REFUGEES TELL THE STORY OF PARRAL

Think Americans Were Caught by Villa But Their Fate Unknown

Nogales, Ariz., Nov. 21.—What really happened at Parral was told here today by four weary Americans, emaciated and bedraggled after 17 days of travel over mountains and desert, making hurried sprints by night and hiding through the day time, who crossed the border here at 9:30 last night. Safe and sound in an American hotel between American lines, the four mining men who fled from Parral, after 12 hours Villa told their story today. Francisco Villa entered Parral unopposed at the head of an army of 5,000 men November 3. His first act was to imprison all foreigners.

Led by Wash, W. J. Hawkins, Jr., Bernard McDonald and A. W. Morris—the four Americans, told their story here today. The de facto troops stationed at Parral offered no opposition. Many remained behind after the main body of Carranzistas had evacuated the place. Led by Hawkins, the Americans escaped from Parral the night before the Villistas took the city. They remained in a camp outside the city hiding while the Villistas were establishing quarters there. The American men exchanged messages with foreigners inside the city through a gap in the Villista guard line. The miners stated they were unable to ascertain whether eight Americans were included among fifty odd foreigners in the place when Villa took possession. The Mexican messenger who kept the hiding Americans posted secured several mules and some supplies. With these the four Americans started afoot for Culiacan, 250 miles distant. After crossing mountains infested with Yaqui Indians and Villista sympathizers, Hawkins and his companions reached Culiacan November 18 and from that point reached the American border by railway.

Webb and McDonald declared they were certain that eight Americans were caught in Parral when Villa swept in. They failed to heed the warning of Edward Koch, German vice consul, who fled with a number of foreigners October 25 on a special train loaded with supplies. The train was headed for Santa Rosalia. When informed that Santa Rosalia had been reported taken by Villa the refugees were unanimous in the opinion that the German is probably a prisoner of Villa. The names of the eight Americans believed trapped at Parral are: W. E. Palmer, superintendent Durango railroad; Howard Gray, Jake Meyer, a merchant; Thomas Flanagan, a physician; W. C. Bryan, reputed to be a cousin of William J. Bryan; C. Colwell, mill foreman; Andrew Urquhart, mine foreman and William Scott, merchant.

The Americans who remained, as well as the entire white foreign population of Parral, the refugees declare have been massacred or are prisoners of Villa. Fifty Chinese and 20 or more Syrians and Turks were massacred, according to word brought to the four Americans while hiding outside Parral. Recountal of the four Americans was confirmed by Dr. Cordova, a Mexican physician, who arrived here today from Parral. He exhibited a "string of ears" cut from the heads of the Carranza soldiers by the bandits at Parral. Dr. Cordova brought word of the execution of a German named Hoemmler. Cordova declared Hoemmler, a mine foreman, was the firm belief that all of the eight Americans at Parral have been slaughtered. They admit there was a possibility that some of them might have escaped.

Market Vacillating But No Great Changes New York, Nov. 21.—The New York Evening Sun financial review today says: Trading in today's stock market was variable. Not a little selling pressure for profits was exerted in the early session which carried the general industrial and railroad list a point or more below Monday. Trading was active in selling but with these early sellers out of the way, the big market was quiet for a period, after which there was a better undertone and by the early afternoon considerable strength developed in many issues.

The market, as a whole, was not stable for long at any period. United States Steel very well illustrated the swaying movements of the whole market. That issue opened at 128, advanced to 128 1/4 and then sold down to 127 1/4. At midday, it duplicated its record price of yesterday, at 129 and thereafter sold off a point or more. The other steel and copper stocks were equally unable to sustain a given position. American Smelting and Refining had a sharp recovery and advanced to a new high level. The rubber and sugar shares displayed the most consistent strength. American Beet Sugar advanced through 107, the highest level at which it has ever sold. Cuban Cane and American Sugar crossed 73 and 120 respectively. United States Rubber touched a new high level for the year at 117.

The steel and copper stocks were sluggish in the late trading. The sugar and rubber issues, as well as the Corn Products Refining shares held well at their top prices.

No changes are noted today in quotations. The old weather is holding up the price of eggs and the turkey market remains unchanged. It is just a contest between the farmer who has the turkeys and the general public who wants the turkeys as to whether the price will hit the high spots.

Pawcett, who started out last week to bust the bakers' trust, announced today he would appoint a committee to study the food price situation, devise economical menus and otherwise promote household efficiency. Mayor Pawcett declares his war on the bakers has been won. The 15 cent loaf, he says, is meeting with almost no sale; the five cent loaf has been restored and both it and the ten cent loaf are larger.

At the mayor's urging hundreds of housewives have been boycotting the bakers and making their own bread.
