CHEWING GUM IS NECESSARY PART

Margaret Mason Says Gum Is Essential to Feminine Make Up

By Margaret Mason. (Written for the United Press) A most aesthetic maid is Jenny. For she had but a single penny; What she spent it for a rose; Yet she'll eat now goodness knows.

New York, Aug. 11.—What Wordsworth wrote of Peter Bell: "A primrose on a river's brim a yellow primrose was to him and it was nothing more," applies just as truly to all the Peter Bells of today and most every Tom, Dick and Harry besides, to say nothing of a few James and Bettys.

Stiek that yellow primrose in a low blue bowl in one of those Japanese bronze flower holders, add a hand painted paper butterfly tremblingly poised and vibrant on a long slender wire, fasten a china blue-bird on the one edge of the bowl with a bit of your chewing gum and a painted glass butterfly on the other, with the rest of your gum stick and let even Peter Bell would see something more to the jaundiced primrose.

These new Japanese flower arrangements certainly are attractive. They make more defensible a flower or two than huge masses of them. Even the humblest of flowers becomes raised to as decorative heights as her more costly and exotic sisters. In fact a loose cluster of field daisies and red clover arranged in a shallow bowl of green or mauve becomes the acme of beauty.

Wondrous in variety, coloring and shape are the lovely shallow dishes for the flowers. Not the least of these are those of glass painted in some one solid color. Black perhaps is the most effective.

The many accessories that go to make up the perfect whole of an artistic flower arrangement are indeed startling. In the old days of stiff set bouquets, if we had the flowers, the vase and the water we said "sufficiently."

Now at least one handpainted bird of glass or china is a necessity to poise deftly and gummily on the edge of the bowl. A butterfly of like manufacture is also almost indispensable and then the ones quivering on wire do add so much.

There are also waxed paper pond lilies to float on the water, tiny green and red glass fish to gleam on the bottom of the bowl. The fish and the lilies are really more effective in the bowls of crystal or transparent colored glass. The pottery bowls and Chinese porcelain of deep yellow, purple, greens and old blues show up the gorgeously painted birds and butterflies.

If you want something truly lovely try some purple iris in a bowl of turquoise blue or astartiums in a bowl of brass.

From the Japanese influence in our decorations we leap lightly to Chinese influence in our other home furnishings.

Whole bedrooms and dining rooms in Chinese lacquer furniture are pleasing and artistic to a high degree. Chinese lacquer lamps, either yellow or table lamps, are stunning in black or red lacquer with gold decorations and pagoda shaped shades.

Mirrors round, oblong or square are framed in lacquer and some ornate have inset panels of gilded Chinese wood carving with gorgeous Chinese tassels dangling from their corners.

Pieces of Chinese brocade and embroidery deck pianos, tables and chairs and over all gleams a golden glow of lights in handpainted Chinese lanterns of all silk.

All we need to do further is to light a punk stick or two and we have the real Oriental atmosphere as well as immunity from mosquitoes.
