A fight has begun by the Oregon Agricultural College against the California peach blight which is becoming a serious proposition in the Willamette valley. To determine just what spray is most effective, experiments in spraying began yesterday under the direction of the O. A. C. when Otto H. Elmer made the first application at the George W. Weeks orchard, two miles north east of the city. The second spraying will be made November 10. All the prunes in the Sunnyside district where experiments were carried on for six months, have been picked and a record made of the fruits taken from different sections of the orchard. This report will later be published by the O. A. C. showing the effect on the trees and fruit of the various spraying and mixtures.

State House News

The brotherhood of locomotive engineers at Roseburg has sent to the office of the state labor commissioner a recommendation that legislation be enacted making it a misdemeanor with penalty attached for a railroad company to promote a fireman to the position of engineer who has not fired an engine for at least three years.

State Forester Elliott says that the total loss from forest fires in the state this year is less than \$500. Last year the losses totaled \$29,000.

The C. J. C. Engine Manufacturing company, Portland, has filed at the corporation department notice of its intention to decrease its capital stock from \$50,000 to \$5,000.

Governor Withycombe has honored a requisition from the governor of California for Theodore Pappas, who is wanted in connection with a stabbing affray at Pittsburg on July 16. Pappas was arrested at Astoria.

Charles Cooney, of Portland, applied some time ago to State Engineer Lewis for permission to appropriate the waters of Multnomah creek for use on a private estate, representing that according to his understanding of the law the creek had been withdrawn from appropriation only that scenic features might not be impaired. The matter was referred to Attorney General Brown, an opinion from whom was received at the office of the engineer this morning. The attorney general holds that the legislature of 1913 withdrew from appropriation the waters of all streams between Sandy river and Hood river, and that under the law the engineer has no authority in the matter whatever.

The application of the town of Myrtle Creek for permission to use the waters of the South Umpqua river in the operation of a municipal power plant cost \$30,000 has been approved by the state engineer. It is proposed to construct a dam 27 feet high, creating a 20 foot fall.

The car shortage on the Portland division of the Southern Pacific was 1,444 on September 19, 1,428 on the 20th, and 1,434 on the 21st, according to reports received at the office of the state public service commission. Only five empty cars were received at Ashland during the past 24 hours. Thirty-five were received the 20th.

WANTED--A MAYOR
SALARY NO OBJECT
One With No Feelings To Be Hurt or Pride To Be Wounded Preferred

Several prominent citizens seem to be side stepping the nomination for mayor of the beautiful city of Salem. Since Hazley O. White came to the decision that he had done his bit in the way of serving the community as alderman for two years and two years more as mayor, there has been a general casting around for a safe and sane candidate and at the same time one who would ginger up things and give plenty of his time to city affairs—just for the honor of the job.

Yesterday a number of prominent citizens called on Lot-L. Pearce with the suggestion that he do the patriotic act and permit the mention of his name on a strictly non-partisan ticket. Mr. Pearce couldn't see it in the same light as some of his friends, although there are hopes yet that he will reconsider his first refusal.

W. W. Moore of the Moore furniture store also has had delegations calling on him with the gentle suggestion that he was the right man for the job and as yet there is nothing definite as to whether he would or would not consider serving the city as mayor.

Hal D. Patton is also among those "prominently mentioned." It is recalled that Mr. Patton has served the state as senator but there is no record that he has done his bit for the city, and therefore there are those who believe he should be called to the colors and give some of his time for the city's good.

F. G. Deekbeach is also in the line up as one of the possibilities. Mr. Deekbeach thinks he is really immune and is inclined to think the consideration of his name as a possible candidate for mayor something in the way of a joke. Some of his friends think otherwise, especially as a business man is wanted in the mayor's chair, and they think the Loju man measures up just right.

Russell Catlin is also in the limelight as a possible candidate for the head of the city, not because he stepped into the light, but from the fact that his friends pushed him through. They figure that the job of mayor requires a lot of time and that after the busy season in hops is over, Mr. Catlin could very well devote most of his working hours to the good of the community.

A. G. Bligh isn't saying much, although he has been among those mentioned. It isn't known even whether Mr. Bligh is in a receptive mood and

HUGHES WARNS LABOR
AGAINST ITS CHANGE
Insists That They Must Stand by Principle of Arbitration

By Perry Arnold.
(United Press staff correspondent.)
Anderson, Ind., Sept. 22.—In another of his short speeches today, Charles Evans Hughes went a trifle further than heretofore in warning organized labor of the dangers of surrendering the principle of arbitration, as evidenced, he said, in the Adamson bill.

"The time is not so far distant," he added, "when railroad companies refused arbitration and men sought in vain for that sort of settlement of their controversies. Now it is no friendship to labor—it is not a friendly act to labor—to dispense with that principle. I desire to suggest that it is very important that leaders of labor and men interested in labor legislation should think very carefully whether in this country they wish to give up the principle of collective bargaining and have the president establish wages fixed by law."

At Newcastle, first stop of the day, there were nearly a thousand men, women and children massed at the railroad station. They gave the candidate a rousing welcome and cheered his hoarse-voiced arguments. He spoke mainly about the tariff. Mrs. Hughes was frankly concerned about her husband's outstanding success in the tremendous strain of speaking as he did yesterday and as he is scheduled to do today. At Newcastle she let him speak for a few moments and then herself signalled to the manager of the tour, Charles W. Farnham, to tell the engineer to start out. Farnham obeyed and the candidate's voice was saved a little additional strain.
