EVERYTHING READY SAVE THOSE NEEDED

Plenty of Harness But No Horses—Lots of Music But No Garbage Cans

By William G. Shepherd (United Press staff correspondent) Brownsville, Texas, July 24.—Militia from President Wilson's own home town was no more ready to go into Mexico than any other state militia along the border.

Col. W. J. Perry of the First Virginia, whose home is in Staunton, spoke smilingly today in his tent of what he hoped would be sent him in the way of supplies. He has a machine gun company that is already to go into Mexico except that it has no machine guns.

He has 20 fine transport wagons ready for immediate use; the harness is in excellent shape, with buckles and everything, but he has no horses. Fewer than half his officers have mounts. The band comes from the president's town, has plenty of horns and drums, but the incinerator tins, which are used in destroying garbage, have not arrived.

"In a pinch, if we had to go into Mexico, officers could ride in Ford's," said Col. Perry. "We could hitch our wagons behind motor trucks."

"How much time would you want to prepare your regiment to go into Mexico?" I asked.

"It would require two months."

The president's home regiment arrived with 975 men, but two of them were Indian graduates of Carlisle and were dismissed by inspectors of the regular army under the rule that they are not citizens, but wards of the nation.

Except for these troubles, the regiment is in excellent shape.

POLICE HAVE CLEWS TO DYNAMITE OUTRAGE

Get Description of Man Who Left Suit Case On Sidewalk—\$5,000 Reward

San Francisco, July 24.—To run down the dynamiter whose hand dealt death Saturday of six persons and injured 36 when a bomb exploded on Market street during the preparedness parade, all the energies of the city San Francisco were called into action today.

Following the announcement by Mayor Rolph that he would personally guarantee a reward of \$5,000 for the apprehension of the criminal, Chief of Police David White established a separate and exclusive bureau in the detective department, devoted wholly to this case. The new bureau will continue to exist "as long as the dynamiter is at large." The aid of other large cities, whose police departments have anarchist experts, has been asked and it is said that their detectives best informed on anarchist groups will cooperate with the local men.

Chief White expressed the opinion today that the dynamiter was an anarchist, and he believes the man was taught to make such a powerful, deadly contrivance by other anarchists.

Meanwhile, the detectives are working on several clues, and are still holding Frank Josefine, who was detained Saturday because of remarks he was heard to make after the explosion. The most promising clue was furnished by William Taylor, an aged peddler, who said he saw a man leave a suitcase on the spot where the bomb exploded, at 1:30 p. m.—half an hour before the explosion. He remarked to the man, he said, that it was a poor place to leave his grip, but the stranger walked hurriedly away. Taylor was able to give only a meager description of him.

The list of deaths, as the result of the outrage, still remained at six today, although Miss Pearl Zeman whose leg was blown off, and William Turnbull, whose skull was fractured, were in a critical condition. All the less seriously injured were removed from the emergency hospital to their homes or private hospitals today.

OFFERS \$1,000 REWARD

Sacramento, Cal., July 24.—In behalf of the state, Governor Hiram Johnson this afternoon offered a reward of \$1,000 for the apprehension and conviction of the person or persons responsible for the bomb outrage in San Francisco. This is the maximum reward allowed by state law.
