Victor Murdock is in California.

Parker made public telegrams before he left the session showing Roosevelt had asked him to confer with him and that he had refused and also made public a letter offering to withdraw from the vice-presidential candidacy in event the progressives would name a "strong ticket."

Riotous Scenes.  
Amid riotous scenes at the meeting of the progressive committee this afternoon, Victor Murdock of Kansas, was placed in nomination for the presidency on the progressive ticket by Bainbridge Colby, of New York.

Colby's action followed the committee's decision to accept Colonel Roosevelt's nomination as final. It was Colby who nominated Roosevelt at the progressive convention.

Murdock's nomination was seconded by Judge Norton, of St. Louis. Raymond Robins, who was chairman of the convention, leaped to his feet.

"Have you Murdock's consent to run?" he asked.  
"No, but I haven't his refusal either," said Colby.

The committee late this afternoon defeated, 31 to 15, a plan to nominate Victor Murdock of Kansas, for the presidency. The defeat of Murdock was believed to have eliminated any possibility of a progressive ticket in the 1916 race.

Miss Dorothy Holland left for Spokane last Saturday to spend the summer with relatives. She was accompanied as far as Portland by Mrs. Rae Holland, Miss Elizabeth Jones and Miss Myrtle Knowland. Miss Knowland will remain in Portland, having accepted a position in the music store of Bush & Lane.

The company will take into consideration the bids and not make an award until all details of materials to be used and methods of construction are thoroughly investigated.
