Governor Will Parole Mrs. Kersch Soon

Governor Withycombe will grant a parole to Carrie Kersch within 30 days, as recommended at the last meeting of the parole board. Mrs. Kersch has served five and a half years for manslaughter. She entered the penitentiary April 25, 1911.

"I am influenced not only by the recommendation of the parole board," said the governor, "but especially by Mrs. Kersch's action yesterday when her warning, given at the risk of her life, thwarted Tanner's plan to escape from the prison. I have hesitated greatly to grant leniency in such a case as the one involved, but it does now seem that Mrs. Kersch deserves a chance. She has learned a bitter lesson."

The parole, the governor stated, would be held up pending the return from the east of Major Jessie Stark, of the Salvation Army. By mutual request it has been arranged for Mrs. Kersch to live with Major Stark. The conditions of her parole will be made very strict, so that at any time if her conduct is not entirely satisfactory, she will be returned promptly to the prison.

"THE MELTING POT"

The Redpath Lyceum Bureau makes announcement of the producing rights of the great American drama, "The Melting Pot," for Lyceum and Chautauqua audiences. Arrangements have been made with the representatives of the author, Israel Zangwill, for a thirty weeks' tour, with the privilege of extension.

No play ever presented for the Lyceum has had such a strong cast of players. The parts in this play require the services of the most accomplished and experienced actors. Nearly all of the players engaged for this tour have played the same parts during the long run of this play in the larger cities. There are nine players in the cast.

"The Melting Pot" is a great drama with an interesting story, but it is vastly more than an entertaining production. Mr. Zangwill symbolizes our land as the melting pot of the world. Into this crucible, beneath which burns the fires of our political and social philosophy, refugees from all parts of the earth, men and women oppressed by the arbitrary dictum of crime and religion, are poured, to be fused and amalgamated into the sterling gold of a broader, nobler humanity and a self-governed nation. It is a sound philosophy and appeals to every patriotic American citizen.

Coming to the Grand Opera House for one night, October 13.

REASON FOR CAR SHORTAGE

(Medford Mail Tribune) Phenomenal increase in business and inefficient management does not account for the shortage altogether. Every road is short of cars. Industries are closing down.

The railroads are run for profit instead of the public—therefore, to increase already fat profits on watered securities the railroads curtailed building of cars.

Every year sees a certain loss in cars an annual toll of decrepit rolling stock—an annual loss in wrecked cars. According to Railway Age Gazette, the railroads built annually 140,000 freight cars in the five years from 1910 to 1914, inclusive. This, then, is the number of new cars required annually to keep up with traffic conditions.

In 1915 the railroads cut their car orders nearly one half—ordering only 74,000 cars. In 1916, thus far, they have only ordered 60,000 cars. Is it any wonder the railroads cannot get cars?

That is why there is a shortage of cars—railroad greed for profits and railroad disregard of the public it serves.
