NEW SUPERINTENDENT WAS NOT SELECTED

School Board Has Busy Meeting—Temporary Buildings Necessary

Although a successor to Superintendent O. M. Elliott was not elected at the meeting of the board of Education last night, it is probable that a selection will be made tomorrow evening.

At the meeting last week, the recommendations of the 27 applicants were gone over, with the decision to consider the names of 11. Last night by means of several ballots, it was found that the names of four were favored by the board, and they were sent night letters asking them to come to Salem Friday for personal interviews.

These four educators from whom the selection will probably be made are: John W. Todd, superintendent of the Auburn, Wash. schools; E. G. Quigley, of the Seattle schools; George A. Briscoe, superintendent of the Ashland schools; J. G. Inel, superintendent at Astoria, and R. G. Hall, who has been engaged in supervision work at Roseburg.

With the large number of applicants and the recommendations of all to be thoroughly considered, it was the opinion of the board that a personal interview with those favored would be of assistance in making the selection.

The resignations of Miss Ida B. Davis, Miss Matilda Amerson and Miss Clara Schnasse were presented and accepted. To succeed Miss Davis Miss Lillian Guffin was elected at a salary of \$90 a month.

Miss Elizabeth Macleay will succeed Miss Amerson as teacher of English in the senior high school. For the past three years she has been teaching in Washington and has been associated with the University of Washington.

Miss Elvina Emilio Schramm was elected teacher of German to succeed Miss Schnasse. She will teach in the junior high school grades, and the building cost in excess of this appraisal into 10 years ago, the appraisers took into consideration depreciation of something over three per cent a year.

The equipment of the high school building was estimated at \$10,000, and the athletic grounds \$11,500. The building and grounds committee were instructed to prepare plans for the erection of temporary buildings for the use of the primary grades at the three junior high schools. It was found necessary to rent cottages last January to accommodate pupils of the junior high schools.
