Choosing Referees. San Francisco, Dec. 28.—Ad Santel and "Strangler" Lewis held a new series of conferences today in an effort to select a referee for their wrestling match next Tuesday night. Santel prefers Tiv Kroling and Lewis wants Al Williams, wrestling instructor of the Olympic club.

BAR PAYS TRIBUTE TO JOHN A. CARSON

Judges and Attorneys of Salem Eulogize Departed Member Today

Tribute to the memory of the late Attorney John A. Carson, who died in this city recently after a brief illness, was paid this morning by the Marion County Bar association in the circuit court room in the court house from ten until eleven o'clock. The court room was draped in mourning and the chair in which Attorney Carson sat during the trial of his last case was draped with black.

Judge Galloway, of departmental Number Two, presided. On his left was Judge Kelly, of department Number One, and on his right was Judge-Elect Bingham. Attorney John McNary presented the resolution as prepared by the committee in charge and then spoke briefly concerning his association with the late attorney and state senator. He said that although Attorney Carson had never been blessed with robust health he was gifted with a vigorous mind and a keen intellect. In the years that he was privileged to practice at the Marion county bar he said the deceased had been his opponent in a majority of the cases he tried and always found him a gentleman. He had only the highest praise for his quality as a lawyer and thinker.

Graduating at the College of Liberal Arts in Toronto, in the year 1884 with the degree A. B. he began the study of law, in the prosecution of which he received the advantages of the English system of legal training, and became thoroughly grounded in the fundamental principles of the law. Assuming his residence in Salem, in May, 1889, he became a member of the Marion County Bar, and remained in the active practice of the law from that time until his death.

He was a man of close application and tireless energy. Though for months his body has been weakened by the advance of the disease from which he was suffering, his will power kept him at work in the office and in court until the very day of his death. A life is counted, not by years, but by its attainment. By application, diligence and natural ability he attained the standard as a lawyer of the best in the state. His services were sought beyond his locality, and his success fully justified his employment.

In 1910, Mr. Carson was elected State Senator and served as such until 1914. In his service for the public as in his private practice, his whole course was characterized by strict integrity, painstaking care and a thorough knowledge of every detail.

He was genial in disposition, charming as a conversationalist, had a kind word for all and was best pleased when making others happy. He was a logical thinker, an aggressive speaker, but not given to oratory. His points, he made clear. Although his diction was singularly pure he demonstrated his ability to show that any other conclusion than his would be wrong rather by clarity of statement than by attempted eloquence or vain rhetoric.

Our friend is gone, but we will ever hold him in loving remembrance. Entertaining the feeling which we do, and conscious of the loss which the Bar has sustained, we submit the following resolution; and move that it, with these observations, be spread upon the records of the Circuit Court in Departments one and two:

RESOLVED: That the Marion County Bar Association has sustained a loss in the death of John A. Carson that cannot be replaced; that the State, County and City of Salem, has lost an able and patriotic citizen; and his associates and companions a true and faithful friend.

GEO. G. BINGHAM, WM. GALLOWAY, PERCY R. KELLY.

PERSONALS

Dr. Hickman, of Gervois, was in the city yesterday. E. J. Jara of Newberg, was a Salem visitor yesterday. E. L. Wilson was in Portland Wednesday, registered at the Oregon. U. G. Shipley is attending to business matters today in Portland. The Rev. Abbott, a student of Kimball college, is visiting in Wilsonville. R. A. Talbot, of Grande Ronde, is registered at the Capital hotel. Mrs. V. A. Gidley, wife of a well known Stayton attorney, is in the city. R. A. Suide left this morning for Seattle to make his home in that city.

Liquidation Business Is Market Factor

New York, Dec. 28.—The New York Evening Sun financial review today says:

With the approach of the close of the week a day earlier because of the Saturday recess, the bulk of the business in today's stock market was in the form of liquidation in an effort to reduce commitments during the lengthy closures of the stock exchange from Friday afternoon to Tuesday morning. Aside from this logical proceeding, there were news developments which had a tendency to depress prices.

The relations of this country with the Carranza regime in Mexico would seem to be rapidly drifting toward a crisis. The report from abroad, later discovered to be without foundation, that Germany had dispatched a supplementary note to the United States government purporting to meet desires of Washington with respect to the statement of peace terms, was not exactly a bullish influence, but the market lacked the resistance to respond when the correction was made.

Trading was in a greater volume than in the two preceding days and transactions approximated the million share mark for the first time this week. Market transactions were orderly throughout, although losses were quite extensive in the industrial list. United States steel dropped below 105, more than three points lower, and the other steel shares, as well as the copper group, suffered proportionately.

An improved undertone developed in the afternoon session, although the recovery did not reach very far.

Call Money Rates. New York, Dec. 28.—Money on call 2 3/4-3. Six months 4 1/2; mercantile paper 4 1/2-4 3/4; bar silver London 36 1/2; bar silver, New York 75 3/8. Demand sterling 4.75 7/16.

Marion County Bar Association.

Your committee appointed for the purpose of submitting resolutions of respect to the memory of Hon. John A. Carson, a member of this association, beg leave to report:

That we have had the matter under consideration and that we feel that anything we may report will be but a feeble effort compared with his excellent qualities, which we hold in affectionate remembrance. Mr. Carson was born on the 30th day of November, 1860, at Belfast, Ireland. Shortly afterwards, his parents left Ireland, taking up their residence in Canada, where he spent his early manhood.

He was a man of close application and tireless energy. Though for months his body has been weakened by the advance of the disease from which he was suffering, his will power kept him at work in the office and in court until the very day of his death. A life is counted, not by years, but by its attainment. By application, diligence and natural ability he attained the standard as a lawyer of the best in the state. His services were sought beyond his locality, and his success fully justified his employment.

In 1910, Mr. Carson was elected State Senator and served as such until 1914. In his service for the public as in his private practice, his whole course was characterized by strict integrity, painstaking care and a thorough knowledge of every detail.

Our friend is gone, but we will ever hold him in loving remembrance. Wheat Market Still Trends Downward

Chicago, Dec. 28.—The wheat market was weak early today in renewed peace talk and in sympathy with the stock market. A little firmness was shown just before noon but the general trend was down. December opened down 1 7/8 and at noon was unchanged from the opening at 1.34. May lost 1 5/8 at the opening and at noon regained 1-8 to 1.72 1/8. July was the weakest, losing 1 5/8 at the opening and subsequently falling 1 3/4 to 1.38 3/4.

Corn shared the wheat weakness. At noon December at 91 1/4 was down 3-4 from last night. May at 92 5/8 was down 5-8, while July at 92 was off 3-4. Oats were dull and inclined to be lower. At noon December was 2 1/2, down 5-8 from last night; May 53 5/8, down 1/4, and July 50 7/8, down 1-8. Trading was small.

Production of Wheat.

Washington, Dec. 28.—The world's wheat production of the past season was approximately 75 per cent of that of last year, according to estimates received here today by the department of agriculture from the International Institute of Agriculture of Rome.

The allied countries—with the single exception of Australia, where the crop was four per cent greater than in 1915, now face a shortage of a quarter of their normal supply, at a time when their need is abnormal.

The total production of Great Britain, Ireland, Italy, France, European Russia, Rumania, Canada, Switzerland, Norway, Denmark, Spain, The Netherlands, British India, Japan, Egypt, Tunis and the United States is placed at 75 per cent of last year's output and 90 per cent of a five year average.

No estimates are given for the central powers but from the shortage in all surrounding countries without exception it is believed the Teutonic allies are also hard pressed.

The Argentine wheat crop—counted on to somewhat relieve the shortage elsewhere has proven a lamentable failure, falling off to but 44 per cent of 1915, the report states.

France produced 90.3 per cent of her last year's output.

The world's oat crop, exclusive of the central powers, is estimated at 86.6 per cent of that of 1915 while barley is quoted in the same countries at 101.1 per cent of last year's crop.

Exports of Breadstuffs.

Washington, Dec. 28.—Exports of breadstuffs totaled \$45,838,549 in November, against \$30,492,539 in November, 1915, the department of commerce announced today. Meat and dairy products exports totaled \$25,513,770, against \$18,210,969 a year ago. Wheat exports totaled \$27,297,225, against \$15,033,300 in November a year ago. Flour exports totaled \$7,977,979, against \$3,780,550 a year ago.

State House News

As a result of request from the Oregon public service commission to the interstate commerce commission asking for help in relieving the car shortage situation, there is being held in Washington, D. C., a hearing today when railroad companies pled to appear must show cause why an order should not be made requiring the return to owners without diversion or misuse all foreign cars—refrigerator, heater, ventilator or insulated—after being unloaded at destination. The cars must be returned either directly or through the proper home route, according to the rules of the American Railway association. This matter was taken up some time ago with the interstate commission and it is believed some relief will result.

One of the largest foreign corporations to file articles with the corporation commissioner for sometime was the Weyershauser Timber company, of Tacoma, Washington, which filed with a capital of \$12,500,000. The object of the company is to deal in timber lands, saw mills and lumber products. The Kilgreen Building and Investment company filed with a capital of \$5000 to do a building and repair business. The place of business is Portland and the incorporators are J. G. Kilgreen, S. Kilgreen and George D. Culbertson.

The Astoria Soap company filed with a capital of \$25,000 for the purpose of dealing in perfumery, oils, and fats. The incorporators are C. E. Beeman, A. W. Bahke, F. J. Kochler and J. C. Osler.

The Bend Furniture company filed with a capital of \$3,000 to buy and sell furniture and household furniture. The incorporators are D. G. McPherson, T. J. Seifert and H. S. Wilson.

Resolutions dissolving the Maritime Company of San Francisco and the Marion County Land and Investment company were filed.

The report of State Forester Elliott shows that out of a total expense for the past year of \$93,075.57 the timber men contributed \$69,927.47. He also shows that the losses by fires amounted to \$9501. The number of fires was 690 of which 117 were incendiary, 44 slashing burnings, 41 from lightning, 41 from hunters, 32 from campers, 11 from locomotives, 21 from logging engines, 12 from stockmen, 5 from sawmills, 23 from miscellaneous causes, and 233 from unknown causes.

The total cost of improvements made amounts to \$16,851.94. No money received from legislative appropriations are spent on improvements.

The 1916 season was peculiar in that it did not begin until the usual season ends. This year the dry spell did not begin until September and extended until November 25.

There in all 285 wardens on duty to protect against fires. The expenses and wages of district wardens paid by the state amounted to \$17,088.34. Under the Weeks law \$9669 was spent. The report shows there were 26 district wardens to enforce the forest fire laws and supervise the patrol and fire fighting; 19 district wardens served in counties where the patrol association had been organized and were selected and paid jointly by the association and state. The forestry board received \$8000 from the federal government under the Weeks law to assist in protecting the forested watersheds of navigable streams. Eighteen wardens were paid from assessments by timber owners where the protective work was done under direction of the forestry office. The 183 wardens serving without pay were chiefly road supervisors.

S. G. Sargent, state superintendent of banks, in his annual report will set several changes in the banking laws so that the laws of the state will conform with the federal laws. He will ask a law making the filing of articles of incorporation a preliminary step to the organization of banks, also the regulation of credit unions, authority to deal in acceptance. The change to conform with the federal law is asked so that the state banks may compete with national institutions. He believes that within limitations the ac-

Secretary of State O'Leary yesterday sent to the county clerks and assessors of the state copies of the 1917 tax levy, in accordance with the provisions of the 1913 law which changed the statute governing the certifying of the tax levies from January to December. The statements are prepared by the tax commission showing the value of the taxable property in the respective counties as made by the assessors and finally equalized by the tax commission. Each county was advised the amount of tax apportioned immediately it was fixed by the commission.
