Selling Out The Chicago Store

Willamette Valley News

Bethel Locals

(Capital Journal Special Service.)
Bethel, Ore., Aug. 3.—John Zak and Frank Kunciter have been working with Roth's hay baler but this outfit has quit till more hay gets ready. Most of the hay is in the stack and not yet ready to bale. In fact there is not enough hay in the country to keep all of the balers busy. Felix LaBranch is baling for Harleigh King today. Star and Bartow baled twelve and a half tons for Ostrin Bros. in about four hours yesterday. The following have been cutting grain: J. M. Nichols, J. D. Clark, John Hain, A. E. Marchand, G. L. Johnston, Harleigh King, A. H. Fuestman, and Mr. Kunciter. H. B. Hoffman has plowed up his hay stubble already. Emil Aufrance, J. M. Nichols and A. L. Sundborg have also done some plowing. Those interested in power farming have doubtless seen posted on a fence east of the penitentiary, a notice to the effect that a farm tractor will be working there on the seventh, eighth, and ninth of August. The ball game Sunday was played with the Swegle nine on the Swegle diamond. Mike Battalione the south paw pitcher was there with the goods and with Cass Nichols behind the bat. Geer had a battery equal to the occasion. It was a good game throughout and the final score was 13 to 4 in favor of Geer.

Macleay Items

(Capital Journal Special Service.)
Macleay, Ore., Aug. 2.—A serious ac-

cident was narrowly averted when the steering knuckle of Mrs. J. M. Martin's Studebaker car broke while turning into H. E. Martin's gate. The accident rendered the car unmanageable and if it had not been for the cool head of Mrs. Martin, who drove, it might have resulted fatally. However, she applied the brakes at once and the only damage other than the broken knuckle was a bent fender. The other occupants of the car, Mrs. H. E. Martin and Miss Hazel Bugher, were unhurt. Jess Yeager and Donald Cory went fishing on Thomas creek Sunday. They reported fair luck. The W. W. Taylor and C. J. Ramsden families motored to Falls City Sunday. The Dan Miller family motored to McMinnville Sunday. Miss Elizabeth Cornelius was a week-end guest at the J. F. C. Tekenburg home. G. G. Tooker, formerly of Macleay, is assisting his son, Edward, during the harvest season. H. O. Taylor and O. L. Martin were Salem visitors Tuesday. Mr. and Mrs. E. E. Martin and J. M. Martin and family were guests at the H. E. Martin home Sunday. J. R. Crook, en route to Marshfield from the Chapman berry yard north of town, spent Sunday at his home here.

Pratum News Notes

(Capital Journal Special Service.)
Pratum, Ore., Aug. 3.—Mr. Albert Bentler, of Portland, visited with his parents Sunday. Miss Eleanor Schaap, who has been attending normal school at Monmouth for the past six weeks, is now at home. Mrs. Bertha Baer and two sons and Miss Lydia Powell, of Portland, are visiting relatives in this vicinity. Mrs. William McCullister and son,

Russell, were Salem visitors Tuesday. Mr. George Limbeck was a Salem visitor Monday.

Miss Eleanor and Miss Esther and George Schaap were all Silverton visitors Wednesday.

Miss Ella Powell, who has been attending summer school in Portland, is at home.

At the home of the bride's parents, Mr. and Mrs. Wm. Roth on the evening of July 29 occurred the marriage of Miss Bertha Roth and Homer Leisy.

The bride who is a beautiful and accomplished young lady, was gowned in white crepe de chine embellished with embroidered lace. About 40 guests were present. After the ceremony a wedding supper was served. Mr. and Mrs. Lucy left Friday morning for Kansas, where Mr. Lucy is employed in the furniture business. A fire which caught from a defective flue partially destroyed the store owned by Semsters brothers Tuesday evening. Aside from burning away part of the roof and one of the walls little damage was done. Hurried calls brought the neighbors who soon had the blaze under control.

Fruitland Notes

(Capital Journal Special Service.)
Fruitland, Aug. 3.—Mr. Ranner and his jolly crew of hands are baling hay for Mr. Donaldson. Mr. and Mrs. P. J. Egger went to Salem to cultivate their crop on the Andregg place on Centre street. Now that their girls are away picking berries, our neighbor, Mr. Bowers and his wife, are alone as in the old days when there was only "two." Walter Ransom has been riding the "hurricane deck" of a Flying Merkel motorcycle. Mr. Geo. Sturgis, who traded for the Thompson place here is very well pleased with his farm and is about the busiest man in Fruitland. P. R. Coulson is putting in the hay on the Whitchee place. Mr. Banta was in Fruitland looking after business for the Capital Journal. The Gerig boys are busy getting their wood hauled before the bridge is removed for the fall to be put in on the road near here. Mr. Liston and his son-in-law Mr. Rush of Salem, were in Fruitland Tuesday on insurance business. Miss Zigler, of Portland, is visiting friends in Fruitland. Any one wanting a first-class teamster call Frank Egger, phone 32-F34. Robert Coulson is working at the Loju factory in Salem.

However, it is far better to grin than to groan.

If you would please a woman, don't talk—listen.

Claxtar Items

(Capital Journal Special Service.)
Claxtar, Aug. 3.—Mrs. John Westley has secured a small instrument called an Acousticon which enables her to hear perfectly. By its use she is enabled to hear all ordinary conversation is also able to hear conversation over the telephone. Mrs. Westley's hundreds of friends in Marion and Polk counties feel that the day of miracles has not passed.

Newton Alderman, Mrs. Alderman and two sons, Clyde and Glen, spent Sunday with Claxtar relatives.

Dr. John Evans, Mrs. Evans, Mrs. Alex S. Hadden and Master Marie Hadden and John Evans, Jr., formed a sight seeing party to visit Columbia Highway this week. The party motored in Dr. Evans' big Studebaker.

Mr. and Mrs. William Mumper came down to Claxtar in their new Studebaker and spent the evening with Claxtar relatives, Tuesday evening.

Mr. and Mrs. Charles Reed of Claxtar have purchased a handsome new Ford automobile. Mrs. Reed can already drive the car very cleverly.

Some loganberries are being dried at the Rickman dryers here this week to fill special orders. The main crop, however, is being converted into the famous Loju.

Busby, Montana, is a warm town according to Roy Westley who writes from that place where he is in the Indian service, that 88 degrees is an everyday occurrence while the thermometer thinks nothing of taking a run up to 104 on special occasions.

Mr. and Mrs. Roy Westley are both well known in Salem. Mrs. Westley was Miss Bulah Maples before her marriage to Mr. Westley last February.

Thomas Newton is putting his noted white clover honey on the market this week. Mr. Newton says the large amount of rain while fruit trees were in blossom has materially reduced his output of honey this season. Mr. Newton, with an eye to the excellent brand of his honey, refuses to save any of the product which the bees make after the dogfennel flowers bloom—keeping this for the bees own use during the winter. If all beehives were as careful, the reputation of northwest honey would become nation-wide.

Edward Matthes and Frank Matthes spent Saturday in Portland.

It would seem from letters that the salmon fisheries near Astoria, where many Marion county boys are spending the summer, is at least one spot where weather is cool and delightful.

James W. Beecraft is paying a brief business visit to Oregon. Mr. Beecraft is now located in Montana.

Mr. Thos. Day and Mrs. Clyde Butcher spent Sunday with Mrs. Thos. Newton.

M. P. Bliven of Kaiser Bottom is very ill at his home.

Jefferson Items

(Capital Journal Special Service.)
Jefferson, Ore., Aug. 3.—Mr. and Mrs. S. H. Goin and daughters, Frances and Margaret, and Mrs. Goin's parents, Mr. and Mrs. W. W. Francis, of Albany, motored to Salem Sunday to spend the day with friends.

Mrs. Geo. Miller, of Springfield, is visiting with her son, A. C. Miller, and other relatives. A. L. Chute and daughter, Mary, drove to Liberty Sunday to be with the rest of the family during the day, where they are camped. Miss Mary remained to be with them until the loganberry season is over. Mrs. Chute's sister and husband, Mr. and Mrs. John Lagois, went down for the day.

Elly Vaughn returned to Portland Monday after a visit here. A terrible tragedy occurred at the farm home of J. L. Farlow, two and a half miles northeast of Jefferson, Saturday evening, when his youngest son, Harold, aged two and a half years, was burned to death in the barn. He was playing on the hay with his brother, Loren, who is about five years old. Loren had matches in his pocket and after setting fire to the hay ran to the house. By the time his mother reached the barn it was too late to save the little fellow and she was burned some in attempting a rescue. Mr. Farlow and the oldest son were in Jefferson when the fire started. They had just finished hauling hay that day at noon. The funeral was held Sunday afternoon at the Hunsaker cemetery about two miles north of Marion.

Mr. and Mrs. S. P. Goin, who have been residing at Coeur d'Alene, Idaho, and Mr. and Mrs. V. B. Goin and daughter, Lucile, of Portland, came up in an auto Saturday for a visit of several days with relatives.

Mrs. Estella Alexander is enjoying a visit with her new and family, who live quite a distance away.

Mrs. W. W. Warner returned the first of the week from a visit with her daughter, Mrs. Elmer Mangis, at Salem.

Quinaby Encampment

Quinaby, Ore., Aug. 2.—(Special to the Journal.)—At the Sunday sessions of the United Evangelical church now having its annual encampment here, there were eight hundred in attendance to listen to the tales of unawakened China told by Mr. and Mrs. A. Suhr, missionaries now on furlough in this country. The morning sermon was delivered by Dr. C. G. Poling, of Corvallis. A collection of \$75 was taken during the day. A party of 18 Quinaby and Hazel Green people motored to Willhoit Springs Sunday to witness the dedication of the new McClaren hotel that was built to replace that destroyed by fire not long ago. One hundred and fifty autos and 75 buggies were needed to convey the crowds, besides the large number of campers and hotel guests upon the grounds. Mr. and Mrs. Wm. Shafer and son, Ivan, attended from here.

CHEMAWA NOTES.

(Capital Journal Special Service.)
Chemawa, Ore., Aug. 3.—The big institute being held here is drawing big crowds of educators from all over the northwest. Adolph A. Berle, Professor of Social Ethics, spoke last night on "Education Which Separates." Professor Berle comes from Tufts college, Cambridge, Mass. Cato Sells is expected at Chemawa today, when he will deliver one of his matchless addresses on "Indian Betterment." Friday evening Dr. Arthur P. Wedge, of Boston, Mass., will speak.

We Again Call

Your Attention to Our Closing-Out-Sale

Chemawa Institute

Chemawa, Ore., Aug. 3.—(Special to the Journal.)—With 100 instructors of Indian youth in attendance from Oregon, Washington, California, Idaho, Wyoming, Utah and Arizona, and another hundred expected, the second bi-annual institute is in full swing at Chemawa. Dr. Adolph A. Berle, of Boston, gave the opening address Monday evening on "Education That Educates." Tuesday was given up to discussions on poultry and a lecture on the subject by Prof. C. C. Lamb, of O. A. C. Wednesday was "Horticulture" day, with a lecture Wednesday morning by Prof. W. S. Brown, of O. A. C. Thursday an agronomy program has been arranged with Prof. J. E. Larsen, of O. A. C., as principal speaker. The institute will last until August 13.

"Of course, you believe that great ones from little acorns grow?"

"Oh, yes," replied the cautious investor, "but only in a literal sense. I've seen that statement used so often in literature sent out by vily promoters that as a metaphor it has entirely lost its punch with me."

The bass drum makes a lot of noise because it is empty.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body-toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

Billy Announces

Picnic Bill of Fare

William McVilchrist, Jr., one of the food dispensers this evening at the fair grounds, for the Chemawa dinner and dance announces the following reasonable bill of fare: Mocha coffee and real cream, 5 cents; Coney Island red hot, 10 cents; weeping onions with sandwiches, 10 cents. The mustard and pickles in the sandwiches are free.

C. T. Pomeroy is on the program for an address of welcome which will be extended in the Chinese language. In words similar, Fred S. Bynon, another expert in Chinese, will reply. A soft drink bar will be run by Frank Spears, Curtis Cross, William H. Lech, Elmer Ladden and Dr. Prince Byrd. The bar used at the Chemawa Cherringo has been removed to the grounds and will do its part in making things look natural.

Fred S. Bynon will also assist in the wheel of fortune in which all will be given a chance at the rate of five cents per spin.

The time for the picnic is from 4 o'clock this afternoon until everything is over. The dinner will be served at the restaurant at 6:30 and those who are not present will find several stands selling at regular rates.

The jitney dance is the big thing. The Chemawa orchestra will play. Everybody is welcome and it is expected that the biggest crowd of the season will be on hand.

American Submarines First Crossed Atlantic

Los Angeles, Cal., Aug. 3.—A fleet of American made submarines crossed the Atlantic six months before the arrival of the German blockade diver Deutschland, according to a statement here by Louis Roquette, under secretary in the department of commerce, France. Six submarines made the voyage under their own power from New York to Toulon, France, Roquette stated. The submarines slipped out quietly from a pier near New York.

The trip was made in 14 days without incident. The under secretary declared the delivery of the American submarines in this manner was well known in French naval and governmental circles. Roquette is here on official business, in connection with the French display at the San Diego exposition.
