and preventing the state from becom and preventing the state from becom-ing a dumping ground for unsound horses, are given as two of the leading values of the stallion registration laws, by Carl N. Kennedy, O. A. C., the sec-retary of the State Registration Board. Other advantages are that the laws pre-vent the use of hooms pediagrees and limvent the use of bogus pedigrees and limit the use of unsound sires. They are also an education for the breeders and tend to increase the public appreciation of good horses.

KEYES NAMED FOR GOVERNOR

Manchaster, N. H., Sept. 6.—With 54 of the 294 voting district still to be heard from, the unofficial figures of the state primary yesterday show Henry W. Keyes, of Haverhill, as the renub-lican candidate for governor and John C. Hutchins of North Stratford, as the

IRRIGATION AIDS FERTILIZING.

With irrigation farming it is pos-sible to plow deeper and use larger amounts of manure than is possible in other kinds of farming, without in other kinds of farming, without danger of excessive looseness and dry-ing out of the soil. This increased fertilization will in turn increase the water capacity, since the organic matter that is added is spongy and has a melowing effect on the soil. The water capacity should be kept up says W. L. Powers, of the Oregon Ag-ricultural college, so that the soil

Catengo, Sept. 6.—Passenger enginers, firemen and conductors now work, firemen and conductors now work.

The Listening to Good Purpose.

There is a species of sentry groups employed near the trenches. They are called "listening patrols," and their duties are to be always on the alert and give timely warning of any attempted attack. One night an officer on his rounds inspected a listening patrol stationed in an empty farm. He said:

"Who are you?"

The reply was: "Listening patrol.
