### Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning in side bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic looking men, women and girls with pasty or muddy complex-ions; instead of the multitude of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile outputs. virile, optimistic throng of rosy

cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a spoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the pre-vious day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the en-tire alimentary canal before putting more food into the stomach.

Those subject to sick headache, bil-iousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who S. Wallace is chairman and to make final arrangements for the display during the state fair.

A case which has been in litigation fifteen years has been decided by the Supreme court. The judgment was in favor of the attorneys.—Nushville Ranger of the salt of the state internal sanitation.
