The high school students will be putting into practical use some of the things they learn during studying hours things they learn during studying hours according to the plans of superintendent John W. Todd, submitted to the board of directors Monday evening. For instance, the class in accounting or the Commercial department will have tae actual figures necessary to run the schools and the budget, and will figure the actual accounts and bills submitted to the school board. In the cafeteria, besides the cooking, the class will be allowed to de its own buying and paying of bills and collecting. By the time the girls have figured on the costs of materials and what is takes to feed a certain number, each will have some practical knowledge of house-keeping. Then the mannal training departments will be given the care of school buildings and repairs all of which will give them a chance to do real work besides their cabinet making.

What Does Catarrh Mean?

It means inflammation of a mucous membrane somewhere in the head, throat, bronchial tubes, stomach, bil-iary ducts or bowels. It always means stagnant blood—the blood that is full of impurities. Left alone, it extends until it is followed by indigestion, colds, congestion or fever. It weakens the system generally and spreads its operations until systemic catarrh or an acute illness is the result.

Peruna

Is the nation's reliable remedy for this condition. It restores appetite, aids digestion, checks and removes inflammation, and thus enables the membranes, through which we breathe and through which our food is absorbed, to do their work properly. Forty-four years of success, with thousands of testimonials, have established it as the home remedy—Ever-Readyto-Take. Its record of success holds a promise for you.
