AMERICAN SAILOR KILLED IN SHELLING OF STEAMER

By Robert J. Bender.

(United Press staff correspondent.) Washington, Feb. 5.—After a day of hope in the German situation, news of the killing of an American sailor came tonight to officials as almost a declaration of war from Germany.

Officials' first comment was: "It looks bad." But in the same breath they ask for time to get more details—how far off land was the Evestone?

Germany, herself, has held that international law provides against killing of persons from a sunken naval ship, so, it was said, even if the Evestone should prove to have been an army transport or a naval auxiliary the killing, on Germany's own interpretation, would have been against such law.

International law says that firing upon persons who are helpless in open boats, no matter the status of the boat from which they were driven, is direct violation of the law.

American Sailor Killed.

London, Feb. 5.—Richard Wallace, an American sailor from Baltimore, was killed when a submarine shelled the boats of the steamer Evestone, the admiralty announced tonight.

The admiralty statement declared Wallace was "among those killed."

The Evestone was a British ship of 1,791 tons. The sinking of the vessel with the loss of four lives has been reported in an earlier dispatch, but the admiralty statement is the first indication that the boats were shelled after the crew had put off.

The Hague, Feb. 5.—Americans taken from ships sunk by the German raider in the South Atlantic and made prisoners in Germany will be released. Germany has decided to comply with the American demand for liberation of the sailors, Berlin reports stated here today.

Secretary Olcott Wants Action Taken Regarding Salem Hospital Matter

On account of the alleged dilly dalling of the Salem Hospital association regarding the vacating of the property which was decided to the state and for which the sum of \$25,000 was to be paid, Secretary of State Olcott at the meeting of the board of control Saturday afternoon proposed a resolution authorizing the board to take steps to secure the property for the state hospital which is in need of room for new buildings.

This resolution was opposed by Governor Withycombe and the opposition sustained by Treasurer Kay, with the result that it was laid on the table. However, secretary Olcott expects to go before the legislature for authority to reded the property to the association and retain the money that was to have been paid for it.

Gymnastic and Athletic Carnival Wednesday Evening

The public gymnastic and athletic carnival which is to be given by the Young Men's Christian Association in the State Armory Wednesday evening commencing at 7:30 p. m. is arousing considerable interest.

One of the particularly interesting features of the program will be the work of the ladies' classes. While no attempt has been made to prepare special work for the occasion, the regular work of the classes which takes place six times each week will prove amply interesting as will be demonstrated.

The Association expects to have at least three hundred persons participate including members of the business men's class, boys' class, junior class, senior classes and the several ladies classes.

A unique feature of the exhibit will be the human chariot race by the members of the senior classes. The men will be divided into teams of four each and will dash around the room by using the skip step. Each team will be judged according to form and not necessarily according to speed. It is expected to have the spectators remain which team demonstrates the best form by their applause and each member of the team winning will receive a pound box of the Spa's famous chocolates and bonbons.

The members of the team winning in second will receive a half pound box. Frank Meyers of the Spa has offered to donate the prizes for the occasion.

The demonstration will be free. The Association has been put to considerable expense but will nevertheless omit any charge for admission.

Captain Conrad Stafirin Ready to Answer Call

Captain Conrad Stafirin, of Company L, of Dallas, who is a member of the twenty-ninth legislative assembly from Polk county, said this morning that his company could be mobilized within twenty-four hours after the call to service came.

That the call will come he thoroughly believes, but that the work required will for some time be mostly patrolling government property or strategic points on the coast.

The members of Company L, which shared the Mexican border service campaign with Company M, are pretty well scattered but Captain Stafirin is in close touch so that telegraph and telephone wires would soon call the men together. That the situation is ten times more serious than the Mexican crisis he frankly admits.

For more than a very few minutes, due to failure of the source of supply at certain times, there is always danger of an outbreak of some kind, and the increased reliability of service made possible by this new line will benefit this institution in particular, probably more than any other.

The total expense involved in bringing this new line into Salem will be approximately \$40,000. All of the material that can be supplied locally will be purchased locally, as well as labor.

This will put Salem in the strictly up-to-date metropolitan class of cities with respect to its electric light and power service.

SCOTT'S DRIVES OUT COLDS JEMULSION

ARMED SOLDIERS ON GUARD THROUGHOUT CITY OF NEW YORK

New York, Feb. 5.—A blinding snowstorm, driven by a gale, increased the apprehension of official New York and naval militia guards on bridges, about public buildings and on the waterfront were increased today.

Tugs carrying officers and details up and down the streams increased their vigilance and proceeded more slowly. Artillerymen manning guns planted at the bridgeheads began to exercise more caution.

It is the first time within the memory of the younger generation that New Yorkers have been challenged by armed soldiers along their own highways. Now they are told to move fast as they pass over the huge spans connecting Brooklyn with Manhattan Island. Leaving in Battery Park is also prohibited.

The driving snow today made approach to bridge piers easier and for that reason even greater precaution was taken than yesterday.

The naval militia, which was the first to be summoned in the Spanish-American war, is holding a rigid guard over all public property; the bridges and the waterfront. Blue clad youths from offices and stores are patrolling these places. Anyone who stops is asked to move on. Questioners are met with a flash of bayonet and a little more suggestion. Street cars are kept moving. Motormen and conductors have been warned that while crossing the bridges they must keep their car windows and doors closed and keep the power turned on.

Automobiles are met with the same orders. Underneath the structures, searchlights swung on the piers and up and down the stream. Arc and drop lights illuminated the bridge. Important looking artillery pieces frowned grimly toward the river, where a constant vigil was kept by men aboard naval tugs.

Tugs were warned not to approach closer than fifty feet to any of the piers and bridges, were especially watched, lest one of them, laden with explosives, should bump into the masonry.

New Yorkers hurried and fought their way to work today with just as much brusqueness as usual. The usual jam of thousands poured into the office and store buildings at the usual time, so far as could be done in the face of a blizzard.

American flags flapped in the wind in the canyon of Broad and Wall streets in the financial district. Huge strips of the tri-colored emblem met across the narrow street. The flag epidemic continued uptown, in busy Fifth avenue and Broadway.

More flags are flying in New York today than for years.

University Notes

Now that examinations are over and the registration for the second semester nearly completed, student body interests are again centered on the manifold activities of college life. Among the events that will be featured in the near future are the basketball game with the University of Washington, Wednesday evening, the first glee club concert of the season will be given at Jefferson on the same date. On February 13 the Ladies' Glee club will present a program in the chapel. Next Saturday will occur the dual debate with Pacific university. Award day has been definitely scheduled for the 22d. Class attention is invited on the annual freshman glee contest, and ambitious poets are hard at work to produce the winning song.

Although Professor John O. Hall, head of the sociology department, is the busiest man on the campus, it is definitely stated that he will give his lecture, "Remedies Against Poverty," in the chapel, February 12. For the past two weeks Dr. Hall has been much in demand by various state legislative committees. His lecture next Monday will embody many results obtained by recent research work.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets. That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is less of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

Pure blood is required by every organ of the body for the proper performance of its functions.

Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. Its acts directly on the blood, ridding it of scrofulous and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strength-giving substances. Get it today.

HOGS ARE HIGHER

Chicago, Feb. 5.—Hogs established a new record price here today when heavy hogs sold on the market for \$12.30 per hundred. This is the highest since the civil war.

Reports from Pennsylvania university show that the west can make good in the east. Lloyd Haight, a member of the third year class, who is enrolled in the department of dentistry, received a rare compliment. The head of the laboratory work told him he did the best work of any freshman, who had come under his supervision.

Merriment reigned supreme over the idea of "flunks" as the student body gathered in the literary society halls on the third floor of Waller hall, Friday evening, for the annual post-exam jubilee.

With Laban A. Stevens, master of ceremonies, a program consisting of piano solos by Beatrice Neuport and Ethel Forbes, vocal solos by Evelyn Reigelman and Derrill Rexford, a cornet solo by Edwin Payne, and a number of animated cartoons by Dean Pollock, delighted the audience.

Afterwards Miss Ruth Spoor initiated a series of games and dances that were not interrupted until the eleventh hour. Except for a few minutes to enjoy the

Potato Growers Met In Salem Saturday

Members of the Marion county Potato Growers association were told one or two unpleasant truths at the meeting held Saturday afternoon at the Commercial club. The truth came from Mr. Franklin, an independent dealer in produce of Oakland, California, who said that Oregon potatoes ranked third and fourth compared to those raised in Idaho, Utah, Nevada and California.

The reason was the many diseased potatoes in this market, dry rot and another big reason, that of poor grading. Varieties were badly mixed and many stocks badly run out, he said.

Luther J. Chapin called attention to the necessity of securing a few good varieties of seed and said that one of the finest lot had been shipped out of the county. He also suggested that attention should be given to the development of varieties that seem best adapted to this climate and soil and that Oregon potatoes would stand higher in the markets of there was more attention to grading.

William H. Egan of Hopmer made a short talk on the purposes of the association and suggestions of benefit to the potatoes growers were given by George Schropp of Pratum, J. P. Aspinwall of Brooks and others.

Wall Street Market Shows Great Strength

New York, Feb. 5.—The New York Evening Sun financial review today said: "The strength in today's stock market reflected improved sentiment throughout financial and securities circles. This improvement was due in large measure to the removal of numerous uncertainties that have been cleared away by the definite break in diplomatic relations with the German empire."

These steps taken in the atmosphere of Wall Street has been cleared. Security values may now be regarded for what they are actually worth.

The uncertainties thus largely removed, there has been the most vigorous response by pronounced strength in the stock, grain and cotton markets, all of which were well bought today.

The advance in stocks was from three to six points or more, but the movement was by no means consistently maintained.

Attempt to Reconsider Fish Bill Is Failure

Callan of Multnomah attempted to have the Rogue river fish bill reconsidered in the house this afternoon. Almost unanimously the motion was voted down.

Japanese Resent Passage of Immigration Bill

Washington, Feb. 5.—The immigration bill, vetoed once by Cleveland, once by Taft and twice by President Wilson, today passed the senate by the necessary margin to make it a law.

The house passed it Friday. The bill contains the literacy test and the anti-alien clause which Senator Reed, Missouri, today declared Japan has objected. The law becomes effective May 1.

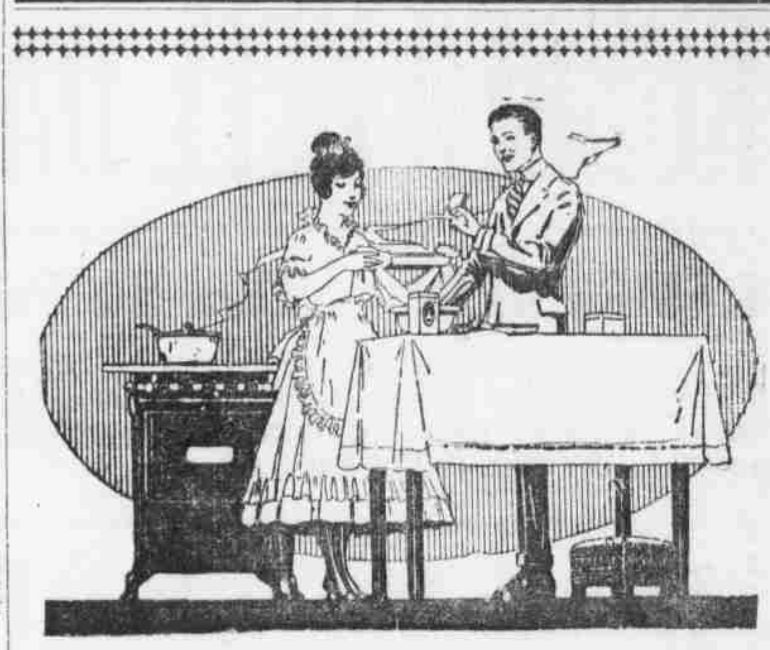

The vote was 62 to 19. Previous to the vote, Senator Lodge of the foreign relations committee declared the bill in no way affected the Japanese agreement regarding immigration from that country.

Special for Wednesday Holsum German Coffee Cake. Have your grocer order one for you and get acquainted with its original rich and dainty flavor, produced by the use of real fruit and nuts. Price 25 cents. Made in Salem's new bakery built to give Sal m folks the opportunity to keep their money at home. Cherry City Bakery

Children Cry FOR FLETCHER'S CASTORIA refreshments, prepared by the Misses Gilbert and Cooley. In addition to members of the faculty and student body a large number of outsiders were present, including several from O. A. C. With the distinction of being the only mid-year graduate at "Old Willamette" this year, Maxwell E. Ball departed Saturday night for his home in Portland. No formal occasion marked the close of his collegiate career, he will receive his diploma "in absentia." This marks the close of a unique college life. Mr. Ball's sojourn at Willamette has been a queer mixture of pranks and hard work. He was excelled by few students in the English department. His originality was always an unknown quantity. That the Willamette Collegian is surprised in its make-up and content by few college publications is due to his excellent work, last year, as editor-in-chief.

Protect Your DAUGHTER

A good habit cannot be formed too early—start the children on Dr. Lyon's For The Teeth Powder ~ Cream Send 2c stamp for generous sample of either Dr. Lyon's Perfect Dental Cream or Tooth Powder. L. W. Lyon & Sons, Inc., 65 W. 27th St., N. Y. City

It's Great Fun Making Fudge on a Gas Range

It's easy to pass a pleasant evening making candy on a Gas Range. The "goodies" are bound to turn out just right because it's so simple to regulate the gas flame to the proper heat and there's no danger of burning.

For All Cooking Purposes a Gas Range Is Best

It is ready for service at the turn of a valve at any hour of the day or night. No fire to watch, no wood, coal or ashes to carry about. Gas's cooking means less work, dependable results, lower fuel bills.

HAVE YOU A GAS RANGE IN YOUR HOME? IF NOT, TELEPHONE 85

The Gas Co.
