Hayesville News

(Capital Journal Special Service.) Hayesville, Sept. 26.—Hayesville's big convention which met here today was a rousing success.

600 men, women and children were called to order by President Lloyd T. Reynolds, amid a beautiful setting of flowers and choice dishes. The devotional services led by Rev. Franklin M. Jasper were reverent and earnest.

"A Plea for the Children" by Hayesville's popular teacher, Miss Alta Paterson, was well received and was replete with high ideals.

"The Sunday School in Its Relation to Good Citizenship" was delivered by Governor James Withycombe on schedule time.

A packed house greeted Oregon's chief executive and his remarks were followed with the closest attention.

Said the governor in part: "The finest type of people in America are those found on this coast. The best type of any class finds its home among the Christian people where true religion and patriotism prevail; means the elimination of all tattling and mischief making and the ushering in of the true brotherhood of man. The governor spoke of the children as the hope of this great state and nation. He urged striving after purity of thought. He exhorted his hearers to a higher standard of citizenship. The problem of this extremely cosmopolitan nation is how to reach and uplift the children. The gov. took back from his experience as a Sunday school worker, and from his work as a practical farmer viewed this subject from his hearers standpoint, causing the clearest attention from his big audience."

Mrs. D. X. Beccalar gave much pleasure by her recitation of "Reck of Ages."

"The Sunday School as a Preventive Agency" was ably handled by Rev. Harold C. Stover. Dr. Stover is strongly of the opinion that prevention is better than cure. He carried his audience with him from the beginning to the close of his remarks. Humorous stories, apt illustrations, brilliant arguments, all bearing upon the one point of preventing trouble rather than curing the same. He thrilled his audience with his enthusiasm and zeal.

The basket dinner served cafeteria style, was most excellent, delicious coffee with cream was served by prominent matrons of Hayesville.

The business session and report of Sunday schools went through with dispatch.

"An Inquiry" was a brand new plan projected by Dr. Frank Brown and others of Salem, whom Dr. Brown, in his modest way described as "an aggregation of people anxious to help rural Sunday schools." The central idea is to enrich the rural Sunday school by extra talent imported from town thereby increasing the efficiency of the rural Sunday school. The plan seemed so unselfish and so reasonable, that it made an instant appeal to leaders present who propose to use this unthought of source of power to stimulate many a struggling rural

BANKER DAWSON HITS CONGRESS A LICK

Expresses Dislike of Adamson Law and Is Roundly Cheered

Kansas City, Mo., Sept. 26.—Free exchange is a thorn in the side of the country banker. This developed today when the Country Bankers' association, attending the American Bankers' association, adopted a resolution expressing themselves as in accord with the underlying principles of the Federal reserve act, but demanding that congress give relief of bankers from the free clearing of checks through the federal reserve bank. If congress fails to act, the country bankers will appeal to the courts.

The bankers had a hard time to stick to the subject of banking. Good words for woman suffrage and national prohibition by John Wagner, of Larned, Kan., brought cheers despite attempts to rule him out of order.

A. W. Dawson, of Duquport, Iowa, also got off the subject into politics when he declared: "Those here who believe every legislator a moral coward need only to look back to the closing days of the late session of congress for verification of that idea."

Five minutes of solid cheering showed his audience approved his criticism of the Adamson law.

INDOOR LIFE MAKES FAT

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT.

People who are enfeebled within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over-stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that the are too stout are advised to go to Central Pharmacy or a good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.

Carload of Whiskey Captured at Tacoma

Tacoma, Wash., Sept. 26.—One carload of perfectly good bonded whiskey is in storage here today following its seizure by deputy prosecuting attorneys and county detectives at Wilkeson, a coal mining town. The value of the contraband intoxicant is estimated at \$9,000, and was consigned by a San Francisco liquor firm to George Morris, a Wilkeson express man, who, however, denies all knowledge of it. The whiskey was billed as "grapes," and to carry out the deception, a layer of concord grapes about six inches deep was placed on top of each case of liquor.

When word of the seizure spread through Wilkeson, women and children armed with baskets, buckets and fishpans, flocked to the booze car, where the officers liberally distributed the luscious fruit free. Then the car was returned to Tacoma and in case no claimant appears within 10 days the authorities will confiscate the liquor and give it to the fishes in the Puyallup river.

Sunday school. All inquiry in regard to this to be addressed to President Lloyd T. Reynolds, Woodside Orchards, route 9, Salem, Oregon.

The ideal solo, "The Wre Ninety and Nine That Safely Lay in the Shelter of the Fold," by Mr. A. A. Schram, was one of the finest efforts of the day. Mr. Schram combines a voice of unusual depth and melody with a clearness of expression rarely heard.

Mrs. Gladys Carson, superintendent of the Junior Sunday school work of the county, was at her best in "Elements of a Good Lesson." Miss Carson dwelt upon the need of variety, vividness, and vitality in presentation of Sunday school work. "Personal Influence," said Miss Carson, "is a great influence in character building. Everything must be systematized in Sunday school work to save wasted time. See that each child works. Every boy loves to be active. Preparedness on the part of the teacher solves many of the problems of class work. Miss Carson is not only a successful teacher having received diplomas from eastern schools of learning, also teaching successfully in the east, but at present is taking the course of liberal arts at Willamette University.

Central Howell got the next convention. Pratum M. E. church Sunday school secured one banner. Pioneer secured the other. Thus closed the finest convention in Hayesville's history.

The term "free lance," now meaning a literary man who is in no one's employ, is a relic of the crusades, when companies of knights rode from place to place, offering their services to anyone who would pay for them.

SCHOOL BOARD'S ACTION SUSTAINED

Supreme Court Holds It Performed Duty In Discharge in Teacher

"The jury made no mistake in returning a verdict for the school district, and their finding is so eminently proper that the judgment should be affirmed, notwithstanding any errors that may have been committed during the trial."

Thus does Justice Harris conclude an opinion handed down from the supreme bench this morning in the much talked of case of Flora I. Foreman, the Columbia county school teacher who was dismissed by the school board because "she taught her pupils disloyalty to their government, among other things, that the government under which she and they live is 'rotten to the core.'" It was also incorporated in the evidence against her that she taught her pupils "that there is no God and that Jesus Christ is not the son of God."

The plaintiff in this case, after making a fight which disrupted the school and the entire community, sued the school district for one month's salary which she claimed to be due her under the contract, and the circuit court, Hon. J. A. Eakin, judge, decided against her. This judgment is now affirmed.

Other opinions handed down this morning: H. Nelson vs. Brown & McCabe, stevedores, appellants, appealed from Multnomah county, suit for damages for personal injuries, opinion by Justice Burnett, Circuit Judge Galloway's judgment for plaintiff affirmed.

Winona L. Woods et al. appellants, vs. J. Leroy Dunn et al. appellees from Benton county, suit to enforce specific performance of contract, opinion by Justice Burnett, Circuit Judge Hamilton's judgment for defendant reversed.

Harry M. Van Zandt vs. Ralph Willis et al. appellants, appealed from Multnomah county, suit to recover balance due from automobile, motion to dismiss appeal allowed, opinion by Chief Justice Moore.

Petitions for rehearing were denied in Clark vs. Clare, Berridge vs. Marion county, Mackenzie vs. Douglas county.
