WANTED—Elderly couple to do light work on farm, home accommodations and small pay for services (German people preferred) Apply at 463 South Commercial street for particulars. **oct28**

WHY I AM FOR WILSON

By Bainbridge Colby
 Progressive Candidate for United States Senator in New York State, Who Twice Nominated Theodore Roosevelt for the Presidency in Progressive Conventions.

As a Progressive, I am supporting President Wilson because he is the foremost progressive in the country today. His record is one of devotion to progressive principles and of extraordinary persistence and success in translating them into law. The opposition to the President is sinister and contemptible. It is composed of all the shrill and discordant forces of envy, selfishness, privilege and faction, both alien and native.

The speeches of Hughes are nothing but calculating evasions. He is trying to play both ends against the middle, and by confining himself to timorous generalities he hopes to avoid offense to any section of his motley following, and thus "get" the voters "coming and going." His insincerity is contrasted with the courage, candor and patriotism of the President, whose re-election, I am thankful to say, is assured beyond doubt.

WILL TAKE STEPS TO SECURE DISCHARGE

Company M In Peculiar Shape — Will Take Law to Discharge Men

In order that the men of the Third regiment who did their three months of service on the border and who did not sign the federal oath and thus come under the control of the United States government may be given legal discharges, the acting adjutant general of the Oregon National guard, Major W. W. Wilson, proposes to go before the next legislature and ask for a law by which the men who do not come under the pay bill can be discharged. This information was received this morning by Captain Max Gehlar, commanding M company.

According to Captain Gehlar, the enlistment contract is a public contract and neither party can legally sever it except through due process of law. Under the new federal statute, the enlistment contract with the state has not been abrogated but the men who did not take the federal oath cannot be held by the state because the federal law prohibits the state from maintaining any troops other than those prescribed in the act. To clear up this situation the adjutant general will ask the legislature for a law granting legal discharges. Under the law discharges can be granted for several reasons but in the case of the men who are here in Salem they are not operative and the only way to discharge them legally is to have a law passed granting that power.

Under the new law that went into effect July 1, the old national guard companies had three options on mustering out of the federal service. They could be mustered out entirely and lose identity as an organization; or they could take the men who had taken the oath and organize a new company; or muster the old company into the federal service. This last is what took place with M company at Clackamas on September 19. So the company is still an organization.

Wheat Drops Back to the \$1.80 Mark

Chicago, Oct. 26.—Wheat recovered its early decline when new buying was encountered, but further liquidation by weak holders kept prices steady. December was up one over today's opening at \$1.80 1/2; May unchanged at \$1.79 3/4.

Corn opened lower but recovered under pressure from pit traders and longs, who feared the early movement of new corn. December was up 3/8 at 87 1/4; May down 1/4 at 88 3/4.

Oats were down slightly on free selling, December down 3/4 at 33 5/8; May down 1/8 at 37 1/4.

Provisions were lower on scattered realizing.

BEAN PRICES UNCERTAIN

Now it is the bean situation that is attracting attention. It seems that California has a fair crop but of poor quality and that Michigan has a good crop, the best in many years. The difference between the Michigan and California crops is 75 cents a hundred.

Coos Bay Towns Make Big For Naval Base

San Francisco, Oct. 26.—Marshfield and other Coos Bay, Oregon, towns are the only Pacific coast seaports to make any real effort for the locating of the big naval base by forwarding written statements, data, etc., to the part of San Francisco, San Rafael, Astoria and other cities seeking the base to furnish data regarding their claims is delaying the work of the naval committee seeking to recommend a site.

freight and the general feeling among local commission men is that there is a prospect of the market weakening when the California crop of inferior grade is thrown on the market about November 1. Farmers in this part of the valley are holding for higher prices.

A \$200,000 Fortune

From the Little

"Rooms for Rent"

Want Ads

There's a woman in Cleveland, Ohio, who has amassed a fortune of more than \$200,000 through the use of want ads.

Beginning with a small house with but two extra rooms which she advertised for rent, the foundation of the total was made in less than five years.

As income increased entire houses were leased and re-rented to roomers through the mighty little want ads.

Eighteen years have elapsed since the humble beginning, but methods have not been changed—the little want ad costing but a few pennies a day is still renting rooms—still piling up profits.

YOUR vacant room may likewise prove the beginning of a fortune.

Advertise it in the "Rooms for Rent" columns of The Journal, and keep the revenue coming. Then get MORE rooms, and keep them in the live, producing class, by the SAME unflinching means.

What one has done, others can do, and the little "want ad" will help you to success.

Court House News

Mrs. Lillian Sims, wife of Paul Sims, of this city, on petition of Mrs. Mabel Jensen was examined this morning by Dr. W. H. Byrd and committed to the state hospital for the insane by Judge Bushey.

A marriage license was issued this morning to Earl Waldo Baker, of Clyde Michigan, and Bertha Elizabeth Duncan, a Salem school teacher.

According to Ben F. West, county assessor, if the amendment to the constitution making provision that school districts can only levy six per cent of the past year's tax levy passes at the election in November, a number of school districts in Marion county will have to hold an election and make another levy. Under the present Bingham law the tax levy for school districts is not to exceed six per cent of the past two years. The new amendment would reduce this to one year, which, as the tax levies have practically all been made, will cause some school districts to exceed the six per cent limit should the measure become a law. The school district election would have to be held in order to comply with the new law.

George Fendrich, who is charged by J. P. Jones, district sealer of weights and measures, with "operating scales for hire without keeping a record of all weightings made and for using false weights," was taken before Justice

Webster this morning, who bound him over to the grand jury. Mr. Jones said this morning Fendrich, who runs a slaughter house south and east of Salem, had 13-16 ounces of lead in his weights, which, when computed on a large scale, is said to make considerable difference in weights. The discovery of the difference was made in the weight of hogs belonging to Charles Parks.

PARENT-TEACHERS ASSOCIATION

The Parent-Teachers association of the Highland school met last evening for a general social gathering and also a discussion of topics of special interest to the neighborhood. Short talks were made by Superintendent John W. Todd and director A. A. Lee. Arrangements were made for a picture contest this winter whereby whichever room brings the greatest number of parents to a meeting is entitled to the picture for the coming month. There was a discussion regarding the bad sidewalks leading to the school and the decorating of the school grounds. The patrons of the school expressed their pleasure over the fact that the partition in the assembly room had been removed.

LADIES AID SOCIETY

The eight circles of the Ladies' Aid Society of the First Methodist church

Portland Has Many Big Ships to Build

Portland, Ore., Oct. 26.—Portland ranks next to San Francisco in Pacific Coast shipbuilding, according to figures compiled here today. Thirty-eight contracts totalling \$21,920,000 in value are in the hands of local shipyards, the statement shows.

This table gives the following lineup:
 San Francisco 36 contracts worth \$40,000,000.
 Portland 38 contracts worth \$21,920,000.
 Seattle 24 contracts worth \$21,000,000.
 Astoria-St. Helens 22 contracts worth \$5,300,000.

met yesterday and decided on several plans for the coming winter. The most important was the decision to eventually have the church covered with a clubbing ivy, similar to the one on the city hall. Before this ivy is planted, the church will be painted with a water-proof paint. Other improvements contemplated by the aid society is that of linking the walls of the interior of the church and the placing of a rubber matting on the halls and stairways. The ladies are also planning to hold their annual banquet the first week in December. A report was made to the effect that the aid societies had cleared \$740 by their work during the state fair. Mrs. J. A. Mills has served as president of the eight circles during the past year and will be succeeded by Mrs. R. L. Steeves who will preside beginning at the next meeting.
