SOME SALEM FACTORIES

DEALERS WHO SUPPLY SALEM PEOPLE WITH THE POPULAR HOME PRODUCTS

For some weeks past the few merchants and manufacturers represented here have supported a last plea to the people of Salem to cease the ruling folly of sending their money away from home and to bring the local trade balance back to normal along with a resultant increased payroll.

When the express men find the bulk of their business in hauling people and all their worldly possessions to the depot, don't you think, dear reader, that conditions are worth your scrutiny. Mayhap if these conditions continue you will be paying your tribute to the express man, too.

Now, every town is just as prosperous as the aggregate wealth of its population. If John Smith buys four new tires a year for his car, as do 500 others in Salem, each year, bang goes \$100 that never comes back. All the gas-line money he spends is gone, never to return; \$900,000 per year is going out of this state at present writing for intoxicants.

Then there are other staples that Oregon does not produce such as sugar, metal and granite ware, cosmetics, drugs and so on that take our better than a million annually from the state.

With this constant and everlasting drain going on, can we afford to pass up a single opportunity. Can we afford to ignore that, small producers as we are, the balance being against us long enough, we shall be sucked dry? That all the money will be gone?

To get back to Salem, the local situation is identical.

If you buy a monument made in Indiana, Mr. Jones of the Capital Monumental Works will have just that much less labor to hire and the fellow who did make it will buy groceries in Indianapolis, instead of at Busick & Sons on State street.

If you need a pretty crepe de chine don't buy one made by outside labor, Help Mrs. Kelsey keep the three women she employs. You'll get a waist just to your measure and have saved money in so doing.

So let's all get to seeing the light and start buying from the man at home.

One of the busiest men in this little old town is Jim Dorrance, the man who paints a Ford every morning before breakfast. The Dorrance establishment is running full speed ahead and turning from ten to twelve cars a week out into the world spick and span and without keeping them out of use for longer than four to five days. A Ford can be repainted in nice shape by this concern for from \$10 to \$12 and for those who realize that it pays to use paint it is money well spent.

Chas. C. Miller, energetic manager of the Hotel Marion, is forcing the work on the new addition to the hotel so that all will be completed and furnished in time for the state fair. Speaking of the hotel, do you know that the finest merchants' lunch in Oregon is found at the Marion, and at only 50 cents?

A new carload of Whitman's candies is on the way to William Prunk's Red Cross drug store. The same regard for quality runs through his entire line and at his place it is "Once a customer, always a customer."

An unusually clever bit of stone work was turned out by the Capital Monumental Works last week for a Chinese family in Aurora. Besides the customary English inscription the complex and difficult Chinese characters were inscribed, and so skillful was the lettering the Chinese pronounced it perfect. Work like this shows that the home manufacturer can be trusted to turn out the very best monuments and to ably express your ideas in his stone.

Busick and Sons is the place to get anything in the grocery line if you care to patronize a man who features the home products. Both the Salem butters, Marion and White Clover, which go best with Pan Dandy bread, made by the Salem Royal bakery, not forgetting the health drink, Cereo, are to be found at this modern grocery.

Get acquainted with the new Eppley's baking powder label. The best way to become a steady user is to convince yourself of its superiority by ordering a trial can. When mixed with Perfection flour made by the Capital City mills, a bread is produced that will delight you. Nothing better is made than the products of the home manufacturer who bases his institution on a foundation of honesty, value and quality.

Green Does Not Know Anything About It

San Francisco, Aug. 9.—Who can tell John F. Green, aged 44, and sailor, what he did from July 26 to August 12?

Green doesn't know. He told Alfred Growney, attendant at the detention home, today that he was standing on the corner of Third and Market street reading a newspaper when his mind became a blank.

Green said he came to his senses on the same corner August 1 and has since been trying to figure out what he did during the time his memory failed him.

He said he had more money in his pocket and was better dressed than when his mind became a blank, but that he cannot remember where he bought the clothes or how he came by the money he must have paid for them.

In states where beauty is taxable no woman ever tries to dodge the assessor.

LAST GERMAN NOTE WILL BE MADE PUBLIC

Said to Be Admission That America Is Right In Submarine Controversy

Washington, Aug. 10.—Announcement that the last German note on the Lusitania, submitted to the state department nearly six months ago, is to be published, is the direct answer to those who feared a return to power of the Von Tirpitz element in Germany, with a consequent renewal of ruthless submarine warfare, officials asserted. The publication is to be made with Germany's consent.

The note declaring the killing of Americans on the Lusitania was unintentional and expressing profound regret for loss of American life, is declared to be a complete guarantee in the name of the German people against any such submarine campaign as that which precipitated the recent German-American crisis. It declares a campaign of reprisal against other than

enemy subjects to be a "mistake" and is said to agree entirely with this country's view that non-combatants and particularly neutrals must not suffer.

Acceptance of the principles in the note is declared by its proposed publication. It is expected to clear up any fear that the U-boat warfare of a year ago will be repeated—containing, it is said, tacit admission that the campaign was a mistake.

Transmission Box Blew Out Scaring Many

New York, Aug. 9.—Blowing out of a transmission box on an electric New York, New Haven and Hartford train near the village of Van Ness threw scores of passengers into a panic and resulted in the injury of one woman, reports to officials stated here this afternoon.

Many passengers were suffering from the shock. Ambulances from three hospitals were hurried to the scene, but traffic was resumed on the line within 15 minutes and the accident was declared not to be serious.

The transmission box blew out with a loud report as the train was entering the Westchester yards and some pouring from the car gave rise to reports of a serious accident.

Proposes Trip Around World In His Canoe

Waterloo, Iowa, Aug. 9.—Albert G. Sarcher, manager of the Blackhawk County Abstract company, proposes a journey around the world in a canoe, which will beat the record of John Clifford who made the trip in a 20 foot sailing craft. He has figured out his itinerary for the 25,000 mile journey. He proposes to go up the west coast of America to Bering sea across the strait down the coast of Asia, around India up through the Red sea, the Suez canal, along the north coast of the Mediterranean to Gibraltar, then to England and Scotland, Iceland, Greenland and back along the east coast of America to New York.

PUT UP JOB ON BARBER

Portland, Ore., Aug. 9.—George Moyer, a barber, was in jail today charged with extracting a marked \$10 bill from the wallet of George McTarnahan while the latter was prostrate in the chair, his face swathed in tepid towels. McTarnahan said he previously lost \$40 under suspicious circumstances, so he marked the \$10 bill, got shaved, then called the police. Detective Snow alleges he found the bank note in Moyer's possession.

SHORT CIRCUIT IS CAUSE OF PANIC

Double Explosion on Chicago Car Starts Rush in Which Many Are Hurt

Chicago, Aug. 10.—A score of people were injured here early today, four of them probably fatally, when a double explosion, caused by a short circuit, wrecked a Halsted street car. Windows were smashed, wire guards on windows bent and the woodwork set afire. Forty passengers making a mad dash for the exits jammed in the doorways and many were hurt. Several leaped through the windows.

Motorman Arthur J. Heyden, caught in the rush to the platform, had to fight to use his controller and put on the air brakes. He managed to set them as the crowd swept him from the car.

Sparks from the second explosion set the car afire and the blaze spread rapidly. A call for help brought fire appar-

atus. Firemen and policemen joined in getting the injured from the blazing car.

"Let the car burn. Take care of the injured," the firemen were ordered and the fire was allowed to blaze for 20 minutes before it was extinguished.

A dozen persons whose injuries were not considered serious were given first aid treatment and sent home. Had it not been for the panic, traction officials said, none of the passengers would have been hurt.

Culinary Workers Forbidden to Picket

San Francisco, Aug. 9.—A temporary injunction forbidding members of the striking union of culinary workers from picketing in front of the Hofbrau cafe was issued today by Superior Judge Hunt. The union representatives were ordered to appear in court August 18 to show cause why the injunction should not be made permanent.

The Hofbrau attorneys based their application for action on the ground that union pickets, in front of the cafe, were intimidating employees of the company has prevented them from reaching their places of employment. The case will be used as a test.

Tasmania yearly produces about 1,000,000 pounds of hops.

Brothers Take Brides Back to Alaska Homes

San Francisco, Aug. 9.—Frank G. Marcus, of Redwood City, and his brother, Henry C. Marcus, of this city, are on their way today to Alaska each with a bride, as a result of a promise the brothers made each other years ago that in case one desired to marry, the other would do likewise and there would be a double wedding. Henry's announcement of his engagement to Miss Hetty Matthews of Santa Rosa, was followed by Frank's engagement to Miss Helen Walker of this city. The double knot was tied yesterday.

CAPTURING POSITIONS BUT STEADILY RETIRING

Berlin, Aug. 9.—West of the Fortress of Lutsk in Volhynia, German troops continued the capture of lost positions, the war office announced this afternoon. East of the city of Stanislaw, the Austro-Germans retired behind the line of Nisiof-Tdismia-Ottynia.

TO TEST RAILWAY MAIL LAW

San Francisco, Aug. 9.—Indications that some of the new provisions in their new railway mail law are to be tested on the coast are seen today in an order from the postmaster general to Jess S. Roberts, division railway mail superintendent to be in readiness to go to Washington for a conference. He is the first division superintendent to be so notified.

STRUCK OFF SOME NAMES

Washington, Aug. 9.—Two or three American names have been removed from the British trade blacklist since America protested, the state department announced this afternoon. This removal was accomplished by unofficial representations showing the damage that would be done through cancellation of unfilled contracts.

ST. PAUL GETS TILE FACTORY

St. Paul, Or., Aug. 9.—St. Paul soon will have a cement tile factory. H. N. Hantz has purchased machinery and is repairing the premises recently occupied by the bakery across the street from the bank. The products will include tile of any size, also building blocks, foundation blocks and cement posts.

We mail your paper to you during your vacation. Phone 81.
