lowed the estate as the undertaker did the corpse, for what there was in it. Pierce read from the journal of the last session as to the position members now present took then and it was interesting reading, so far as sweet consistency was concerned. When he got through he moved the bill be re-referred, and it was so ordered. It saved lots of time and reduced the gas bill, but it stopped a word war that was just beginning to get real interesting.

Senate bills from 38 to 66 inclusive were read the second time by title and referred to committees. Senate bill No. 22, providing for the establishing of kindergarten schools in cities with more than 30,000 population was reported back by the nominal delegation favorably and was passed. Appeal to Reason

Ask any of the great army of Postum users what influenced them to try this beverage, and the reply nine times out of ten will be that they were convinced the caffeine and tannin in tea and coffee were harmful to health.

Some imagine it is hard to give up coffee and tea. But it isn't, with the delightful aroma and flavor of Postum at hand. This flavor somewhat resembles that of a high-grade Java coffee, but there is no coffee in Postum—only the nourishing goodness of wheat, skilfully processed with a small per cent of wholesome molasses.

Postum comes in two forms: Postum Cereal, which has to be boiled; Instant Postum—soluble—made in the cup, instantly. Some prefer one, some the other. Made right, they are alike delicious, and the cost per cup is about the same. There's better health, comfort and efficiency in

Debate of Judges' Salaries.

Senate bill No. 13, as is usual with that number, started something. It is the bill providing for the reduction of the salaries of circuit judges from \$4,000 to \$3,600. There are 35 judges and the saving to the state would be \$10,000 yearly.

Senator Smith criticized some of the senator's ideas of economy. Senator Huston was willing to cut the salaries of some of the judges, but not of all. He asserted: "All great corporations are increasing the salaries of their employees" and the committee was not in favor of reducing them.

Senator LaFollette compared the salaries paid by Washington with those of Oregon. It cost Oregon \$200,000 a year for its circuit judges while Washington with a half larger population got the same service for \$108,000, and wanted to know why the Oregon judge was so much more valuable than those of Washington. Orton sang the old song about only getting good men by paying them good salaries. He asserts "we should not cut the salaries while the cost of living is going up."

Shanks would keep the salaries up but would consolidate some districts so as to give the judges work and make them earn their money.

Smith, of Coos and Curry, remarked that the salaries of those who held a law diploma seemed to be sacred. No one seemed especially interested in the salaries of those who were getting two or three dollars a day. As to the argument that judges could make more by remaining in private practice than by getting on the bench, he pertinently inquired why they did not refuse to accept the positions?

who had to give up their practice to accept a judgeship and who thereby lost their practice when they retired from the bench and took it up again. They take the positions for honor, he said, and seemed to think they should be paid for doing so.

Smith, of Josephine, wanted to know if there was any trouble anywhere in getting candidates for the office of circuit judge.

Senator Eddy said services were in a great measure dependent on salary. That of Polk county is no greater than \$3,000 was a few years ago. Strayher thought the senators were sorry for Lane county being deprived of its senator, were wasting sentiment. There were other counties which it was regrettable, were not so fortunate as Lane. This is a three dollar lot of senators and we are acting like it! The judges earn every dollar of salary they get and it would be dishonest to reduce them.

Senator Wood found it amusing to see the spirit with which the lawyers got together. They ought to be 43 lawyers. It looked strange to Garland to see two doctors coming in objecting to judge's salaries! He noticed in his practice that when a lawyer lost a case it was public property. If a doctor was successful with a patient he smiled, rubbed his paunch and took the credit to himself. If the patient died, he holds his arms and piously remarks, "the will of heaven be done." When a patient dies the doctor's bill is first to appear before the administrator. He is the first after the hearse and often preceding it.

Senator Smith, who pleads guilty to being a doctor, replied that when a man was dead, the doctors let him alone, but the lawyers scented after the harvest and prepared to reap it. They followed.

I Am Playing a Lone Hand, but It Has Four Aces

The game is Painless Parker against the Dental Trust. And Painless Parker is playing just the cards in his hand. There's the ace of frankness with the public, the ace of honest work, the ace of right prices and the ace of defiance of the Trust. Dentistry is not a luxury. It is a necessity. It belongs to everybody whether rich or poor. People who work for wages can't afford the dissipation of supporting a private stable full of high-priced Trust dentists who prance only when the clanking dollars stir their blood. I have clean, honest, reasonable dentistry to sell. You need that sore of dentistry. It's just a plain business Proposition between the man who wants to buy the goods and the man who has those goods to sell.
