Trains, cars and engines of the Columbia and Nehalem River railroad must come to a full stop and the fact that it is safe to cross the grade crossing known as Engineer's Survey Station No. 986 fully ascertained before they can proceed was the order issued Saturday by the public service commission in the matter of an application from the company seeking authority to cross the county road at grade.

The company, after a controversy with the county court of that county, under a misapprehension constructed the crossing without authority from the commission, which has original jurisdiction over such matters. The application seeking permission to cross the road at grade was filed and the commission made an investigation which resulted in the above order being made to safeguard traffic and make the crossing reasonably safe.

There was only the difference of 1, 226 people in the census report of the United States department of commerce and labor and the census report of the Oregon labor commissioner in their estimates of the population of the state of Oregon. The United States report gives Oregon a population of 835,741 and Commissioner Hoff's estimate was 834,515. The department of commerce and labor based its estimate on the government census of 1910 added to by statistics gathered from every available source. Commissioner Hoff's estimate was based on the school census, the school enrollment, and the average daily attendance for 1910 compared with 1916.

Albert Tozier who has been working on statistics in State Labor Commissioner Hoff's office for the past several months, has completed his work. He has secured and tabulated a mass of facts and statistics of crop conditions and state industries that will enable the legislature to have abundant information for its use.

Musterole Loosens Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad relief it gives. Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. A suit for the physical connection of the Southern Pacific railroad and the Willamette Valley Southern by the Monitor Warehouse company and the Molalla Grange, No. 310, was dismissed Saturday by the Public Service commission because a connection has been made at Liberal, which is 16 miles from Mt. Angel. Shortly after the complaint had been filed with the commission, the railroad made the desired connection, and although testimony had been taken by the commission, a motion to dismiss was made by the plaintiffs. In dismissing the case, the commission stated that after testimony has been taken the matter is out of the hands of the complainants and the dismissal was at the direction of the commission.

### Fruitland Notes

(Capital Journal Special Service.) Fruitland, Ore., Dec. 2.—Fruitland surely observed Thanksgiving day. In the proper spirit, in the "good old way." The Auburn people joined with our Fruitland folks and met at the church where Rev. Lovell, the Auburn pastor, gave a very interesting talk and some songs were sung before dinner. And then the dinner was served, but to try to describe that feast, yours truly will not attempt that, as to be there and partake would be the only way, as three large long tables were filled with everything heart could wish. 'Twas a sight long to be remembered with our happy school teacher, Mr. Todd, seated at the head of the long table and the no less happy boys and girls on either side. Much praise is due the teacher and his pupils for their part in the day. After dinner was over and the chairs rearranged we had good attention to the following program:

The magic lantern slides were operated by Miss Effie Tomplin of Portland, while Mrs. B. C. Miles of Salem read the explanations. We suppose it is stale news but we'll just mention the marriage of Enos Pressnall to Rev. Mary Hornaday of Seattle, Wash., on Sunday, Nov. 19th. ### ANURIC, The Newest Discovery.

Oh! My Back!

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anuric," the new discovery of Dr. Pierce for kidney trouble and pains in back and all over body! Write Dr. Pierce, send 10c for a large trial package—this will prove to you that "Anuric" is 37 times more potent than lithia and eliminates the uric acid from the system as hot water melts sugar—or ask your druggist now for a fifty-cent box of "Anuric." Folks in town and adjoining counties are delighted with the results they have obtained by using "Anuric," the newest discovery of Dr. Pierce, who is head of the Invalids' Hotel, Buffalo, N. Y. They daily voice their praises of the merits of "Anuric," the discovery of Dr. Pierce, of "Favorite Prescription" and "Golden Medical Discovery" fame. Here is a letter for instance, that of Mr. Herbert Brown. He says: "For some time I was troubled with my kidneys. Had pains through the back. My back felt as if it had a load on it all the time. It was hard for me to bend to tie my shoes. When I arose from a chair I had to do so gradually in order to ease the pain it caused. The kidneys were in a highly congested condition. In spite of everything I used I obtained no relief until lately I used Doctor Pierce's Anuric. This remedy gave the relief I wished for, as I am now better in every way."

Just step into the drug store and ask for "Anuric," 50 cents, or send Doctor Pierce 10 cents for trial package.

Mr. Taylor drove to town today. The school children from Sunnyside went to town yesterday and visited the penitentiary. George Litchfield is back on the mail route again.
