Three ducks and two drakes in a miniature lake with cattails in the corners and real mud on the floor forms the interesting window display of Watt Shipp's sporting goods house this week. Prosperity is all right if so many didn't get it at the same time. Just as the Salem Fruit Union has an abundance of orders to ship, the people who are manufacturing boxes for the Union have so many orders on hand that those of the Union cannot be properly filled, and as a result, the Salem Fruit Union forces have been laid off four days—just waiting for boxes in which to pack prunes and apples.

It was announced yesterday that flour would advance 20 cents a barrel yesterday in Portland and of course, Portland quotations are always reflected in Salem. But there seemed to be a hitch somewhere as several of the Portland mills refused to get in on the proposed advance, and the result was that no one advanced the figure five cents a sack. Hence flour in Salem is selling at the figures of yesterday. Score one for the good housekeeper.

New York Herald Concedes Wilson's Election—Result of Poll Taken

New York, Oct. 31.—The New York Herald's straw vote to date shows Wilson leading Hughes in states which have 331 electoral votes. Only 266 electoral votes are necessary for election. The states which the Herald gives to President Wilson are Colorado, Connecticut, Idaho, Illinois, Kentucky, Maryland, Michigan, Minnesota, Montana, New York, Ohio, Washington, West Virginia, Wisconsin and all the south. Even without New York which the president will carry by upward of 100,000 the Herald shows he would have 286 electoral votes.

"The drift during the week was unquestionably in the president's direction," the Herald says.

Columbus, O., Oct. 29.—The Evening Dispatch's poll to date: Wilson, 34,445; Hughes, 22,244.

Buffalo, N. Y., Oct. 29.—The Courier's poll to date: Wilson, 10,570; Hughes, 7,956.

The month of October was not such an awfully dry month after all, according to the records of the weather bureau at the O. C. T. dock. There was a rainfall of 1.43 inches, compared to 1.90 inches for October of 1915. It just happened that this amount of rain fell during four days, while a year ago the 1.90 inches were spread over 14 days. The highest temperature for October was 74 on the 15th of the month and the lowest 32 on the morning of the 4th. Eleven days were cloudy, seven foggy and 13 clear. The river rose .6 of a foot yesterday and now the gauge reads .3 of a foot below zero. The river average for the month was one foot below low water mark.
