CARLSTROM FLEW 975 MILES IN 517 MINUTES

From Chicago to New York
Average Time Was 110 Miles An Hour

New York, Nov. 3.—Victor Carlstrom swooped down from the sky today, landing at Governor's Island and closed his lightning like journey from Chicago. He had hung up a new American non-stop record yesterday and had made his journey at an average speed of more than 110 miles an hour.

Little more than a speck, he soared near the island just before 9 a. m. after quitting Hammondsport, N. Y., 315 miles away at 6:35 a. m. He circled beyond the island, while New Yorkers from their skyscraper galleries watched. Then he swept down from the air, glided gracefully across the parade ground and came to an easy stop.

His actual flying time for the journey of about 975 miles was eight hours and 37 minutes. He left Chicago yesterday morning at 6:09. Yesterday he made Erie, Pa., 425 miles from Chicago and then had to come down because just one little loose nut made further journeying impracticable. This shattered his hope of a Chicago to New York non-stop trip. But he swept on to Hammondsport, put up his monstrous 200-horsepower biplane for the night and then arising early did his 315 miles in two hours and 29 minutes.

Carlstrom averaged 137 miles an hour on the last leg of his flight. A stiff wind blew at his back all the way.

Officials of the Aero Club of America, commenting on this feature, declared that, so far as official records show, it is the fastest time ever made by an aeroplane.

Railroads Buying Cars In Large Numbers

Chicago, Nov. 3.—In consequence of the continuation of the extreme car shortage in all parts of the country, railroads are extending their rolling stock equipment through large orders for new freight cars of all types. This situation is resulting in a demand upon the general lumber market for large quantities of lumber of the various kinds that go into car construction, principally yellow pine, Douglas fir and oak.

Approximately 15,000,000 feet of lumber will be required to fulfill the contracts for new cars placed within the last 10 days, while if the many inquiries which have appeared in the last three weeks materialize into orders at least 25,000,000 feet, if not considerably more, will be called for by car manufacturing companies.

Orders placed recently and the amount of lumber which will be necessary to construct the cars are as follows:

Chicago & Northwestern railroad, placed with the American Car & Foundry company, 1500 30-ton box cars and 1000 composite gondola cars; with Pullman company, 8,000,000 feet; Wilson & Co., placed with Ansell & Baker Car company 250 refrigerator cars, 2,550,000 feet; Duluth, South Shore & Atlantic railroad, Haskell & Barker Car company, 200 40-ton flatcars, 200 40-ton boxcars and 10 40-ton refrigerator cars, 1,400,000 feet; Northern Pacific railroad, 500 box cars in own shops, 2,300,000 feet.

S-H-I-P-L-E-Y-S DRESS-UP WEEK

Is meeting with all kinds of success. The Stores of Salem have never looked as well and all hands should be heartily congratulated upon the showing for the first occasion of this character. "Co-operation," "Get Together" and "Pull Together," solves all problems.

SOCIETY

By ALINE THOMPSON

Mrs. F. E. Mull entertained the members of the Round Dozen club on Wednesday afternoon at her home on the Pringle road.

The early part of the afternoon was spent in a comforter and later a short business meeting was held to appoint a new secretary to fill the place of Mrs. S. Fleming, who is leaving soon.

As a little farewell remembrance to Mrs. Fleming the guests presented her with an array of pretty handkerchiefs. The hostess was assisted in serving refreshments by Mrs. T. L. Davidson.

Miss Georgiabell Booth has as her guest Miss Dorothy Daphne Lewis of Portland who is to be soloist tonight at the formal opening of the new annex of the Hotel Marion.

At the Moose hall on Wednesday night a "Home Coming" banquet was given by the Loyal Artisans in honor of the old members of the lodge. About 150 members participated in the festivity, which was in charge of the La Arca club.

Hallowe'en decorations were everywhere and the Artisan orchestra played during the evening.

Ivan G. Martin presided over the banquet as toastmaster and clever and interesting responses were given by Mayor White, Judge William Galloway, Walter Keys, Charles Randall, J. D. Lansing, Dr. W. H. Mott, Glen Niles, Isadore Greenbaum and Mrs. Ella Watt. Games and a business session preceded the banquet.

During the evening Mrs. Leona Peterson sang several solos and the Misses Martha and Hedda Swart played an instrumental duet.

Mr. and Mrs. Tom Townsend went to Eugene today to attend the football game and home coming festivities. Mrs. Townsend will be a guest at the Chi Omega sorority house, and Mr. Townsend of the Beta Theta Phi fraternity of which he is a member.

About a dozen little folk reveled at the merry Hallowe'en party given by little Dorelle Anderson and Genevieve Barbour, Tuesday evening at the home of the former's parents, Mr. and Mrs. Earl Anderson, on State street.

The little guests were dressed in sheets and pillow slips and the evening was rounded out with games and a Hallowe'en supper.

Later the little ghosts called on a number of their playmates.

Several Salem friends of Professor and Mrs. G. M. Parvin of Portland have received invitations to attend the celebration of their golden wedding anniversary, on November the eleventh. The Parvins formerly lived in Salem and have many friends here.

Dr. and Mrs. H. C. Epley are among the Salem friends who have received an invitation and will probably go to Portland for the event.

Tuesday evening a Hallowe'en party was given by little Kathryn Rowe at the home of her parents, Mr. and Mrs. Harry Rowe, on Eighteenth street.

The little folks were clad as ghosts and the house was gaily decorated with black cats, pumpkins and other symbols of the season. Games were played and later a delightful dinner was served.

The little guests included: Helen and Hazel McElroy, Caroline and Edward Loomis, Margaret Smith, Martha and

University Notes

Although destined to have a life of less than a week members of the Woodrow Wilson League have launched a whirlwind co-operative campaign in the name of their famous namesake. James Ewing was elected president of the organization yesterday noon. Inasmuch as no moneys are needed in the local work the members have centered all work of propaganda under his control. A committee on registration and enrollment was appointed by the new executive, its personnel consisting of Wallace Adams, Earl Fiegel and Louis Hepp. Announcements of the league's meetings and sessions are under the care of Grover Gates. Over 80 qualified voters have been registered under its banner which is strictly non-partisan, standing only for the reelection of Woodrow Wilson to the presidency.

Practical in its bearing to human life and its preservation is the course in "First Aid to the Injured" which is being studied by 25 students under R. L. Matthews, athletic coach of the institution. Tuesday's session concerned itself with first aid to fractured bones and bandaging in general. As the students receive are the victims, the work is of vital immediate interest and theory is as a result subordinate to the practical working out of what to do and how to do it.

* PEEING THE SKIN IS *
* BETTER THAN BLEACHING *

Ever since the discovery that mercurized wax would absorb and remove a discolored complexion, its use by ladies as a substitute for bleaching creams has grown rapidly. A perfect complexion can be maintained indefinitely if this remarkable substance is used. Its beneficent-bleaching, clearing and preservative action is quickly apparent, and ladies who have been paying high prices for "special bleach" from beauty specialists, soon recognize that mercurized wax outranks them all. It has become so popular that it can be obtained at all druggists, who have it in original one ounce packages. The favorite way of using is to apply it like cold cream, before retiring, washing it off in the morning.

The saxolite lotion for wrinkles and the facial contour has also become extremely popular. One ounce powdered saxolite is dissolved in one half pint witch hazel. Bathing the face in this has a splendid effect in erasing wrinkles and improving contour.

Eugene Chase, Helen Yarnell, Marcia Fuestman Irene Loose and Jenale Hill.

WOMAN A PHYSICAL WRECK

Tells in Following Letter How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Milwaukee, Wis.—"Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pinkham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sanative Wash and it has done me a great deal of good, and I am not troubled with a weakness any more."—Mrs. P. L. BULL, 1299 Booth Street, Milwaukee, Wis.

The most successful remedy for woman's ills is Lydia E. Pinkham's Vegetable Compound. It has stood the test for forty years, which would be impossible if it did not have genuine merit.

For special advice, free, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

School Attendance Highest in This Country

In compiling his forthcoming biennial report, superintendent of public instruction, J. A. Churchill, finds that there are 1828 teachers in Oregon who hold life state certificates or life diplomas. The number of teachers holding life papers is 112 greater than in 1915. The regularity with which the children attend school in Oregon is worthy of notice. Through the efforts of the country teachers to keep the attendance up to 92 per cent, the average required before a school may be considered standard, the percentage of daily attendance in the rural schools is slightly over 90 per cent, which is higher than in any other state in the United States. The percentage of attendance in the city schools is still higher, so that the average attendance for the entire state is 94.5 per cent. The number of absences from school was 2,317, 410 less last year than during the previous school year.

Ushering in the first Y. M. C. A. chapel hour program of the year was an address by Dr. R. N. Avison, pastor of the First Methodist church, in which he said there never was a time when there has been such a demand for young men. It is not without significance that during the last decade the world has laid the emphasis on the kind of man and that label is Christian. Miss Louise Benson also very pleasingly sang "Dear Lord I Pray," the words being by the late James Whitecomb Riley and the music by Stenson.

Believing that the increased registration among university men warranted a new literary society, 15 men have

banded themselves into a body for that purpose. Always to the front the Websterian and Philodossian societies have been forced to limit their memberships to about 40 men that the purpose of the respective organizations' purpose. For the time being the sessions of the society are held in Eaton hall on the night of the Webster societies' sessions. The officers who are thus initiating the new organization are: President, William Marsters; vice-president, Clark Etor; recording secretary, Harold Zimmerman; corresponding secretary, Paul Doney; treasurer, Winfield Gilkey; marshal, William Holt. Those who have thrown their lot into the yet unnamed society are: Zimmerman, Story, Bardin,

Pollock, Paine, Carpenter, Marsters, Legg, Holt, Gilkey, Collins, and Doney.

Harry E. Rice, a former student in the liberal arts class of 1916 for three years, is visiting friends in Salem this week. While in Willamette, Mr. Rice was one of the most popular students in this class, having held prominent offices in the Websterian society as well as business manager of the Willamette which the financial situation prevented appearing. Owing to illness of his mother, Mr. Rice was unable to resume his studies at the University of Chicago, where he is specializing in chemical research work. His home is at Rainier, Oregon.

Voters

Step over to the polls looking your "newest" in a Kuppenheimer Suit or Overcoat.

No matter who is your choice of candidates, you will find a dozen clothing candidates in this store which will meet your approval, both as to "character" of style and party "principles" of quality and service.

Kuppenheimer Suits and Overcoats \$20 to \$30; others \$15 to \$20.
