PUBLIC SCHOOLS TO OPEN SEPTEMBER 18

Board Has Everything in Readiness—Fletcher Is Physical Instructor

The Salem public schools will open for the fall session Monday morning, just two weeks from today.

Primary pupils of the Grant, Lincoln and Washington junior high schools will all be housed in the main buildings this winter. No cottages will be rented nor will any temporary buildings be erected on the junior high school grounds. This was definitely decided at a recent meeting of the board of education and was made possible by a re-arrangement of the classes by Superintendent Todd.

All junior high school pupils will attend at the three junior high school buildings. The ninth A grade of the Washington junior high school that attended at the senior high school this spring will be returned to the Washington school.

Teachers for all departments and rooms have been engaged. This year by a re-arrangement of classes, there will be two less teachers than a year ago. Three teachers at the McKinley school this was made possible by employing three teachers in the McKinley school instead of four and by having three teachers do the work that was formerly done by four in the science department of the high school.

Wellington Fletcher has been employed as a teacher of physical instruction. His work will include physical instruction in the grades, junior high schools and senior high school. Coaching in the high school will be in charge of different members of the high school faculty. Mr. Fletcher's work will be entirely as physical instructor and no coaching.

A meeting has been called by Superintendent Todd of all the principals of the schools for Tuesday, September 5, and of all the teachers on Saturday, the 16th.

There were three women.

Ambulances and automobiles parked outside were immediately put into service and the victims rushed to hospitals and doctors' offices.

The section which collapsed was about twenty rows deep and at an elevation of 20 feet. Probably 50 persons went down with the fragile timbers. The victims had to be dragged out from a twisted mass of lumber. Police and firemen did practically all the work and the crowd in the arena was unusually well contained. The band played through the entire period of excitement. The sale of three dollar seats was immediately stopped.

The most seriously injured are suffering from broken limbs.

Promoter Pitts estimated the cost to the club through the collapse of the bleachers to be \$5,000. Hundreds of

fans turned away from the box office at sight of the wreckage.

At the start of the first preliminary 7,000 persons were seated.

At 2:45 the crowd was beginning to forget the accident and discuss the more important business of fighting. It impatiently awaited the calling of the second preliminary.

sibly within four weeks, is now looked for by the German public.

Under pressure of the British and French military authorities and diplomats, the Zaimis cabinet is expected to declare war on the central powers as soon as the Greek army can again be mobilized. It is estimated that it will take at least four weeks to put the Greek military forces in shape to fight.

German military men are not at all perturbed over the probability that they will face still another enemy within a short time. The majority of the Greek soldiers are opposed to warring on the Germans and it is thought that they will not outrank the demoralized Serbs as fighters because of this opposition.

Austrian Losses 450,000. Rome, Sept. 4.—About 450,000 Austrians have been killed, captured or so seriously wounded that they cannot return to the front in engagements with the Italians since the Austro-Italian declaration of war 15 months ago.

This estimate was made today by Italian military authorities. They estimated that 150,000 Austrians have been killed; 200,000 permanently disabled, and 100,000 captured.

WHITE HOUSE SHOES ARE BUILT FOR CRITICAL PEOPLE

Your New Fall and Winter Shoes

It is tremendous important that they should bear this brand.

THE scarcity of leather in America has never before been felt as it is at present. In view of this fact it is only natural that a great many substitutes are finding their way into shoes. Such shoes, as a rule, bear no brand; the reason is obvious.

Manufacturers, who by honest and careful shoe making have attained fame and built up a business involving millions of capital, can not afford to hazard their reputation by placing their well known brand on inferior products. And, while GOOD Shoes have advanced don't believe the assertion that they have doubled in price at a jump, at least that is not the Barnes' Cash Store way of doing. Only as existing conditions have forced us, will you find that our prices have been gradually and only slightly advanced.

But, by all means buy Standard Branded Shoes, shoes that STILL HAVE the QUALITY regardless of higher cost. The brand we refer to above is one to which we have stuck for more than twenty years, simply because we have found them THOROUGHLY GOOD.
