MANY BIG PLAYERS STANDING BY FULTZ

Tris Speaker, Al Demaree and Thirty Others Are Willing to Strike

By H. C. Hamilton, (United Press Staff Correspondent.)
New York, Jan. 26.—Tris Speaker, Al Demaree and at least thirty other baseball players, ranging in station from the Boston Red Sox and the Brooklyn Dodgers to American Association and International league clubs, are today firm in their decision to stand by David L. Fultz and his strike of ball players until the figurative cows wander home.

The thirty gathered last night in New York to hear Fultz speak and were surprised by two telegrams—one from Tris Speaker, vowing allegiance to the frat, and the other from Al Demaree, announcing that Al never had said he would not strike and inviting Fultz to make that statement just as strong as he pleased.

Speaker's telegram was the bombshell of the meeting. It mentioned the fact that Speaker's nose was sore and said he would have to stay in Boston to have it treated. But he said: "I am with the boys. I feel sure we will win. Will stop over on my way home."

New York players were conspicuous by their absence. There were only two players present from the Brooklyn club. Those who attended were: George Burns, Detroit; Gus Getz, Brooklyn; Larry Gardner, Boston; Jimmy Archer, Chicago; Otto Miller,

Brooklyn; Tom Clarke, Cincinnati; Al Carlstrom, Toronto; Grover Hartley, St. Louis; Frank McDermott, Richmond; John Henry, Washington; Charles Jameson, Washington; George Burns, New York; John Miller, St. Louis; George Chalmers, Philadelphia; Jack Dalton, Newark; Eddie Burns, Detroit; Bert Daniels, Louisville; John Kozmann, Newark; Ed Reulbach, Boston; Al Schuet, Newark; Bill Fisher, Chicago.

Are Deserting Fultz.
Chicago, Jan. 26.—Lolly pop staff has drained diamond dramas of blood and thunder and David Fultz's frat chat is fast being deserted by minor league players who want some real baseball again. So sayeth President T. J. Hickey, the Ban Johnson of the American Association.

"There's too much of this Damon and Pythias stuff on the ball field," Hickey said. "Old fashioned rivalry is forgotten; players throw their arms around each other's necks instead of watching their chance to put one over."

"I want to see teams go after each other with hammer and tongs to win; see blood in their eyes when they come on the field see them at danger's points from first to last, instead of taking it out on the 'umps'."

"This frat business has made ball players too 'rooney-matoy.'"

Coaching the Seals.
Berkeley, Cal., Jan. 26.—"Spider" Baum, Seal pitcher, next week will begin coaching the twisters of the University of California baseball team.

Lake Winnipeg Fishermen Lead in Dog Derby Race

Glasgow, N. D., Jan. 26.—Myrtle Hanson, Gunnar Tomasson and Mike Kelly, the Lake Winnipeg fishermen, who are leading the other seven contestants by 18 miles in the Red River dog derby, Winnipeg to St. Paul, started on the third day of the journey at 6:15 this morning.

Louis Hill, president of the Great Northern railroad, and promoter of the race, is following the racers on a special train. A movie picture man is on the special.

The three men thus far setting the pace have little to say concerning the advantages they now hold, they just have one aim and that is to keep pushing on toward the goal.

The dog teams are today traveling between Hamilton and Grand Forks. The distance between these two points being 72 miles, the drivers expect to be in Grand Forks some time tonight.

The leaders traveled 70 miles yesterday and ran 60 per cent of the distance to save the dogs.

The drivers have acknowledged that they pledged to stick close to one another, their idea being that if one meets a mishap the other can help him out.

MRS. ETHEL BYRNE IN HUNGER STRIKE For Five Days Birth Control Apostle Has Refused To Eat Anything

New York, Jan. 26.—Mrs. Ethel Byrne, militant birth control advocate, who has now been on a hunger strike for five days, was removed from her cell to the hospital on Blackwell's Island today. This was disclosed in an official bulletin regarding her condition, issued by Burdette C. Lewis, commissioner of correction, in which it was stated that Mrs. Byrne was noticeable weaker.

Authorities are receiving constant reports on Mrs. Byrne's condition through Dr. Irma Howard, a prison physician. They declared that if Dr. Howard feels at any time that Mrs. Byrne should be fed, food absolutely will be given her. They did not designate the method.

The bulletin today stated that Mrs. Byrne's blood pressure was wavering, her pulse moderately weaker, "temperature slightly below normal, respiration within normal limits."

Mrs. Byrne slept three or four hours last night, it was stated, and walked about a bit. Her condition was described as "slightly weaker."

Commissioner Lewis refused Mrs. Margaret Sanger, sister of Mrs. Byrne, permission to visit the hunger striker in her cell today. Lewis explained no special favors will be granted Mrs. Byrne.

Today's bulletin said it would be an easy matter for Mrs. Byrne to obtain water or food without knowledge of the prison authorities if she cared to. She has been allowed to leave her cell and water is always near her, it was said.

The Great Dog Race
Grafton, N. D., Jan. 26.—Dog teams number 9 and 11 and 5 left Grafton at noon. Number three, Gunnar Gatterson, and number eight, Thorika Thordarson, dropped out of the race at Glasgow, N. D. Both will return to Winnipeg by train.

Leading team number 5 had one dog go lame and indications are that the team may fall behind. Five teams undoubtedly will reach Grand Forks, N. D., tonight.

It looks like the least President Wilson could do would be to ask those picket ladies to come in and get warm by the kitchen fire once in a while.

MOTHERS, DO THIS—When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bite and colds of the chest (it often prevents pneumonia).

TRIAL OF SPANELL MAY CLOSE TODAY

Defendant Tells Story That Visibly Affected Judge and Jury

San Angelo, Texas, Jan. 26.—The fate of Harry J. Spanell, on trial for the murder of his wife, may be in the hands of the jury before night.

Spanell, who was on the stand practically all day yesterday, occupied several hours in describing the events that led up to his shooting Major M. C. Butler in an automobile at Alpine last July and the death of his wife from bullet wounds at the same time. He recounted the narrative of the actual shooting late in the day and although his recollection was at times incoherent, he told one of the most dramatic stories in Texas court annals.

Judge, Jury, court attaches, the aged father of his dead wife, spectators and even the counsel for both sides wept openly and Spanell, in the midst of his recital, collapsed on the stand. When he had concluded his story he was helped from the stand by two court attendants.

Spanell sprang a distinct surprise by stating that Butler himself started the shooting. He said he believed his wife had been insulted by Butler in the hotel and that he invited the army officer out in his automobile with Mrs. Spanell "to have it out with him."

There is slight probability Spanell will be called back to the stand for cross-examination today. Both sides are expected to sum up their cases today and the trial passed to the jury late today or early tomorrow.

The defense rested today after introducing seven more character witnesses, all of whom testified that Spanell's general reputation was "good" and Butler's "bad."

Two of them—soldiers—said Butler was known in the army as "Bull" Butler.

Thousands Visit With Girl at Detroit Home

Detroit, Mich., Jan. 26.—Coming from every part of Detroit and from nearby cities, a thousand persons congregated today in front of the humble home of the so-called "Celia Wroblewski" Detroit's witch girl, where they stood silently, apparently awaiting some visible demonstration of the girl's supernatural powers. Efforts of a squad of policemen to disperse the crowd met with only temporary success. It almost immediately reformed, eagerly awaiting sight of the girl whom they believed endowed with the power to turn herself at will into the forms of various animals and to have cast a baneful influence over the community.

Inside the house the girl laughingly introduced herself to reporters as a "bear" and wondering inquired what it was all about.

The only bewitching influence was the laughter in her eyes and the smile that played upon her lips.

How the rumor of witchcraft started no one seems to know, but it threatens to wreck the life of a 16-year-old girl living in an enlightened city in the 20th century.

Inquiry among the crowd gathered about the house elicited little information, but many openly expressed fear to gaze upon the girl's face, lest they suffer some horrible penalty.

"It sounds incredible and I cannot understand it," said Rev. Father Felix Kierulff, pastor of St. Francis church. "The girl is one of my parishioners and the whole story is false."

But even with police, church and other enlightened forces of the community seeking to dispel the rumor, the crowds about the Wroblewski house continue to increase in size as the fame of the "witch girl" spreads.

TO MAKE ISLANDS DRY

Washington, Jan. 26.—Congress gave another shove to the prohibition juggernaut today when the house territories committee reported favorably a bill to make the Hawaiian islands dry.

SAN FRANCISCO BEFOGGED

San Francisco, Jan. 26.—The densest fog in San Francisco in a year today covered the city like a blanket and seriously interfered with downtown traffic. So dense was the curtain that street cars in many sections were compelled to creep along slowly. Several minor accidents occurred.

Large Timber Deal In Gardner Vicinity; 3 to 5 Million Dollars

Marshfield, Ore., Jan. 26.—With options just closed on more than 100,000 acres of spruce and fir timber land on the Lower Umpqua and Smith rivers, a large eastern paper manufacturing company today placed a number of cruises on the property and will have it cruised as quickly as possible with a view to completing the purchase at once for cash.

According to the figures of owners of the lands the purchase when completed will embody 3,500,000 board feet of timber and the price will be somewhere between \$3,000,000 and \$5,000,000.

100,000 Acres Involved.

The cost is estimated in connection with the prices and former cruises. It is believed the new cruising will probably increase the amount of timber supposed to be contained on the 100,000 acres rather than lessen it.

The options cover practically the largest body of spruce on the Pacific coast, and although the timber is not so large as some found in Northern Washington, it is of the very finest quality paper spruce. The land under option lies contiguous to the Willamette-Pacific railroad for approximately 20 miles, about 10 north and the same distance south of the Umpqua.

Since it is near sea level, the spruce belt runs in a somewhat regular line and is several miles broad and ranges from six to eight to 10 miles from the sea. The belt follows the river towards the east as well. The spruce area, as it is classed, has a very heavy proportion of this timber, running generally from two-thirds to three-fourths spruce and the remainder fir. This is the property on the Umpqua and along the railroad.

On the land optioned on Smith river the timber runs almost wholly fir. The heavy holdings of fir will not detract in any manner from the availability of the timber for papermaking, since it can be used together with the spruce in certain quantities.

One Mill to Get \$1,250,000.

Following is approximately the acreage under option: The Gardner Mill company, 35,000 acres; C. A. Smith Lumber & Manufacturing company, 27,000 acres; Sparrow & Krall, Spokane, 14,000 acres; J. O. Elrod, 8,000 acres; Reed & Mackay, 6,000 acres; Standish-Hickey, 1,000 acres, and other smaller tracts. The Reed & Mackay 1,000 acres are supposed to contain 400,000,000 feet of timber and the other holdings a proportionate amount.

The deal will bring to the Gardner Mill company \$1,250,000 and the Reed & Mackay interests will have a profit that will bring them a big sum. The payment to the C. A. Smith company will be upwards of \$1,000,000.

Cash to Be Paid.

When the property is taken over the deal will be closed for cash and all who are selling will be paid on the spot. The Smith options for the 27,000 acres were furnished by A. E. Adelberger, of the A. B. Adelberger Cruising company, of Marshfield, former head of the Smith Timber company.

The Smith holdings are practically all south of the Umpqua river, while the

of the Umpqua, adjacent to the railroad and on Smith river, towards the head of tidewater. The Reed & Mackay timber is situated on the south side of the Umpqua and the Sparrow & Krall land is north of the Umpqua and adjoining the railroad.

for Fort Benjamin Harrison. Fifth Nebraska infantry and company A, Nebraska signal corps at Liano Grande, for Fort Cook. First Arkansas infantry, troops A and B Oklahoma cavalry; field hospital and company A, Oklahoma engineers, at San Benito, for Fort Sill. The third Iowa infantry and Iowa brigade headquarters, at Brownsville, will leave for Des Moines between February 1 and 5. A hospital train left here today to pick up patients among troops stationed at Deming, Columbus and El Paso, to be taken to the base hospital at Hot Springs, Ark.

More State Soldiers Are Ordered Home

San Antonio, Texas, Jan. 26.—The following national guards were designated to leave the border for their home stations February 1: Second Indiana infantry and Indiana brigade headquarters at Liano Grande,

these acids from your system and purify your blood. S. S. S. has been purifying and revitalizing the blood of thousands for fifty years. It is a purely vegetable remedy, and is the most efficient agent known for cleansing the blood and building up the system. Ask for it at your druggist's, and don't accept a substitute. For special medical advice write to Medical Department, Swift Specific Co., 338 Swift Building, Atlanta, Ga.

If Your System Is Poisoned

Gardiner Mill company tracts lie north of the Umpqua, adjacent to the railroad and on Smith river, towards the head of tidewater. The Reed & Mackay timber is situated on the south side of the Umpqua and the Sparrow & Krall land is north of the Umpqua and adjoining the railroad.
