Mrs. Brown tells her grocer: "Please send me some tea—black tea."

And he does!

But Mrs. Brown, perhaps, doesn't realize that there are two distinct types of black tea: English Breakfast and Ceylon. And that she might like one better than the other. The way to choose tea is by taste. If you will send ten cents, we'll mail you the Taste Packet—the simplest, surest way to know good tea.

The Taste Packet contains four parchment envelopes of Schilling's Tea—Japan, English Breakfast, Ceylon and Oolong—enough to make five or six cups of each taste. Address: A Schilling & Company, 333 Second Street, San Francisco

#### COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain multifid coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifid coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Mr. and Mrs. B. E. Carrier returned Thursday evening from a motor trip to Portland. They were accompanied to Portland by their guests, Mr. and Mrs. J. T. Ohl, who were returning home after a several days visit in Salem.

It would be greatly appreciated by the Salem Patriotic League if all those desiring to assist in providing viands for the banquet to be given Monday for Company M, would call Mrs. S. C. Dyer, 330 North Summer street or Mrs. W. O. Asseln, 542 North Liberty street.

Men's social activities of the Willamette University were formally ushered in last evening when the members of the Webstorian Literary society met in their parlors in Waller hall to elect officers and to map out the year's work. Laban Steeves was the unanimous choice of the society for president for the first term of nine weeks. He is to be assisted by Maxwell Ball, vice president; Leslie Sparks, recording secretary; Adolph Spiess, corresponding secretary; James Ewing, treasurer; Earl Flegel, critic and Earl Proctor, marshal. There officers will be formally installed at the next meeting of the society which will probably be next Thursday evening. The occasion is always an impressive one and is marked by refreshments served by the incoming officers.

## TO BURY HATCHET AND NOT IN EACH OTHER

### The Obese One to Clasp Hands with His Inspissated Old Friend

New York, Sept. 22.—While the Union League club is the official dove of peace destined to bring former President Taft and Colonel Roosevelt together after years of estrangement, it developed today that William A. Willcox, national republican chairman and Elihu Root are the real peacemakers.

When the Union League club arranged to tender Nominee Hughes a reception on October 3, political leaders and members of the club saw a chance to repair a break in the party bonds. Willcox as a member of the club invited Colonel Roosevelt to attend the reception and Elihu Root, as president of

## WOMEN'S STOMACH TROUBLES

### The Great Woman's Medicine Often Just What Is Needed.

We are so used to thinking of Lydia E. Pinkham's Vegetable Compound as a remedy exclusively for female ills that we are apt to overlook the fact that it is one of the best remedies for disorders of the stomach.

For stomach trouble of women it is especially adapted, as it works in complete harmony with the female organism, since it contains the extracts of the best tonic roots and herbs. It tones up the digestive system, and increases the appetite and strength. Here is what one woman writes showing what this medicine does:—

Newfield, N. Y.—"I am so pleased to say I can recommend Lydia E. Pinkham's Vegetable Compound as an economical and beneficial remedy in most ailments pertaining to women. At least I found it so by only taking two bottles. I had indigestion in a bad form and I am now feeling in the best of health and owe it to Lydia E. Pinkham's Vegetable Compound."

Mrs. BURR WILLIAMS, R. D. No. 29, Newfield, N. Y.

Many women suffer from that "all gone feeling," and "feel so faint," while doing their work. Ten chances to one their digestive system is all out of order. A tablespoonful of Lydia E. Pinkham's Vegetable Compound after each meal should completely remedy this condition in a few days.

### FACULTY MAKES NEW RULES FOR STUDENTS

#### Cigarettes Mean Expulsion—Dancing Forbidden, Billiards Frowned On

Results of the new rulings of the Willamette university faculty have been particularly noticeable in student discussions on and about the campus this week. These rules are explicitly worded so as to leave no doubt that those students who are enrolled for work in the institution this year are to be held to a "strict accountability" to the new rules of the faculty.

Whereas chapel attendance was semi-compulsory last fall and grew more strict toward the second semester, this year sees the rules and regulations printed in unmistakable black and white. "All students are required to attend the daily chapel service in Waller hall," and "persons not fully approving this requirement are requested not to matriculate." A daily record is kept of all absentees and, if a student has five unexcused absences, his parents or guardians are notified; if he has eight such absences, he is automatically expelled from the university.

All social activities are to be subordinated "to conserve health and to promote scholarship." Mid-week dates are to be avoided.

For the mutual good will of all the faculty also adopted the following general regulations:

- 1. A student who uses intoxicants or cigarettes severs his relation to the university.
- 2. The use of tobacco is discouraged and its use upon the campus is forbidden.
- 3. Visiting pool halls and billiard rooms is discouraged and will be looked upon with disfavor.
- 4. Students are forbidden to hold dances and are requested and advised not to dance anywhere.

The reasons for the new rulings are printed on a leaflet handed to each student who desires to register. The introduction leaves no room for doubt. It reads:

"The necessity for orderly methods and certain requirements is recognized by all institutions of learning, as well as by every other association where men seek to accomplish a particular result. Unless there be established principles of guidance the desired end will not be attained, disharmony will be engendered, and every individual suffers loss. Because this is so important and so obvious, the university feels it proper to state that should any student find himself unable to approve the spirit and the government of the institution and be unwilling heartily to conform to them, he is requested not to register."

The club extended a similar invitation to Taft. Both men were informed that the other would likely be present and both accepted.

No formal burial of the Roosevelt-Taft hatchet would be considered but there will be a receiving line and in this receiving line will be three distinguished guests of the evening, Hughes, Taft and Roosevelt.

Chairman Willcox met Roosevelt at the Harvard club this afternoon and they discussed proposed campaign tours for the fall.

No definite itinerary was arranged, but Chairman Willcox informed Roosevelt that there were many requests for him and the two discussed the places where the colonel could do the greatest good.

All of Colonel Roosevelt's campaign speeches will be in large cities. He will make no general stumping tour stopping at way stations.

### RIVALS HER DAUGHTER IN YOUTHFUL BEAUTY

A well known society matron whose youthful beauty is so well preserved that she is regarded as her daughter's rival in this respect—though she does not pose as such—attributes her girlish complexion chiefly to two things. She says:

"I am convinced that many cosmetics, by overloading the skin and potting tend to age the complexion. Mercifully I keep the pores clean, permitting them to breathe, and removes dead particles of cuticle which are constantly appearing and which give the complexion that aged look. Whenever any skin begins to get the least bit off color, muddy or faded, I go to my druggist's for an ounce of mercolized wax; I apply this nightly, like cold cream, for a week or so, washing it off mornings. This is what keeps my complexion so fresh, white and velvety."

The absence of wrinkles and flabbiness I owe to the use of a simple face bath prepared by dissolving one ounce of powdered saxolite in a half pint of water. This keeps the skin 'tight' and firm."—Social Register.

ized workers shall be called out. Characterizing a sympathetic strike as "grossly violative of the laws," Mayor Mitchell has warned the labor leaders that he will use all of the "militia and civil power vested in the mayor," to cope with such a situation.

Backed by Samuel Gompers, labor leaders stoutly maintain that they will stick by their fight for the right to organize and claim that the struggle is on trade unionism and is vital to the welfare of all organized labor.

Gompers, in conference with Mayor Mitchell, gave unmistakable evidence that he will support the labor leaders in whatever action they decide to follow.

While the consideration of a general strike was under way, it was learned that many labor leaders suggest a general boycott on street railways as a more effective way to order all union men to stay away from their work until "proper transportation" is provided. They maintain that this will be a more peaceful and effective method of settling the difficulties than a general strike.

### Commission Gets In

The state industrial commission had entered the fight and exercising its legal rights has issued subpoenas for the traction officials and strike leaders to appear before it on Monday. The bureau of mediation of the industrial commission will argue the adoption of a compromise and will use its powers to the fullest extent to enforce the compromise which provides for the immediate calling off of the strike by labor leaders; the re-employment of strikers by traction lines; the reduction of the time of operation of the Interborough's individual contracts from two years to one year.

Meanwhile normal operation of the subway and elevated lines has been maintained. Intermittent disorders in various parts of the city kept the pulse busy during the night and early morning; but so serious disorders were reported. Partial night service on cross town lines was attempted for the first time with heavy police details.

Undaunted by the warning of the mayor, Hugh Frayne, state organizer of the American Federation of Labor said today:

"Trade unionists will not surrender their rights to organize in this city."

This was Frayne's parting shot as he went into the conference which will decide whether a general strike will be called. "We have made no threats of disorder," Frayne said, "and we cannot be held responsible for disorder. We have advised against it and shall so continue to advise."

### This Is Fourteenth Million Share Day

New York, Sept. 22.—The New York Evening Sun financial review today says: "There was no suggestion in the character of today's operations in the general market of an immediate cessation of the bullish activity on the part of the prominent Wall Street interests and the public. Professional traders exercised their talents in efforts to move prices to lower levels but in the best

part of the session the changes were in favor of the holders of long accounts, reactions when made being relatively small and having no bearing upon the general course of trading.

Although realizing liquidation was heavy, it was easily absorbed, especially in the Steel and Copper shares, which were active features throughout the day. United States Steel, common, In-spiration and Utah Copper.

Trading was in active volume in some of the rails, particularly in Reading, New York Central and Union Pacific, the movement in them accompanying a revival of talk regarding the possibility of increased or extra distributions to the stockholders. The same sort of talk was heard in Steel common. It was the fourteenth consecutive million share day and twentieth for the year.

Marked strength was shown in the greater part of the last hour with further decided improvement in Steel common which crossed 114 in Crucible Steel and Cuba Cane Sugar.

### PRISONERS ARE RELEASED

Washington, Sept. 22.—The thirty-eight Germans, Austrians and Turks who were taken from the American steamer China by a British cruiser some months ago, while en route from Shanghai to the Philippines, have been released according to a state department dispatch from Sydney, Australia. Their release was the result of a state department protest.
