It was ordered by the county court this morning that Kate Fahy, widow of the late John Fahy and administratrix of his estate, be allowed \$75 per month for the support of herself and minor child, instead of \$50 as allowed on a former order.

Governors Make Aug. 9 Good Roads Day

Chicago, Aug. 7.—Headed by Governor Hiram Johnson, of California, the governors of the United States are taking recognition of national touring week by setting aside Wednesday, Aug. 9, as Good Roads day.

Governor Johnson, seizing the occasion to bid the citizens of the California commonwealth rally forth in their motor cars, and try out the new \$18,000,000 state highway system, issued his Good Roads proclamation directly upon his return from a campaign in a motor.

If there is one governor in the United States who knows the joys and comforts of motor touring when the roads are good and the directions are accurate, it is the governor of California. He has campaigned by automobile from one end of California to the other—"Siskiyou to San Diego," as the California politician and spellbinder usually puts it. When one considers that California is the longest state in the Union, some idea of what Governor Johnson knows about motor touring may be gained.

For a week emissaries of the R. F. Goodrich company and national touring week partisans trailed the governor to catch up with him and induce him to proclaim a Good Roads day. Governor Johnson, however, proved too adept and too speedy an automobile tourist to be caught. He was reached at least on his return from his campaigning, and promptly enlisted with the national touring week movement.

Charge Is Smuggling Whiskey from Canada

Portland, Ore., Aug. 7.—While Charles J. Bertelsen, former cafe proprietor, and Charles T. Robinson, boatman, were held in jail here today facing federal prosecution, squads of laborers under the supervision of secret service agents delved into the banks of the Columbia river near Flavel, hunting buried treasure.

In this instance, the treasure consist of 70 bottles of whiskey, which the prisoners are suspected of trying to smuggle in from British Columbia. When United States officers halted the launch and searched it, they found only half a dozen flasks. Wet sand on a shovel in the boat convinced detectives the remainder had been buried. Bertelsen and Robinson have been charged with smuggling.

THE POSSE GOT HIM

SACO LEADS COUNTY

Washington, Aug. 7.—Gaugway please, and make a place on your Rand McNally for the little town of Saco, Montana, with a population of 200, as per the 1910 census report.

Saco has 32 of its male citizens serving with Company G, Second Montana Infantry, now on the border, and another stalwart son serving at Peking, China, as a member of the United States Marine corps.

"If New York, Chicago and Philadelphia could be induced to give their sons in the same proportion," writes W. D. Miller, editor of the Saco Independent, to the marine corps officials in this city, "we'd have some real preparedness."

But in the meantime Saco wants to cast considerable shadow from its new place in the sun.

WOKED UP THE GUESTS

Chicago, Aug. 7.—Guests of the Blackstone, Congress, Auditorium and Stratford hotels were roused out of bed early today by the explosion of a bomb in the rear of the Shaw taxicab's building nearby.

Many windows were broken. The explosion is believed to be the outcome of labor troubles.

Real Live Models in Fall Bathing Suits at the Chicago Show

(By United Press.)

Chicago, Aug. 7.—Live models—the liveliest of whom wore bathing suits and were exhibited in a special fountain, characterized the Fall Style show of the Chicago Garment Manufacturers' association which opened today and will continue all week.

Wholesalers' invitations to buyers to attend the show at Bismarck gardens dwelt particularly upon the group of feminine swimmers in up-to-the-minute bathing costumes. Why the bathing suit display for fall wear no one knew and none seemed to care. It was a great attraction.

Chicago store windows were in the beginning of a week's boycott on out-of-town goods and gave their entire window space over to the display of "Made-in-Chicago" products, taking this method of doing their share to boost the show.

A half hundred garment manufacturers of this city had entries in the display. Each manufacturer was allowed four garments—provided they entered them on live models.

From 6,000 to 7,000 middle west buyers are attending the style show.

A feature of the show is a revolving stage which permits quick changes of scenery. Dinner will be served each evening, after which the show will be held.

Big Appropriation Bill Carries \$267,597,000

Washington, Aug. 7.—Carrying \$267,597,000, the general army appropriation bill today was reported to both branches of congress by the house senate conferees.

The largest previous army appropriation was \$101,000,000 made last year.

Several fights loom up as the result of the conferees' removal of what senators and representatives regard as vital parts of the bill.

Senator LaFollette's fight to make it impossible for a boy of 18 to enlist in the army or national guard from which he must be drafted into the army, without his parents consent, was stricken out.

Foreign pay will be allowed soldiers and guardsmen only if they actually cross the Mexican border. Senator Reed will fight to re-include his provision for the extra pay for all border patrols.

An amendment is made to the articles of war so retired officers may criticize the department or former superiors. This is declared to be Representative Hay's joker, to make possible an attack on General Leonard Wood by former Adjutant General Ainsworth in the now famous Wood-Ainsworth feud.

Two million dollars is provided for getting ex-cused guardsmen back home from the border.

Two million is appropriated for training camps Miller and Plattsburg to care for 40,000 men.

Two million is appropriated to give \$50 a month for the relief of dependents of guardsmen and regulars. Regulars will get the relief for their families only so long as the national guard stays in active service.
