Salem Germans Favor Efforts to Keep Peace

Urging President Wilson and other men in high official positions to use every effort to prevent war between Germany and the United States and holding that the occurrences of the past few days do not justify a declaration of war on the part of the United States, Salem lodge No. 6, Sons of Hermann, adopted a resolution last night. Copies of the document will be sent to President Wilson, W. J. Bryan, and Senators Chamberlain of Oregon and Works of California.

Peace Strongly Urged
The resolution follows:
"We the citizens of Salem of German extraction, beg of you to labor at all times for peace between the United States and Germany. What has occurred in the last few days does not justify a declaration of war on the part of the United States. Both sides have perhaps transgressed our rights, therefore it is wrong for this country to espouse the side of either belligerents. We should keep our people from the danger zone of either England or Germany."
"The people of the United States or Germany do not want war and we pray that you use every possible effort to prevent it. The ties that bind the people of the two nations are too sacred to be eternally disrupted."

Woman Promises to Pray For Death of Judge

San Francisco, Feb. 8.—"I'll pray for your death, judge, as long as there is breath left in me."
Mrs. Margaret Cornell, convicted with former German Consul General Franz Bopp and associates on charge of violating American neutrality, shouted these words at Federal Judge Hunt today as she was being led from court on her way to San Quentin prison to serve a sentence of one year and one day.

At the door she met United States District Attorney Preston who prosecuted her.
"And I'll pray for your death, too," she cried. "I hope you die in prison in darkness."
Bopp extended his hand to Mrs. Cornell but she refused to take it and Bopp turned away.
"I'm a woman without a country now," said she. "I'm glad I never became an American citizen. I intend to pray always in my cell for the death of the judge and district attorney who sent me to prison."
On motion of counsel, Judge Hunt gave Bopp and his associates until tomorrow to raise \$25,000 bail. C. C. Crowley, special agent of the German consulate, waived his right to bail and will be taken to McNeill's island prison tomorrow to serve a two year sentence.

Ambassador Gerard Receives Safe Conduct Finally

By Carl W. Ackerman.
(United Press Staff Correspondent.)
Berlin, Feb. 8.—Official notification of safe conduct for Ambassador Von Bernstorff having been received, it was announced that Ambassador Gerard's passports are available Thursday or thereafter, whenever he desires to leave Germany.
The German government, it was stated this evening, is making all possible arrangements to facilitate Ambassador Gerard's departure. He will have a special train to the Swiss border for his staff. They will be given a military guard.
"The number of persons for which passports must be had is rather large," the statement added. "It will therefore take some time. The complete list only today came to the knowledge of the German authorities."
—GEO. G. S.

The Best Recommendation

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendation of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Annand Gierhart, Wayneville, Ohio, writes: "Chamberlain's Cough Remedy has been in my family off and on for twenty years and it has never failed to cure a cough or cold. Obtainable everywhere."

SEATTLE'S BOOZE GRIFT

Seattle, Wash., Feb. 8.—Seattle's booze graft trial will begin in federal court here March 6.
Date for the trial of Mayor Gill, Chief of Police Beckingham, ex-Sheriff Hodge and four city detectives indicted on conspiracy charges along with bootleggers was fixed by Federal Judge Ketterer today. The court also upheld the indictment which had been attacked by Hodge and the detectives.
The recessed grand jury will reconvene on the same day.

ANTI-CIGARETTE BILLS

(Continued from page one.)
The vote against was Anderson, Ashley, Belland, Brad, Brown, Brownell, Burton, Childs, Cornelius, Crandall, Goode, Gordon, Gore, W. B. Jones, Laurgard, Langer, Meek, Small, Sweeney, Thompson, Tichenor.
Absent were Bean, Griggs and Peck.
H. B. No. 208, the bill with teeth in it, was next considered, and main talk made by Representative Sweeney, father of the bill.
He said that Oklahoma had passed such legislation, that Kansas was considering it besides other states. He said the question concerned the growing habit among the women and that H. B. No. 436 would not affect them. He said it was only the purity of the woman that has kept up the standard of the nation and asked what kind of a mother a woman would make with her fingers stained with nicotine.
Burdick did not think the Sweeney bill accurately represented the wishes of the people. Mrs. Thompson declared that if the snake was to be killed, she must be cut off, and Mr. Thomas declared that in justice to his own boy he did not back the movement.
With other speakers for and against the bill finally came to a vote with 35 voting for, 24 against, and one being absent.
Three bills were disposed of outside the anti-cigarette bills. The first was H. B. No. 411, by Bean, authorizing county courts to establish public markets, which passed.
H. B. No. 474, by Bowman, authorizing payment of general and special taxes to treasurer at Gaston, Ore., passed.
S. B. No. 177, Senator Pierce, requiring veterinary surgeon to furnish certified copy of brands to county clerks, passed.

SENATOR GILL'S FISHING BILL PASSED SENATE THIS MORNING

The senate passed one bill this morning after a spirited debate with Senator Gill for and Senator Dimick against it. It was Senator Gill's bill regarding fishing on the Willamette river establishing the bounds within which net fishermen could not work, and fixing the number of salmon that may be caught in one day by hook and line. Senator Gill spoke of the ancient history of the river at the falls, where for ages the noble redmen had gathered his supply of fish. He said now the fish ladders were inadequate, and as a result the salmon gathered below the falls, and so soon as the season opened the fishermen from the lower river were on hand with their nets, and scooped up the gathered salmon, cleaning them out in a few days, and then returning to their homes down the river. He stated the Willamette was now the main stream used by the salmon for breeding. The Umatilla and other streams east of the mountains had been so diverted by irrigationists that they were no longer used by the salmon as breeding grounds. He said the Clack-

ing at him, "and you know it." Further attack was stopped by the president's gavel and a caution to address the chair rather than Senator Gill.
He ridiculed the idea of the prodigality of the sportsmen. He said there was a launch run up and down the river selling cheap lunches and hot dog and that these prodigals and they did not even come over and buy a lunch at Oregon City.
Gill replied rather prosaically while the senators who at the beginning of the discourse knowing just how they intended to vote, took refuge behind their newspapers or cleaned up their correspondence. Even President Moser, wide awake as he is, felt the soporific effects of the debate and almost nodded.
At the conclusion of his talk Gill demanded a call of the house. On roll call the bill went through just as everybody even Dimick knew it would. The vote was 22 for and five against.
Outside of this but little was done, there being 27 bills and resolutions reported from committee and of these S. B. No. 284, by Olson, providing for the collection of a penalty for refusal to pay laborers wages and H. B. No. 188, extending mechanic's liens to work done on irrigation projects, were both indefinitely postponed.
S. B. No. 298 was introduced by Huston by unanimous consent.
Senate bills Nos. 288, 294, 296 and 297 were read second time.
Adjourned to 2 o'clock.

GERMAN-AMERICANS APPEAL

Seattle, Wash., Feb. 8.—An appeal to United States Senators Poindexter and Jones and Representative William E. Humphrey has been made by the German-American Alliance here yesterday to oppose any war measures. The message read:
"The slogan 'He kept us out of war,' re-elected President Wilson. We pray to God he will, with your help, have earned his re-election by keeping us out of war."
Nineteen years ago we were executing Spain for blowing up the Maine. Today we are choosing her as our next friend at Berlin. Nineteen more years, and there will be thirty more of such strange bedfellowships to report. Let people alone, and nobody hates anybody a great while.

PRICE BREAKS DOWN AND ADMITS GIVING BROKER'S STOCK TIPS

Washington, Feb. 8.—A fragile little woman, very fashionably gowned, about 30 to 40 years old, though obviously badly frightened and extremely nervous, this afternoon defied the house note leakers to make her tell where she got her information that "W. W. Price, Washington newspaperman, got \$5,000 as a go between for Presidential Secretary Tumulty."
The woman was the "inch discussed" woman of mystery, Mrs. Ruth Thomson Visconti.
Mrs. Visconti forced an executive session before she would give any names and gave them only after being promised they would not be published.
Shortly thereafter, Price took the stand. On previous occasions, forestal and sometimes defiant when questioned, Price broke down utterly today. He wept openly as he replied to questions regarding his most intimate family and personal business affairs.
Price's breakdown came when Attorney Whipple in thunderous tones demanded where he got \$1,000 which Price deposited at a local bank last month.
"I got it honestly," Price sobbed brokenly. "We live very cheaply at home and I have saved from my salary and made a little at real estate transactions."
Price said he was always careful to separate his news work from his "side jobs" of supplying "tips" to Chicago brokerage houses. He admitted receiving from several of these firms \$25 a month and said one had sent him a "Christmas present" of \$25.
Price admitted Mrs. Visconti got what information she had from members of Price's family.

Mrs. Visconti Only Gives Names When Committee Is Pledged to Secrecy

Washington, Feb. 8.—The New York Evening Sun financial review today said:
Today's stock market reflected the extreme perplexity and confusion prevailing in securities circles. Traders and public alike feel quite justly that there is nothing whatever on which to base a course of action and the result is that everybody is nervous and hesitant. Disturbing rumors were afloat throughout the day. The market itself was of a professional character save for scattered liquidation and a small amount of investment buying. It was found to be far easier to sell stocks than to buy them.
Prices were heavy practically throughout the list following an irregular opening. In a good part of the forenoon considerable strength was displayed by the stocks of those companies which are expected to profit from war business. This movement carried numerous other industrial issues to higher levels. The copper shares were somewhat erratic.
In the railroad list Union Pacific was strong on the declaration of an extra quarterly dividend of half of one per cent on the common stock, but the other issues were inclined to be soft. The traction shares were likewise under pressure, a firmer tone developed in the railroad list as the afternoon advanced. The late trading was small price changes were unimportant.

AMERICAN KILLED

London, Feb. 8.—An American negro, George Washington, a fireman, was killed when the British steamship Torino was sunk by a German submarine today. Calvin Ray Fillmore of Utah, a member of the Torino's crew was saved.

Moore Arrests Made In Blind Pig Raid

In the raid on alleged blind pigs made by the officers yesterday afternoon several employees of the Marion hotel were arrested. They were Lou Evans, an elevator man, and Raymond Labe, a bell hop. Upon their entering pleas of guilty before Justice of the Peace Webster, Kennedy and Evans were fined \$25 each and costs, and Labe was fined only \$5 and costs, because, as the district attorney explained he was supporting his mother at Roseburg. They are said to have sold the liquor at \$6 a bottle.
T. G. Bligh was placed under bonds of \$500 on the allegation that he received seven shipments of liquor consigned to women in his employ. Bligh contends the liquor was ordered legally.
The total amount taken in the seizure was 114 quarts. The procedure of Constable Varney in confiscating the liquor was by search warrant issued by Justice of the Peace Webster at the instance of the district attorney.
