About 90 of the smart set have been asked for the affair, and the programme, which is to include several exquisite gems will be sung by charming Miss Isobel Young of Albany.

Miss Young is the daughter of Mr. and Mrs. Percy Young who frequently visit here and have many friends in Salem society.

The little ones present were: Raymond Mohler, Hazel McElroy, Helen McElroy, Milton Marsh, Margaret Thompson, Maxine Nye Ulrich.

SALEM WILL HAVE FINE BATHING BEACH

Located On Polk County Side,
Plenty of Bath Houses
Will Be Provided

Within a week or 10 days, Salem will have a municipal bathing beach in every respect superior to the one sponsored last year by the Commercial club at Minto island. Not only are the grounds for the beach better adapted for bathing, but this year there will be ample provision for the care of clothing and bathing houses with responsible parties in charge.

This information is given by the committee from the civic department of the Commercial club, consisting of Dr. W. H. Byrd, chairman; L. H. McMahon, Fred E. Mangis, H. O. White, F. B. Southwick, director of the civic department, and Ivan G. McDaniel, manager of the Commercial club.

Between the two bridges on the Polk county side is a 20 acre tract with a sandy beach that will be cleaned up and made into ideal picnic grounds. All dead brush and shrubbery will be removed, sand will be brought for the children's playgrounds, and everything done to make it an ideal park and bathing beach for the city.

Mayor White was appointed a committee of one to secure from Polk county the right to erect steps from the west end of the bridge and to confer with the railroad to secure the right to construct a road over part of its property to the beach. Plaster Bros. have already given the committee the privilege of crossing their land.

Arrange for Autos.
For the parking of automobiles, ample provisions will be made and the road leading to the beach will be graded and put in shape for travel.

Dressing rooms will be constructed for men and for women and also for boys and girls, with a regular checking system for the safety of clothing and valuables. For the children, besides sand piles, swings will be placed in the park and other playground apparatus. Refreshments will be sold on the grounds and a place arranged for bonfires and camping privileges for people of Salem.

Joseph Albert, who has given the grounds for the municipal beach, will send dredges to level high places on the beach and place sand on the shore.

Work on clearing the park will begin next Friday afternoon and the committee in charge, Ivan G. McDaniel and Fred Mangis, would like to hear from the young men and others who will assist Friday afternoon in clearing the grounds.

For children, there will be no charge whatever. For the grown-ups, in order to secure a revenue to pay those in charge of the park, there will be a charge of five cents. Arrangements will also be made for a launch to carry passengers across the river at five cents per carry.

The committee hopes to have everything in shape within a week or so and present to the people of Salem a bathing beach and picnic park superior in every respect to the beach of last year.

WANTS TO SOLICIT FOR DEACONESS HOSPITAL

Will Ask Commercial Club
for Card Permitting Can-
vassing City

The mercantile department of the Commercial club at the regular monthly meeting this evening, will be urged to grant a card giving the privilege of soliciting to F. B. Wedel, who is here endeavoring to interest the citizens of Salem in the erection of a deaconess hospital under the direction and auspices of the Menonite church.

At a meeting several months ago of the Commercial club, endorsement was given Mr. Wedel. Later he was refused the privilege of soliciting funds in the city by the Mercantile department.

Mr. Wedel was instrumental in establishing the deaconess hospital eight years ago at Newton, Kansas, and at present they have more than \$100,000 invested in that city in buildings and property. Three and a half years ago he went to American Falls, Idaho, and through the assistance and encouragement given, erected buildings to the value of \$25,000 and established a hospital that last year accommodated 422 patients.

On account of the number of Menonites in the valley, Mr. Wedel is favorably disposed towards Salem. He comes with recommendations from the leading medical authorities of Idaho and a personal letter from a judge of the Idaho supreme court.

The proposition to come up before the Mercantile department of the Commercial club tonight is whether Mr. Wedel will be given a card permitting him to solicit subscriptions. The petition asking a favorable consideration of the plans of Mr. Wedel, to be presented to the Mercantile department this evening is signed by Drs. Robinson and Morse, Dr. F. H. Thompson and a number of prominent citizens who believe a hospital bringing Menonites to this country would be of advantage to Salem. Joseph H. Albert, president of the Commercial club, is also strongly in favor of giving Mr. Wedel all possible assistance.

It is probable that if Mr. Wedel is turned down by the Mercantile department tonight, he will make no further effort to establish a hospital in Salem.

George W. Whitney of Woodburn was in the city yesterday, registering at the Capital hotel.

Dr. and Mrs. E. M. Johnson and daughter of Portland are guests at the home of H. E. Bolinger.

Mrs. Alvin Ball of Corvallis returned to her home yesterday after a short visit at the home of J. W. Feathers. Frank Ward is attending the annual convention of the Oregon State Pharmaceutical association at Seaside. He will return Friday.

Arthur S. Benson, assistant clerk of the supreme court, and Mrs. Benson are spending a few weeks vacation in Linn county, at the home of Mrs. Benson's parents.

W. W. Spayd, of Seattle is visiting in Salem. He is greeting old friends having been a resident of the city several years ago. After a few days in the city, he will continue on his journey east.

Mr. and Mrs. L. R. Daines and son have been visiting at the home of J. W. Feathers. They are making a trip encircling the United States. Mr. Daines is general freight agent at Santa Clara, Cal.

MASS MEETING WAS NOT WELL ATTENDED

Autos and Good Weather
with Belief Congress Would
Provide the Cause

Salem patriotism has been shown in many practical ways, but last evening the good citizens of the city were not in a mood for a mass meeting and as a result what should have been a crowd taxing the seating capacity of the armory, resulted in the attendance of possibly 150.

In his opening address, Justice Burnett as chairman of the meeting, said that the boys at the front were experiencing hard work and that it was the duty of those at home to back them up and to also see that those depending on the soldier boys should not suffer.

Lieutenant Niemeyer in an interesting talk related that from his experience as a soldier in the British army, the boys not only needed a change from the regulation army rations, but that while sending clothing and comforts, it might be a good plan to just send along some vermicelli as insects of all kinds were sure to be troublesome.

The Rev. Harry E. Marshall was rather disappointed that the wave of patriotism was no stronger, judging by the size of the audience. He put the proposition strongly claiming that this nation within the next 10 years would be called on to do what it had never done before and that within a few years, there would of necessity be a change for the good in a greater patriotism and a willingness that this country should bear its burden as one of the progressive nations of the earth. Woodburn Raised \$1,200.

Rev. James Elvin was of the opinion there was need of great patriotism, especially as many families dependent on those at the front, were in actual distress. He also referred to Woodburn's generosity in raising a fund of \$1,200 for her soldiers.

While the mass meeting was a disappointment to some extent, the statement that individuals had come to the front offering to help during the absence of Company M brought out the fact that the patriotic feeling was not entirely dead.

Cards were passed through the audience by which the opportunity was given to pledge certain amounts each month.

The small attendance and lack of interest in the mass meeting was due to several causes. The weather was perfect for automobile riding, the impression that congress would give \$50 a

month to dependents of the soldiers, and the thought that within a few months the boys would be home all served to prevent a genuine demonstration.

The program of the evening included singing by Mrs. Hallie Parish Hinges whom Justice Burnett introduced as a woman we all love and who has a boy at the front; a selection by Tom Ordeman, orchestra pieces and the singing of a patriotic song by George Wilson of Medford.

The Salem rifle club marched into the hall in ranks of four, adding a touch of the military spirit. The meeting last evening was just the beginning of the efforts of the Patriotic league to make life pleasant for the boys on the border and in the effort to relieve those in need in the city.

Market Was Sluggish and Prices Slumped

New York, July 11.—The New York Evening Sun financial review today said:

The stock market in its general characteristics today showed little change from the conditions prevailing yesterday. Dealings were largely professional, but the steady slipping away of values influenced some liquidation and there was a considerable degree of nervousness at the outset over the sharp upturn in money and the violent break in industrial Alcohol which marked the preceding days. Close Bear pressure was directly primarily against automobile issues and Studebaker Corporation, Maxwell Motors, Willys-Overland and others of the group declined two to six points or more in the forenoon trading.

Special pressure was directed against Mexican Petroleum in connection with the reports of further activity on the part of General Villa and the Mexican bandits.

Prices moved erratic in the later trading and while some issues rallied, others slowed off to a lower level than before and among the latter Mercantile Marine preferred developed special weakness. Bonds were quiet and generally easier.
