## STEAMER IS SUNK AND SIX DROWNED

### Three Survivors Reach Shore This Morning Tell of Disaster

Oswego, N. Y., Sept. 25.—The steamer Roberval, bound from Ottawa to Oswego, went down in a storm five miles off Oswego early today. Six were lost. Three survivors were rescued.

In a battery lifeboat, half filled with water, three sailors, exhausted after an eight hours' fight with wind and waves, arrived at the coast guard station at 2 o'clock this morning with the story of the sinking of the Roberval. The steamer, which was loaded with lumber, sank six miles off this port at 6 o'clock last night.

Six members of the crew went down. The lost are: Captain Peter Eli, Ottawa, owner; Mate Joe Perridien, Alfred, Ont.; Cook Jennie Parent, Ottawa; Fireman Marcelle Messier; Henry Saguin, Hull, Quebec; Deckhand Theodore LeRoy, Hull, Quebec.

The survivors of the wreck were: Engineers Hilip Trotter, Hull, Quebec; Oliver Osage, Ottawa; Wheelman Ed Lagoe, St. Ann Bellevue.

In a heavy sea the Roberval's deck load of lumber listed.

Waves dashed into the craft, sinking her. The crew was washed overboard. LeRoy was struck by a board and sank immediately. The survivors' escape was miraculous. Trotter was thrown into the lifeboat and he picked Osage and Lagoe from the lake. The sea then dashed the lifeboat away from the wreck.

Other members of the crew sought safety on the lumber but a search today failed to bring rescue and they are given up as lost.

The Roberval was a steel boat.

### TEXAS FACES COAL STRIKE

Fort Worth, Texas, Sept. 26.—A general strike of coal miners in Texas appeared imminent late this afternoon when the operators, answering the demands of the miners, declined to grant the increase in wages asked. The operators offered to continue negotiations if the miners resumed work. The miners are preparing a reply which will be delivered tonight. It is believed certain they will refuse to return to work.

## MAY CALL SESSION OF THE LEGISLATURE

### Legislators Want This But Governor Whitman Opposed To It

New York, Sept. 25.—Governor Whitman will confer with members of the public service commission and give them his views on the street car strike and outgrowing labor troubles with a view to bringing the belligerents together, the governor announced today.

The word was given to a committee of state legislators who called on him, asking that he step in. They also asked that in event of failure to end the labor trouble by personal effort, that the governor call a special session of the state legislature to enact legislation making recurrence impossible. A special session of the legislature is not contemplated. The governor, it is known, does not consider the matter serious enough.

### Strike Due Tomorrow

New York, Sept. 26.—An extraordinary session of the New York legislature to deal with conditions growing out of the New York Traction strike will be requested of Governor Whitman this afternoon when the New York City members of the legislature will meet with him at the Hotel St. Regis.

The movement to hold the special session has the support not only of the New York legislators, but the strike leaders as well, according to reports.

Governor Whitman, however, on previous occasions, has not been favorable to the idea of a special session of the legislature and there is no certainty that he will accede to the request of the legislative committee.

The union leaders are now reluctant to make any positive prediction as to the number of workers who will respond to their general strike call but have announced that probably some of the unions originally scheduled to go out tomorrow will not join the movement until next week. The building trades councils of Manhattan and the Bronx deferred action until Thursday.

Leaders of the strikers declare that reports from the labor organizations regarding the "cessation of work" in

sympathy with the carmen are encouraging but claims as to the number that will respond have been reduced. Conditions never before witnessed here, are promised for New York City by William B. Fitzgerald, organizer. He said that many unions not now on the list would join those who will walk out tomorrow. These, he said, are being kept secret to prevent "blacklisting" of their members by their employers.

Two shots were fired at an "45" train early today and a striking guard, captured nearby was found to have a revolver with two empty shells. A beer bottle and a milk bottle crashed through the windows of an elevated train at Forty Sixth street, and several passengers were cut.

## BANDITS OPERATING 50 MILES FROM BORDER

El Paso, Texas, Sept. 26.—Pancheo Villa's bandit forces have broken camp and have started on a movement toward the lines of the American punitive expedition, according to reports reaching Juarez today from Mexican sources, and reaching Columbus, N. M., from the American forces. Since his attack on Chihuahua City 10 days ago, the bandit leader has been in camp about 30 miles outside that city.

As this is his first movement since the attack it is feared Villa intends to cut railway communication with the north or plans an attack upon other towns at once.

Military officials here refuse to believe Villa will hazard an attack upon Pershing's expedition. Others point out that as a last desperate effort to upset the delicate Mexican situation and discredit de facto President Carranza the bandit leader may send part of his forces against General Pershing's outposts to force a pursuit of the bandits and a further invasion of Mexico by American forces.

### Captured the "Army"

Juarez, Mexico, Sept. 26.—Roving bands of bandits are reported operating less than 50 miles south of the international border today.

With the arrival of several wounded soldiers here yesterday news of the battle of Samalyuca, 42 miles south of this city, spread rapidly causing apprehension among the townspeople of Juarez. According to reports current in the streets and sent to mining men from the vicinity of the reported battle, 300 bandits, believed to be Villistas, fell upon the 60 de facto soldiers garrisoning Samalyuca. Art of the garrison surrendered and joined the bandits. Those refusing to join were slaughtered. The wounded were left behind and were later brought north to Juarez.

At military headquarters here a clash between Carranzistas and bandits was denied, but one officer admitted there had been an action and that there was a reason for the hurried departure southward yesterday of General Gonzalez with 300 cavalry.

Warehouses, mills and the superintendent's residence at Esmeralda mine, a Guggenheim property at Sierra Mojada, Coahuila, have been looted and burned by bandits calling themselves Villistas, it was learned today.

### ELEVATOR FELL—TWO DEAD

Rock Island, Ill., Sept. 26.—Two men were killed, three injured this morning, one probably fatally, when an elevator in the John Deere Wagon company factory at Moline fell a distance of five stories. The dead and injured were employees of the company.

Up to six o'clock last night, the Southern Pacific had handled 135 cars for the state fair. This is already in excess of the number handled during the entire fair last year, all of which indicates that the state fair of 1916 has a larger number of exhibits than any previous fair, especially as the express companies report a volume of business double that of one year ago.

Fire practically destroyed the residence of Leroy Hewlett, at 463 South Capital street early this morning, together with its contents. The fire, which was caused by defective wiring, so it is thought, was discovered at about 2:45 o'clock. It was burning so fiercely when the department arrived that it was possible to save only the surrounding property. Mr. Hewlett's loss is about \$400, partially covered by insurance.

## CARRANZA GETS EVEN BY KILLING CIVILIANS

### Statement Made That More Than 200 Have Been Shot Recently

El Paso, Texas, Sept. 26.—More than 200 civilians have been placed before firing squads and executed since the Villista attack on Chihuahua City 10 days ago, according to a report made to military headquarters here. All were accused of "sniping" at Carranza soldiers during the fighting.

One of the prisoners released from Chihuahua penitentiary during the attack arrived here today. He asserted he had seen Villa and heard him talk.

In a statement made to secret service men the released prisoner said that 308 others released with him, were lined up before Villa personally in camp, 22 miles outside Chihuahua City and given their choice of joining the bandit forces or returning to the city. Thirty-six went back.

After being interviewed by the secret service men Mexican Consul Garcia took a statement from the former prisoner which has not been made public.

## L. W. Ws Take Possession of North Yakima Jail

North Yakima, Wash., Sept. 26.—Forty six L. W. W. agitators are in possession of the jail here today, holding at bay a cordon of officers, a big crowd of citizens and the fire department, which has repeatedly turned the hose on them in vain.

The outbreak started at 8 a. m. Prisoners ripped bars from windows, tore up floors, wrenched iron coats to pieces and began battering the wooden walls. In a short time the building was practically wrecked. It is being systematically demolished.

Yells of defiance greeted a stream of water from a fire engine. Unable to enter the prison, deputies formed a ring around it to prevent the inmates from dashing for liberty.

An effort may be made later to rush the jail and subdue the L. W. W. mob.

### Bring your agates home to be polished—Gardner & Keene, Jewelers, Salem.

The Salem Floral society is making a creditable exhibit and as a matter of local pride, the society would appreciate a goodly number of visitors from the city. Mrs. A. L. Wallace is now in charge of the exhibit. As the Floral society is working only for the good of the city and as the membership and annual dues amount to only 25 cents, an effort will be made this fall to bring the enrollment up to 1000, and when this number is interested, begin several improvements for the city, such as offering rose bushes free to those who will cultivate them.

### Completed petitions of candidacy have been filed at the city recorder's office by the following candidates for office under the city government: J. T. Welsh and Frank H. Shodeck, for chief of police; H. W. Elgin, for city recorder, and C. O. Rice, for city treasurer.

The boys from the border came back weighing about a ton more, provided they were all weighed at once. The average gain in weight is about 15 pounds each, and the look at the boys is evidence that army rations and going to bed at 9:30 is fine for the health.

In addressing the returning members of Company M last evening at the armory, Benjamin Brick spoke in part as follows: "Do not think because you did guard duty, your victory was a hollow one. Your victory was even greater than Caesar's when he held all Rome in the palm of his hand. Even greater than Napoleon's when he victoriously marched his soldiers thru Austria, Russia and France. You gentlemen, have won a bloodless victory far greater than had you won a bloody victory. You forced the assumptions Carranza to sit up and take notice. In conclusion, allow me to wish you all the luck in the world when you again take up your peaceful commercial pursuits."
