SOCIETY

By ALINE THOMPSON

Much regret is felt over the departure of Mrs. Susie Jones, who left Salem Thursday to make her home in Portland. Mrs. Jones has many old friends in Salem and the last few weeks of her stay here was made delightful by numerous farewell attentions.

Mrs. George M. Brown went to Portland Saturday for a brief visit.

Clarence Bishop who has been visiting his family for a couple of days returned to Pendleton today.

Dr. and Mrs. F. H. Thompson had as their guests for the week end, Mrs. Clint Vandover and Miss Nell Marcol of Bend, Oregon.

Mrs. Frank Jenkins of Eugene, who has been passing a few weeks at the country home of her parents, Mr. and Mrs. J. W. Woodruff, left Tuesday for Portland, where she has been the house guest of Mrs. Jacob G. Kamm (Florence Bonnell). Mrs. Kamm and Mrs. Jenkins were school mates at the University of Oregon, both being members of the Chi Omega sorority.

Mrs. Frank H. Spears presided over a charming dinner party recently in honor of her mother, Mrs. Russell Catlin, on the occasion of her birthday anniversary.

The table was decked with Ophelia roses, covers being placed for Mr. and Mrs. Catlin, Mr. and Mrs. Henry B. Thielsen, Mr. and Mrs. U. G. Shipley, Miss Ellen Thielsen, David Catlin and Mr. and Mrs. Spears.

Miss Georgiella Booth left yesterday for Seattle where she will be the guest of Mrs. Ira Hinckley for a few days. During her visit in Seattle Miss Booth will appear on the programme at a private musicale.

Accompanied by Mrs. Joseph Baumgartner and her daughter, Miss Lena Baumgartner, Mrs. George F. Rodgers spent Saturday in Portland.

Flowers and countless messages of felicitation are being showered upon Mr. and Mrs. F. Stinson Gannett (Zola Hitecheek) who are rejoicing over the arrival of a son, born Sunday. The little fellow will be called George Otis.

At the United Brethren church on North Seventeenth street a reception will be given on Tuesday (tomorrow) night to honor the new pastor, Rev.

old, badly constructed and unfit. A new system that would give sufficient power would cost \$5,000.

6. The laundry is too small and cramped. The girls are packed in a space entirely too small, rendering it impossible to do their work. The amount here necessary would be \$2,500.

7. Three of the pupils' quarters are old and unsanitary. These three buildings should be repodeled at an estimated cost of \$10,000.

8. In winter the grounds are wet and pupils wade through mud and water up to the ankles. Other state institutions have elaborate cement walks. This school has none. To do the work necessary it would require \$5,000.

9. All of the steam and hot water piping are laid in trenches and covered with earth, making it impossible to properly heat the buildings. The pupils are cold and there is much sickness. A system of tunnels should be constructed for the steam system. Estimated cost, \$10,000.

10. During the rainy season the roads through the campus are impassible. Wagons are stalled within the school grounds. Contractors will not deliver to the school building on account of the bad roads. For this improvement, the amount needed is \$25,000.

11. The school library is placed in a small office room, dark and unfitted for the purpose. The school has a good library of 3,000 volumes and the pupils are taking advantage of it. A building is necessary and this would require about \$5,000.

12. An old wooden building with rotten foundations and floors out of shape is used as the administration or office building. The upstairs is used for a printing office. The building is really unfit for the purpose it is now used. A new one would cost \$6,000.

In comparison with the appropriation of \$140,285 asked of the 1915 legislature by Frank Meredith, in his 1914 report, an appropriation of \$225,000 is asked for by A. H. Lea, present secretary. In the 1914 report there was a coliseum asked for at a cost of about \$125,000, which is only about \$2000 less than that asked of the present legislature.
