

# Mary and Her Little Lamb

Mary was a willing child, And errands loved to run -

Then the lamb would tag behind A looking for some fun -

Now the note that Mary carried Was writ on paper green -

An Percy went an' swallowed it Like other grass he'd seen -

But Mary she was quick to act And saw the lamb was lean

An in a wink she had the Doc Read it thro' his machine

### SILVERTON LAND DEAL

With practically every house in Silverton occupied at the present time and few new ones under course of construction, many people have been wondering what Silverton will do with the increased population due to arrive with the starting of the new mill now being constructed by the Silver Falls Timber Company. It is certain that there will be many more families in the city as soon as the new enterprise is ready for business. In fact, many families have arrived in the city since the construction work was started, and nearly every available living room is occupied. The problem, however, is believed to have been solved. The North Side Development Company, which was incorporated several months ago and which is composed largely of Portland business men, closed a deal a few days ago with J. Wolfard & Company for ninety-two acres of land adjoining the mill property, and it is presumed that they will the tract off in city lots, erect houses and place the same on the market.

Just what the object of the new company is, as yet is a matter of speculation, but the general opinion is that the land will be used for a residence district and made an addition to Silverton. It is a beautiful building spot and comprises all the land the Wolfards owned in that vicinity.—Tribune.

### SILVERTON'S WATER SYSTEM

A special meeting of the city council was held Tuesday evening for the purpose of discussing the auxiliary water question and the letting of the contract for the work. It was unanimously voted by the members present that the bid of the Silver Falls Timber Co., in the sum of \$6,000 for the construction of the auxiliary water system be accepted and that the mayor and recorder be authorized to enter into a contract with this company.—Tribune.

### HURT IN LOGGING CAMP

C. O. Pitney, while working in the camp for the Silver Falls Timber company, met with quite a serious injury on Thursday afternoon of last week, and for a time it was thought that he was injured internally. He was engaged at logging where a dooskey engine is used, and in some manner, as the engine started suddenly, a large cable struck him in the pit of the stomach with sufficient force to hurl him some distance.

He was taken to the Silverton hospital that evening, and Sunday was able to go home. It is understood that the injury will not prove to be of a serious nature.—Silverton Tribune.

### HER PAIR OF SHOES

The girl worked in a five and ten cent store for the sufficient wage of \$5 a week. Her mother took in washing to help support the family—consisting of two smaller children, and a lazy, good for nothing father. This man was too lazy to even look for work. He would leave home late in the forenoon and sit all day on park benches, reading dime novels. He spent his evenings and mornings lying in bed, reading the cat's—his wife and daughter providing the money. The girl needed shoes. The wrecks she wore were falling from her feet. To prevent picking up splinters from the rough boards on which she stood all day behind the counter, she protected the bottoms of her feet by inserting pasteboard insides. Her evenings she spent with her feet in warm water to

reduce the swelling and soothe her tired feet.

Each week she took her unopened pay envelope home to her mother. Each week she was promised \$3 with which to buy new shoes. But there was always need for the familyarder; to provide beer and tobacco for her lazy father. Just how the half-always shoe girl finally succumbed to relentless fate and "sold out for a pair of shoes" is to be pictorially related in Bluebird Photoplays at the Bligh theatre on Sunday and Monday in a great moral and sociological revelation entitled "Shoes."

There is a lesson in this fable for every father and mother who have made themselves responsible for the welfare of a daughter—st expounds the greatest problem ever essayed in moving pictures and does it deftly, cleanly and with gripping interest.
