LEGISLATURE GRINDING

(Continued from page one.)

A matter of interest to the counties is the proposed change in the manner of selecting county road supervisors, a bill to amend the present law having been introduced this morning by Representative Mulled. The present method of appointment is by the county court. The proposed change is to make the appointment dependent on petition of the residents of the district.

To Reduce Commissions.

Representative Brownell introduced a resolution authorizing the committee on revision of laws and the attorney general to prepare suitable laws to meet the desire of the people for a reduction in the number of commissions. The resolution recites that in the campaigns of the past two years the candidates for offices and the newspapers advocated abolishing a number of the state commissions. It also declares that as taxes are high and that the people expect something memorable of the present session that steps should be taken to meet the will of the people. The resolution empowers the committee to employ any help necessary in examining the various commissions and drafting a measure.

To Save Old Papers.

A resolution introduced by Representative Eaton authorized the sergeant-at-arms to gather up the newspapers after they had been read by the members and turn them over to R. B. Goodie, secretary of the board of control for distribution to the various state institutions that would benefit thereby.

Codes for Committee.

By resolution members of the committee on revision of laws were furnished with annotated copies of the code and the session laws of 1911, 1913, 1915. These copies are to be furnished by the secretary of state and to be returned to him at the close of the session.

As a result of the second reading of house bills, the bill introduced by Representative Lewis enforcing the prohibition amendment was referred to the committee on alcoholic traffic; Mr. Lewis' bill to prohibit the manufacture and sale of patent medicines was also referred to the committee on alcoholic traffic.

***** * USE COCOANUT OIL * FOR WASHING HAIR *****

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unperfumed coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonsful will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get malperfumed coconut oil at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months.

referred to the committee on alcoholic traffic. The bill by Mr. Bowman to regulate non-resident, delinquent children was referred to the committee on public morals; his bill to provide for the recording of certificates of sale was sent to the revision of laws committee; his bill regarding astray animals was sent to the committee on livestock; and his bill to prohibit the circulation of initiative petitions for hire was sent to the judiciary committee.

Mrs. Bertha M. Peebles, pastor of the United Brethren church, opened this morning's session in the house of representatives.

Adjournment was taken at 10:30 o'clock until 2 o'clock this afternoon.

New Bills Introduced.
The following bills were introduced in the house this morning:

LATEST THAW CASE

(Continued from page one.)

Hundreds of thousands have been spent by the Thaw family, first in the two murder trials and later in repeated attempts to obtain Thaw's liberty since he shot Stanford White in 1906.

Attorneys by the dozen have been employed in the case and New York authorities anticipate another bitter fight to save the Pittsburgh millionaire from being returned to an insane asylum.

Say Thaw Prosecuted.
Pittsburgh, Pa., Jan. 10.—Harry Kendall Thaw is now on his way to New York and will probably surrender to the authorities of the Empire state for trial on an indictment charging that he kidnaped and brutally whipped Frederick Gump, Kansas City youth, at the McAlpin hotel in that city.

Strict watch was being kept at Cresson, near Johnston. It was reported that yesterday Mrs. Thaw telegraphed the keeper at "Elmhurst," her country home there, to "prepare the lodge" for visitors who were motoring. Detectives and newspaper reporters who hurried there when news of Thaw's indictment was published yesterday afternoon, found nothing to indicate that Thaw or any other visitors were there. The house was apparently empty of life.

Since Thaw was given complete freedom after his flight from Mattewan, he has been in Pittsburgh little more than was necessary. The estate, of which he is manager, is directed from here and requires a good deal of time. The belief has been growing among his friends that he was avoiding the city. It has been reported from time to time that Thaw believed he was better received in other cities than here; that he found it more pleasant to cultivate new acquaintances elsewhere than to mix with his old friends here.

His life has been almost devoid of excitement for many months. Except for his several summonses on speeding charges and in connection with smashups in Allegheny county, Philadelphia and elsewhere, his splurge last fall as a political campaigner in New York and his double appearance yesterday as a moralist on the Colbert case and as a fugitive, Thaw has had little publicity.

Gump Will Not Talk
Kansas City, Mo., Jan. 10.—Fred B. Gump, father of the 19 year old boy, on whose charges Harry K. Thaw was indicted yesterday in New York City, was silent at his home here today as to the charges against the slayer of Stanford White. Gump refused absolutely to discuss the indictment charging Thaw with kidnaping his son and assaulting the boy with a whip.

"I am up against a proposition that precludes me from saying or doing anything whatsoever in the matter," Gump said.

Gump was asked if he would say what it happened that the boy was allowed to take the trip alone to New York.

Keeping Yourself Well

THE FIRST STEP

Usually the first indication of a lowering of health is found in the bowels and liver. Something goes wrong—we eat too much, or work too hard—and the bowel action weakens or the liver is sluggish. That heavy feeling on arising in the morning, dryness of the throat, with bad taste, a slight headache, dull eyes—all show that food has fermented in the intestines, and that the body is manufacturing poisons instead of good blood.

Clear it all out. Give the stomach and bowels a fresh start. Encourage the liver to go to work. Manalin does all of this, without gripping or weakening. It's the ideal laxative and liver tonic, because it follows Nature's plan, without discomfort, inflammation or forming a habit. Constipation may be overcome with its use.

Liquid or tablet form. The Tablets taste like candy. Children like them, and they are safe. 10 and 25 cents.

Richmond, Ind.—"For two years I was so sick and weak with troubles from my age that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new home. My daughter asked me to try Lydia E. LECTURE COURSE ON SALESMANSHIP

University of Oregon Sends School of Commerce Professor Here

The second lecture in the course on salesmanship being given by Prof. G. Robert McAuslan of the University of Oregon, at the auditorium of the Commercial club, served to attract a large audience and close attention and deep interest was manifested in all the speaker said. He spoke upon the physical and mental qualities of good salesmen, saying that good health came first and was of prime importance as a foundation upon which to build. He then spoke about cleanliness, the teeth, the breath, the feet, objectionable mannerisms, bearing and appearance being dealt with in turn. Features of general education and business education were then discussed in which the kind of reading one should do was shown especially the sources of information in the special line of business in which one might be engaged. It was pointed out that a better educated salesforce will exert a great influence in lifting the people who trade with them up to a higher plane of politeness, courtesy and those finer things of life that are denominated as culture.

Personality was then taken up and weak and strong personalities were compared with the use of a chart, and ways suggested by which the positive characteristics could be strengthened.

Character was shown to be the establishment of the possibilities within ourselves of high aims, definitely striven for, and that our beliefs about ourselves have a large influence in shaping our lives.

Tonight Prof. McAuslan will take up the "Requirements of Salesmanship." The meeting will be held at the auditorium of the Commercial club at 8 p. m. free to all but ladies are especially invited.

Gump broke in, "We don't want to be discourteous, nor will we answer questions."

Detective Cunliffe, who arrested Oliver F. Brower in Philadelphia, declared this afternoon young Gump is not the only boy concerned in the new development in the Thaw case.

Cunliffe declared letters in Brower's pockets convinced him that two or three others have been in Thaw's power. He said he had no idea who these boys were or where they lived.

A detective from District Attorney Swann's office returning from Philadelphia, brought with him a number of papers found in Oliver Brower's pockets. Brower was arrested yesterday by the detective, who believed him to be George O'Bernie, also wanted in connection with the case.

One of the papers is said to be a statement signed by young Gump in which he said he deserved the whippings Thaw gave him and that he liked them. Thaw is said to have forced Gump to sign the paper.

Other papers said to have an important bearing on the case were brought back, but were not made public.

is' suicide. Brown's statement today was voluntary. He and J. M. Marshall, another traveling salesman, had said were passing the Wilton at about 10:30 p. m. on the night of the murder.

"We stopped for a few seconds in front of the apartments," he said. "We heard a noise like someone scuffling about. Then from a window on a side street jumped a man. He carried his coat on his arm and seemed excited."

"He jumped almost into our arms. We grabbed him but let him go when he said he and his wife had been 'fooling about.' The man had a big diamond stud in his shirt front."

James S. McFayden, head of the Pittsburgh Union Stock Yards, and a personal friend of Lewis, described Lewis as being small of stature and not weighing more than 135 pounds.

"I left Pittsburgh the next day, going to Washington, and on that train I saw again the man who had jumped out of the window at the Wilton apartment," said Brown. "He still wore the diamond. Another friend of mine, who was on the train, spoke to him, calling him by name."

"I didn't learn about the murder for several days. Then, after Lewis had killed himself, I saw a statement about McFayden whom I had once met in business. After talking with Marshall I decided to write McFayden and tell him I could clear Lewis."

Brown said personal reasons prevented him from making known his business connections and home.
