Without exception, cooking authorities agree that deep frying not only is more healthful but more economical than shallow frying.

You can fry many foods in deep fat which you now fry in the pan or skillet.

With Crisco there is no smoke in the kitchen because Crisco reaches frying point without smoking. Test for proper heat with a bit of the food you are about to cook.

Use plenty of Crisco-about 3 lbs. on an average, so that the heat will not be reduced when the raw food is added bit by bit. There practically is no absorption if plenty of Crisco is used and the temperature kept high.

There is a great saving, because of the small amount absorbed and because you may use the same Crisco over and over. In fact, you can fry fish, onions and potatoes all in the same Crisco. Strain out the food particles after each frying.

A crisp, brown crust forms almost instantly. Then the inside bakes instead of soaks. Because of this fact and Crisco's vegetable origin, fried foods now are most wholesome.

eoming campaign. Among those from Salem attending were John Bayne, Mrs. Hattie Cameron, democratic candidate for the legislature from Marion county: Mrs. O. L. Dar-ling, Grank S. Ward, A. L. Seamster, August Huckestein and Miss Beulah George.

August Huckestein and answerther George. Besolutions were passed compliment-ing the president on important acts of legislation such as the childs' labor bill, rural credits bill, banking laws, and the new seamen's law. As for equal suffrage, the league took the stand that it was not a vital issue of the cam-paign, as the platform of each party agreed that suffrage for women should , be settled by each state.
