THE MARKETS

The following prices for fruits and vegetables are those asked by the wholesaler of the retailer, and not what is paid to the producer. All other prices are those paid the producer. Corrections are made daily.

The butter market is off today and now the quotations for butter fat is 35 cents and creamery butter 36 cents. Country butter is according to quality. One grocer paid 30 cents a pound yesterday for a small lot and thought it was not worth even that much. Said he preferred to buy the kind that was worth 30 cents and pay that much for

Potato owners will face a lower market. Commission men have their warehouses filled, and no means of shipment. Hence they are not buying. This applies to about every firm that has been in the potato market for shipment. Hence, there is but little buying and the price is off today.

STATE HOUSE NEWS

Three fatal accidents were reported to the state industrial accident commission during the week extending from October 27 to November 2. The fatalities were: John Tunzart, a railroad trespasser of Portland; W. M. Duncan, a thrasher of Summer Lake; Waine Stenlake, a shipbuilder of Astoria. The total number of accidents were 306. Of this number 245 were subject to the provisions of the accident law. 31 were from public utility corporations, 23 from firms and corporations which have rejected the act, and one from a firm that does not employ labor in hazardous occupation.

Edward Ostrander, secretary of the public service commission, is in receipt of a letter from the Nebraska Railroad Commission which states that the car shortage in Nebraska is so acute as almost to paralyze business on both the Burlington and the Union Pacific railroads. Three months study of the situation by the Nebraska commission, according to the letter, has enabled the commission to do nothing more than take care of discriminations.

In the matter of the appropriation of a portion of the county road in Lane county for the construction of a railroad, the Willamette-Pacific railroad, with route from Eugene to Marshfield, filed its brief today with the public service commission. The railroad argues that the county court gave permission to build on condition the company pays for the road or builds another. The company says it has offered \$17,000 for the roadway but that it has developed it only cost \$7,700, and it asks the railroad commission to decide how much the property is worth. It is urged that the road was not a main-traveled road but not much more than a cowpath.

Sublimity Items

(Capital Journal Special Service)
Sublimity, Nov. 4.—Stephen Weber is back from Minnesota after an absence of five months. The approaching winter evidently made him think of old Oregon.

Rev. Father Abbot Adolphus Odorant of Mt. Angel assisted Rev. Father Linnick during the three days of the forty hours devotion held Oct. 27-29.

Claud McCulloch of Portland, former state senator of Baker county, gave an interesting talk on the issues of the campaign from a democratic viewpoint to the voters at the C. F. hall Thursday night. After discussing legislative achievements of the administration in the interests of the plain people, he discussed America's relations to Germany. His audience being composed of citizens of German birth or ancestry, he showed conclusively that relations between the United States and Germany could not be improved by the election of Hughes. Theodore Roosevelt he said was distinctly pro-ally, his anti-German statements were endorsed by Hughes and in the event of Hughes' election he would of necessity receive a place in the cabinet. The crowd hearing Mr. McCulloch's speech was small owing to the short time for advertising same and the inclement weather. It was well received however, and a full round of applause followed its conclusion.

Mike Toepfer and family of Mt. Angel, who have purchased the Willing ranch, are occupying the Steffes' residence precluding the completion of a house on their purchased property.
