Brilliant Charge Made By Canadians on Somme Front Carries Regina French

With the Somme Front, Nov. 18—Eight minutes of dashing across a sea of mud worse than the Slough of Despond, of methodically advanced barrage fire, of quick work in trench fighting sufficed to the Canadians to take Regina trench—one of the smoothest bits of trench taking that has been witnessed in the Somme drive. I saw the Canadians, mostly to the eyebrows, but grinning the day after they had achieved the feat.

The assault was over in eight minutes. It was carried out in brilliant moonlight and despite a terrific German counter-barrage fire and a sea of mud. Every objective the Canadians sought was completely won. Though the Germans repeatedly counter-attacked, the Canadians not only kept every inch they had wrested from the enemy, but they drove down the trench, reorganized their positions and dug over 250 yards of connecting trenches.

Prior to the attack the Canadians had occupied a trench directly south of Pysa. The Regina trench—300 to 500 yards northward—had been partly occupied a fortnight ago by Canadians, but a thousand yard portion remained to be taken. This section ran from "Desire trench" to "Death valley" on the map. Since fighting had already marked this scene, but Regina trench being the Germans' great defense work between the Schwaben redoubt and Le Sars.

The space between the trenches—held on the one hand by the Prussian guards and Saxons—was slightly rolling. It was utterly devoid of vegetation due to a blasting shell fire. It was unimaginably muddy due to weeks of down-pour of rain and the incessant churning by explosives.

The night of the attack was perfect. The assault was at midnight under the light of a full moon at its zenith. For two days the artillery fire had been

Keiser School Pupils Presented Fine Play

(Capital Journal Special Service)
Keiser, Nov. 18.—Friday afternoon witnessed one of the most unusual and interesting events that has ever taken place in Keiser.

Comrades and ladies of the G. A. R. with friends to the number of twenty-five came in autos to the new school house to present to the pupils and patrons of the district a splendid new flag 6x10 ft. which will hereafter, on clear days, be seen floating from the flag staff above the building.

After appropriate services by the pupils of the school, short patriotic talks were given by Comrade Paulker, commander of Sedgwick G. A. R., Rev. F. T. Porter, commander of S. of V., Mrs. L. L. McAdams, Pres. W. R. C., and Supt. Hale of the boys training school. These addresses were filled with patriotic enthusiasm which would instill in the children a greater love and reverence for "Old Glory."

Mrs. Anna Fitch, president of the ladies of the G. A. R., very gracefully presented the flag to the school and responds with expressions of gratitude were made by C. E. Cummings, chairman of school board, the teachers, Mrs. Arthur Beardsley and Miss Anna Lindgren, and Mrs. Seymour Jones, president P. T. association. Mrs. Thompson presided at the meeting and introduced the speakers.

The children then gave the salute to the flag and all joined in singing the "Star Spangled Banner."

It is a custom and a pleasure of the ladies of the G. A. R. to present flags to different schools thus teaching the children patriotism and loyalty to the flag.

Coffee and sandwiches were served and the guests departed leaving the new flag proudly floating over Keiser.

"It's Mine"

You can't blame the children for disputing about it.

Country Schools Organizing Clubs

L. P. Harrington, field worker for industrial fairs, working out of the office of the state superintendent, has been calling on schools in the county during the past week with county superintendent of schools, Walter M. Smith. Among the schools visited were the Fruitland school, taught by H. C. Todd, where an industrial club has already been organized among the pupils. At Bethel, taught by Mrs. A. L. Schulz, the children are interested in the industrial work and a club will soon be organized. Salem Heights school already has organized a club and the principal, R. G. Dykstra reports everybody interested. District No. 22, taught by Joseph Bethune will soon have a club. At the Shaw school, L. W. Grimm, principal, interest was such that guarantees an early organization of an industrial club. Amaville with its three room school, P. M. Mitchell, principal, has already organized a club, and a school fair will be held on the 29th of this month, with an address in the evening by L. P. Harrington.

Henry Clews Says Election Results Should Be Accepted

New York, Nov. 11.—It is better for both sides now to consider the result of the fight between the republican party and the democratic party as a square and fair one, and everybody should accept the inevitable in a kindly spirit, forgetting and forgiving the animosities which have cropped out during the contest and be encouraged by the prosperity now prevailing throughout the nation and the strong prospect for its continuance for some time to come. That is something that no other nation can boast of in anything like the same degree and should be enough to make the American people happy and contented, especially when they compare their lot with that of the sufferers throughout Europe. Many people think that our present election terminated in a middle owing to the votes of the electors being so close. I think, however, that is a cause for rejoicing rather than otherwise, as it will serve to compel both of our great parties to put up, as they have done in this election, high grade men for their candidates hereafter and not merely demagogic politicians. It marks a new era of our country, which will tend to perpetuate our republicanism of government, which I firmly believe is the best ever devised by the brain of man, especially for our cosmopolitan population—a government of the people, by the people and for the people. The result of the election goes to show that there are but few vital issues at stake between the two great parties; besides, we are almost sure to have in the field hereafter candidates, both learned, capable and highly representative men, similar to those who have competed in the present Hughes-Wilson contest. Hence, it is to be hoped that it will lead to the conclusion that both sides will recognize the absolute necessity of putting forward their best citizens; that no serious harm is likely to happen to our people or country whatever may be the prize winner. If that fact becomes recognized, as it should be, by our voting population, then the best all-around men will be selected for nomination on both sides and all will be well now and forevermore.

There is one vital thing that is not scarce, and that is money, the circulation per capita being the largest in our history. Credit is abundant, so plentiful in fact that bankers are already taking steps to avert the dangers of inflation, including the discouragement of gold imports. Easier conditions are also reported abroad. Money is plentiful in London. The great banks of England and France are increasing their gold

WYGANT BOYS IN TROUBLE

Two boys giving the names of Wygant and saying they were related to Cass Wygant, of Ballston, were captured by Sheriff Geers, of Lincoln county, yesterday having stolen in Salem. Later the two boys escaped from the Lincoln county sheriff.—Dallas Observer.
