

# Cottolene

"The Natural Shortening"

Fish fried in Cottolene brown beautifully and have a delicious flavor.

Just try this pure food product for your own satisfaction. See how much better it is than anything else for frying—and also for shortening.

Your grocer will supply Cottolene in large or small pails. Order from him today.

"Cottolene makes good cooking better"

THE E. FAIRBANK COMPANY

## University Notes

As the third attraction on this winter's series of free public lectures by faculty members, Dr. Frank Wilbur Chace of the department of music will appear in organ recital on Monday evening, December 4, in Waller chapel. This recital will mark the first formal recital of the new pipe organ which was installed early this fall in the annex to the chapel. As the representative of the general standards of intellectual excellence which the course maintains Dr. Chace's recital promises to be brilliantly successful.

Oliver Matthews, a graduate in the 1913 class of Willamette, was a campus visitor Monday afternoon. Mr. Matthews is at present engaged in logging operations near Mill City and his typical logger's attire attracted unusual attention in the corridors of Eaton hall during his sojourn.

As announced on the faculty bulletin board the Thanksgiving recess will begin at 3:30 Wednesday afternoon and will continue until 8 o'clock Monday morning, December 4. Many of the students will remain on the campus as two days' freedom from class room routine affords the indolent an excellent opportunity to master neglected portions of the semester's work without the necessity of attending classes. A diversion in the quiet campus life will be the annual Thanksgiving frolic which has an established reputation for banishing homesickness. It's holding will be a feature of the week's social calendar.

Although nightly practices are of interest on the basketball floor each evening, regular first team practices will not be ushered in until after the Thanksgiving recess. As no formal call to practice has been issued by Coach Matthews and the net results of the football season are as yet not definitely as

## Clears Blotchy Skin

Don't worry about blotches or other skin troubles. You can have a clear, clean complexion by using a little zemo. Obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo easily removes all traces of pimples, black heads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable. The E. W. Rose Co., Cleveland, O.

certained, it is impossible to get a line on the talent or schedule. The only date yet secured is the traveling quintet from the Oklahoma state normal school which will play Willamette on the local gym floor January 11.

Joseph Gerhart, '16, is a campus visitor this week. He is on the way to Exceter, Cal., where he expects to pass considerable time in the effort to regain his health. While in the university Gerhart was one of the most popular men in the class of 1916, having played on class teams, served as president of the Philologist society and as president of the Y. M. C. A. until the death of his father forced his resignation.

## Stocks Generally Lower In Rather Dull Market

New York, Nov. 28.—The New York Evening Sun financial review today said:

There was considerable diversity of opinion today in banking and securities circles with respect to the statement of the federal reserve board cautioning banks to go slowly in tying up funds in foreign loan issues. Traders on the floor of the stock exchange were inclined to welcome the warning. In banking quarters it was not anticipated that the statement would make any difference so far as the large banks were concerned as it is felt that those institutions themselves are the best judges of the extent of such purchases.

Most of the foreign bond issues which are traded in on the stock exchange and on the Broad Street curb were depressed from a fraction to a point or more, as might naturally have been expected.

The bear interests were unremitting in their efforts to push prices down and until well into the afternoon the market withstood the pressure admirably. At the opening the general industrial list was distinctly soft but prices hardened somewhat in the first hour. Trading died down toward midday and prices eased off again in orderly fashion, although at times there was a good deal of needless backing and filling.

In the later trading selling pressure brought about a distinctly weaker trend with recessions among the industrial list of 1 to 3 points or more. The rails gave way also to some extent, but for the most part losses were fractional.

## PENNSYLVANIA FOLKS TO AID SALEM CHURCH

### Many Dainty Things Sent From Far East To Be Sold at Local Bazaar

Lace breakfast caps, dainty pink booties for dainty pink feet, hand worked yokes that make women's eyes sparkle with delight, crocheted, embroidered, and tatted bath and guest towels, skirt hangers, aprons by the dozen, doilies of various designs, silver shields, and \$2 bills arrived by mail and parcel post recently for Mrs. Mumey, wife of Rev. Mumey, presiding elder of the Portland district of the Oregon conference of the United Evangelical church, who recently was in Pennsylvania as a delegate from the Salem church to a conference of United Evangelical ministers at Baltimore, Maryland.

And all these pretty things came from all parts of Pennsylvania. This is the story: While Rev. Mumey was back in Pennsylvania, attending a centennial at Lewisburg and New Berlin, where the first Evangelical college was built, Mrs. Mumey wrote to him asking him to tell her friends to remember her in her efforts to help raise money to rebuild the Salem church, which burned down about a year ago. She told him she was planning a bazaar and that they were going to have a Pennsylvania booth.

Well, while Rev. Mumey while at Williamsport, Pa., wrote Mrs. Mumey's address on a blackboard and the woman delegates to the district rally there took her name, and the result was that a few weeks later she began to receive these pretty things through the mail. All portions of Pennsylvania have been heard from and the interest taken in the rebuilding of the Salem church is keen with the people back there. Among the Pennsylvania cities and towns represented with gifts are Loch Haven, Jersey Shore, New Berry, Williamsport, Hughesville, Warrensville, Louisburg, Pittsburg, Harrisburg, and Baltimore, Md.

One dainty was made by Grandma Boyer, of Loch Haven, who is about 90 years old and another by a little girl scarcely seven.

Rev. Mumey is busy at work helping rebuild the church and every effort is being made to have it complete as soon as possible. In order to assist in this work the ladies are planning to hold a bazaar in a short time.

## Indoor Life Makes Fat

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precautions to guard against over-stress, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to a good druggist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial. Central Pharmacy can supply you.

## State House News

The state survey party on the summit of the Blue mountains, locating a trunk road between Pendleton and La Grande upon request of the county courts of Umatilla and Union counties, is working in snow, according to a report received by the state engineer from M. C. Bennett, assistant engineer. In the timber, he reports snow to be 12 inches deep. Six inches of snow fell on the 24th and 25th of November.

Articles of incorporation were filed this morning by the Tri-Metals Mining company for the purpose of engaging in mining for valuable minerals. The capital of the company is \$10,000 and the incorporators are Joseph R. Smith, C. McDougall, James T. White, and M. Norden, of Josephine county. The Barnekoff-Morrison company, with a capital of \$1,500, filed articles to do a lumber, hardware and builders supplies business. The incorporators are J. M. Morrison, Edwin W. Morgan and F. C. Barnekoff.

According to statistics compiled by Albert Tozier in the labor commissioner's department, there are 11 gas plants and three compressors in the state of Oregon valued at \$3,025,016, and the product for the year was 1,457,040,000 cubic feet of gas. The total amount paid to all employes during the year was \$460,920.

At a meeting of the sub-committee of the Oregon Good Roads association to investigate the highway commission and the state engineer, and the state highway commission held yesterday afternoon, the highway commission unanimously recommended that the present commission be relieved of duties connected with highway development and the forming of a new non-political commission to handle that work alone.

The highway commission, because it has to look after some 18 or 20 state boards and committees, feels that the task of looking after the details of highway building cannot be adequately attended to. If a commission could be appointed consisting of men who are interested in good roads and who have the time to spare to look after the details, it is believed a great deal of good work might be accomplished. As it is at present, Governor Withycombe, Treasurer Kay, Secretary of State Olcott, who form the highway commission along with the state engineer, feel it is impossible for them to go out and investigate the roads to be built and see that they are built. The commission therefore recommended to the sub-committee that a commission be recommended to the legislature to be provided for by suitable laws at the session of

## FOOD IN GERMANY

(Continued from page one.)

At first we received five pounds of potatoes a person but now only one pound is allowed and at first a hundred pound sack of potatoes could be bought for 7 to 10 marks (\$1.75 to \$2.50) but now they sell for 12 to 18 marks (\$3.00 to \$4.50) and one must take them as they come, large and small, bad and good.

We can't get any vegetables except those that are appropiated to us, and the prices are so high that it is almost impossible to write it. Each person is allowed a quarter of a pound of vegetables twice a week.

The masses of people are so large that one must wait several hours until he receives his portion. Hundreds of people collect before the shops and often there is not sufficient to distribute and the last purchasers do not get any and their tickets are valueless, for they are only good on the day issued. People stand for hours before the stores open for distribution.

Do not be frightened when I tell you that a herring costs 45 to 50 pfennigs (11 to 12c) a piece. Herring in quantity are too expensive, and have too little nourishment in them for food.

You can only get flour if you eat less bread, Ross are as large as us and we are allowed seven per week. One will see a notice in the papers that this or that is for sale, but when one goes to get some it is all sold out. This is mushroom time, and I gather them every day for food and nourishment.

Lard, oleomargarine, honey or horse fat cannot be bought.

Horse meat here costs one mark sixty (40c) a pound. In Chinnitz it costs two marks sixty (65c) a pound, but cannot be had at that.

Eggs cost 38 pfennigs (9c) apiece, and only one is allowed a person.

A bar of laundry soap costs 75 pfennigs (18c), but only to be had with an official ticket. There is so little milk that the little children have not enough to satisfy them.

Ordinary coffee costs four marks a pound (81c). It is too expensive for me to use, so I drink coffee made from roots.

Cheese is half as large as in peace times and costs 60 pfennigs (15c).

Since the second year of the war, we do not get any sausage, first because there is very little to be had, and secondly, if one eats sausage one can't get any meat.

Now you can picture what I can get with my 37 marks a month (\$6.75).

I have no money to spend at the wirthshaus (inn), and you can't imagine how I miss it. It is dreadful. I am so shaky and I can only glance over the papers, because my glasses do not fit.

**A MOTHER'S TROUBLES**  
A mother's unending work and devotion drains and strains her physical strength and leaves its mark in dimmed eyes and careworn expressions—she ages before her time. Any mother who is weary and languid should start taking Scott's Emulsion of Norwegian Cod Liver Oil as a strengthening food and bracing tonic to add richness to her blood and build up her nerves before it is too late. Start Scott's Emulsion today—its fame is world-wide. It is free from alcohol.

Scott & Bowne, Bloomfield, N. J.

### SUGGESTS UNCLE SAM SEIZE FOOD STUFF

**Senator Lewis Advocates Putting a Corner On the Cornerers**  
Chicago, Nov. 28.—Plans to seize food and necessities held in gigantic corners by commission men and brokers and distribute them to the public through stations established in all parts of the larger cities, were advocated here today by J. Hamilton Lewis of Illinois democratic party whip in the United States senate.

Lewis outlined his plan in a letter to United States District Attorney Clyne. Lewis' plans caused a stir among brokers.

"The plan I shall propose in congress when it meets in December," he said, "is for the government to take possession in necessities and offer a just price for them; if declined, condemn the products as a necessity for the people, as we do land for railroads and property for government uses. Then submit to juries the evidence on all sides and let them decide the just price."

"Let the government establish stations in each city under charge of the municipality or state from which the public may buy, limit the amount to be sold to individuals and see that it is purchased only by those who should be the object of governmental protection."

Lewis said he was opposed to the embargo on grain and that the administration would not recommend it. He said it would bring retaliatory measures which would cause serious financial and business disturbances in the United States.

**A SMOOTH, WHITE SKIN THAT DEFIES WEATHER**

\* \* \* \* \*

During the coming months of biting winds and intense cold, you who would keep your skins smooth, white and velvet, should turn your attention to mercerized wax. Nothi: else will so effectively remove a chapped, roughened or discolored surface. By gradually absorbing the weather beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. If your skin be blotchy, pimply, freckled, coarse, sallow or over-red, why not shed it? One ounce of ordinary mercerized wax, to be had at any druggist's, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly, like cold cream, washing it off mornings.

If weather, age or poor health has marred your face with wrinkles, here's good news. You can quickly remove every line by using a hairless, refreshing face lotion prepared by dissolving one ounce of powdered saxolite in a half pint witch hazel. The firmer, smoother skin, the more youthful appearance, even after one application, will astonish you.
