

Write Omar twice—up and down or straight across—you get Aroma. Smoke Omar—once, twice, many times—you get Aroma. You can't separate Omar from Aroma.

The reason for the Aroma in Omar is the happy blending of rich Turkish with ripe accentuating leaves—the result is silky-smooth aroma-tones delicately blended with ripe tang.

Omar—the perfect Turkish blend. Even the words blend.

"It's the Omar-Aroma that counts"

ANTI-PICKETING (Continued from page one.)

was with the courts and the common law. Mueller declared it denied free speech and would produce bloodshed instead of preventing it. Although Crandall said that he had been run over yesterday by an "electric juggernaut" just as Mrs. Thompson was run over early in the week by the "steam roller" still he had the courage to come back. He opposed the bill as he thought it tied the hands of those whose hands should not be tied and he would have it so neither side could conspire against the other. He declared it would throttle free speech, rightful assembly, etc. Gordon said he was a friend of the

laboring man but thought the employers ought to have some protection. Burdick said some legislation on the subject demanded and some members pledged to it. Callan declared he was not pledged and that conditions were appalling. Dr. Anderson thought the measure would be an additional club in the hands of the employers. Organized labor he said was fought on one side by the I. W. W.'s and on the other by capital and this bill would mean a stab in the back. He thought it ought to be settled in Multnomah county. And the Bill Passed. Representative Rittner at 12:45 called for the previous question and the vote was taken which resulted in the passage of the bill.

PURE BUSINESS MARKED SENATE MORNING SESSION

It was a business session this morning

Many More in Oregon Wish to Testify

Many local people are glad to testify to the good results obtained from Anurie, first discovered by Dr. Pierce of the 'Javalids' Hotel, Buffalo, N. Y., for kidney and bladder disorders, backache, rheumatism and all uric acid troubles. Anurie is many times more potent than lithia, dissolving uric acid almost as hot water melts sugar. Mrs. Caswell, who lives at 447 Stephens St., Portland, writes: "Dr. Pierce's Anurie Tablets gave me great relief after eight years of suffering with kidney trouble and dropsy of limbs and feet; they are certainly good. Simply ask your druggist for Dr. Pierce's Anurie Tablets. Every package of Anurie is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and reconstructer. Mrs. D. Berg, of 498 Rose St., Portland, says: "I saw Dr. Pierce's advertisement in the newspaper, and, as I had tried so many things for women's trouble without getting any help, I decided to try Dr. Pierce's Favorite Prescription. I did so with good results. I think it is just great. If not obtainable at your dealer's send \$1.00 to Dr. Pierce, Javalids' Hotel, Buffalo, N. Y., and he will send large package of tablets, or send fifty cents for smaller size. Mrs. Carrie Dean, of 11 N. Lawrence

MRS. D. BERG St. Eugene, says: "In raising my family I have always found that I could depend on Dr. Pierce's remedies for all ailments. I gave them the 'Golden Medical Discovery' for tonsillitis, sore throat, bad coughs, and grippe and it always cured them. I also gave them the 'Pleasant Pellets' for sick headache, biliousness and constipation. I am glad to recommend Dr. Pierce's remedies. Pleasant Pellets for stomach, liver and bowels, are made up of the May apple, also leaves and jalap. This well known pellet was made up nearly fifty years ago, by Dr. Pierce, and can be had for a quarter from almost any apothecary—simply ask for Dr. Pierce's Pleasant Pellets.

WILL PUT DEALERS IN PROFESSIONAL RANKS Man Who Sells Sporting Goods Will Be Put Out of Amateur Class

By H. C. Hamilton. (United Press staff correspondent.) New York, Feb. 9.—It was almost a ready-made fact early today that delegates to the annual meeting of the United States National Lawn Tennis association would take the action that will make Maurice E. McLaughlin a professional when they convene at the Waldorf.

The only chance to overcome the solid front that will be presented in the east will be for the western men to win over the few clubs in this section who have not instructed their delegates. The amendment to the by-laws will make any tennis player who engages in the sporting goods business a professional—following the example set by the National Golf association when it made Francis Ouimet and other prominent golfers professionals.

The tennis players will not be professionals for a year and, according to the way the law is now contemplated, will make them professionals only so long as they are engaged in the business. This probably will be changed to make them outright professionals, with no chance of a drawback.

The question of a location for this year's national tourney also promises to start something, even though the West Side club at Forest Hill seems to have the trail. Many players have been dissatisfied with the West Side club and there undoubtedly will be an effort to have the tourney taken somewhere else.

Ping Bodie Signs. San Francisco, Feb. 9.—The crew-el war is over, so far as Ping Bodie is concerned. Hostilities between the fence buster and Connie Mack, manager of the Philadelphia Athletics, have ended and Ping has accepted a contract calling for \$6,000 salary, according to reports today. Ping got \$2,500 from the Seals last year.

Doyle to Be Captain. Chicago, Feb. 9.—Larry Doyle, second sacker, will be field captain for the Cubs this season. Manager Mitchell has notified Doyle, who is vacationing in Florida.

Will Not Confirm Story. San Francisco, Feb. 9.—Manager Wolverton, of the Seals, declined to confirm today reports that Bert Ellis, whom he has just acquired from Los Angeles, will be used in another trade he is contemplating.

Steecher Coming to Coast. San Francisco, Feb. 9.—Joe Steecher, Nebraska wrestling marvel, will arrive here February 17 to begin training for his match February 22 with Ad Santel.

The Shiny Players. Portland, Ore., Feb. 9.—Seattle hockey players who are already polishing up their mobile brows to receive the laurel wreath of championship will take a crack at Portland here tonight. Portland is in the cellar. To lose the championship, Seattle would have to drop three games before March 2, while Vancouver was winning all of its contests.

although considerable time was wasted discussing the merging of the stallion registration board and placing it under the control of the state veterinarian.

"The demands of the dear people" that something be consolidated and expenses cut down was the tenor of most of the remarks of those favoring the measure, and the good work done by the board, the danger of changing what had proved a successful management to an untried one, was great; the fact that the board cost the state nothing now the fees collected paying all expenses, and hence there was no saving of the taxpayers' money, was the principal mitigation of those trying to hold the trenches against attack. It was a long battle from the start, the senate standing by its committee and passing the bill.

Senator Cusick's bill, No. 285, repealing the law requiring a medical certificate as a requisite to issuing a marriage certificate caused considerable discussion but passed. This is the law that has made Vancouver the Green City of the northwest. Senator Cusick said the examinations required were pronounced by physicians as worthless anyway and accomplished no good purpose, certainly not that which the law intended, and which the convenience of Vancouver practically nullified. The bill passed.

S. B. No. 286, by Vinton, extending the boundaries of counties bordering on the Pacific ocean to the western boundaries of the state, giving the counties jurisdiction to the three mile limit; passed.

S. B. No. 172, by Houston, limiting the right of courtesy; passed.

S. B. No. 271, by Houston, prohibiting persons not notaries from representing themselves as such; passed.

S. B. No. 138, by Gill, creating a game refuge to protect Mongolian pheasants and other game birds; referred.

S. B. No. 293, by consolidation committee, pertaining to stallion registration board; passed.

At 10:30 senate bill No. 195, by Orton, was the special order. It related to the appointment and removal of teachers by board of directors of school districts of more than 20,000. It was to settle disputes that have for some time set the Portland schools by the ears, and the senators had a little fun with Orton when the roll was called. A majority of them voted no just because Orton had announced it was his pet measure. He was at first paralyzed and for once speechless; but before the president could announce the vote one after another senator changed his vote; and Orton smiled again. There are six senate bills yet on the calendar for third reading and final passage today, and with them 14 house bills. The senate adjourned to 2 o'clock.

SAGE TEA BEAUTIFIES AND DARKENS HAIR Don't Stay Gray! Sage Tea and Sulphur Darkens Hair So Naturally that Nobody Can Tell

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

HENRY FORD IS READY (Continued from page one.)

submarine" and said he would stake his reputation as a manufacturer on the success of the one man undersea craft. He asked if it wasn't worth something to the government to have handy a plant which could manufacture three thousand automobiles, each capable of carrying ten men, every day.

"Think they could transport some soldiers?" he inquired. "The other day I noticed a lot of flags flying," Ford said. "A good many seemed to be from bank buildings. They all seemed patriotic—(except our own United States) to fight wars."

"But I didn't see any signs of picks or shovels or khaki about those bank buildings, indicating they were offering any practical help to the United States except what they could profit from."

SUNK ONLY SIX OUT (Continued from page one.)

the submarine menace."

Official Report of Losses. Washington, Feb. 9.—Lloyd's report, under date of today, as forwarded by Consul General Skinner, London, to the state department, showed destruction of 15,918 tons of shipping during the last 24 hours, against about 28,000 shown in yesterday's report.

The list showed one case—that of the British steamer Dauntless sunk yesterday, in which seventeen persons are missing, two died after landing and four hospital cases. The Lloyds reports as forwarded here by Skinner have included in some cases ship sinkings previously permitted to be sent out by London correspondents.

The report of sinkings follows: Russian schooner, Bangpulis, 218 tons, submerged, crew landed.

British steamer Boyne Castle, 245 tons, sunk.

British steamer Boyne Castle, 245 tons, sunk.

British steamer Dauntless, 1,461 tons, sunk, 17 missing, six landed, of which number two died and four in hospital.

British steamer Hollingside, 1,713 tons, sunk, Captain landed, crew left in boats.

British steamer St. Ninian, 1,938 tons, sunk, part of crew landed.

British steamer Saxonian, 2,978 tons, sunk.

Norwegian ship Songely, 1,973 tons, sunk, crew landed.

Swedish steamer Varing, 1,247 tons, sunk.

British steamer Vedamore, 4,122 tons, sunk, crew landed.

French steamer Yvonne, 123 tons, sunk.

Total 15,918 tons.

GEORGE WASHINGTON (Continued from page one.)

are forced to register in England, and it is assumed here that if Washington did not so register, he must have convinced British officials that he was not an alien, but a citizen.

Americans Lost

Philadelphia, Feb. 9.—Two children of foreign born parents, but themselves born in this city and therefore potentially Americans, according to international lawyers, were lost in the torpedoing of the liner California by a German submarine.

They were James and Mary O'Donnell, 9 and 7 years old. With their mother, Mrs. Mary J. O'Donnell and a brother—Cornelius, age 16—they were returning to Scotland to visit their grandmother. Mrs. O'Donnell and the two children are missing and believed lost, but Cornelius was saved.

Mrs. O'Donnell was born in Scotland and her husband in Ireland. O'Donnell never took out naturalization papers. They had lived in South Philadelphia for 18 years and all 3 children were born there. They were baptised by Rev. F. X. Curran, rector of St. Anthony's Catholic church, this city.

James, at the age of maturity, could have registered as a voter in Pennsylvania, though it was stated, he could also, through a technicality of the law, have chosen to become a British subject, too.

International lawyers here declared that under the law that a child of foreign parents, but born in this country, may at the age of maturity, choose either the birthright of his parents' country or that in which he was born.

Washington, Feb. 9.—The O'Donnell children are not American citizens, state department officials held today. Their parents were British subjects, when they became of age, whether they should be American citizens or British subjects.

Inasmuch as the O'Donnell children never made the choice of citizenship, it cannot be claimed that because of their American birth they were American citizens, authorities held today.

Four of Crew Injured

London, Feb. 9.—Four of the crew of the British steamer Hanna Larsen were injured when that vessel was torpedoed by a German submarine, it was announced today. The captain of the Hanna Larsen was taken prisoner by the U-boat commander. Nineteen of the crew were landed.

The Hanna Larsen was a steel steamer of 1,311 tons, registered at London. She had been requisitioned by the admiralty at the beginning of the war. She was owned by Everett and Newbigging and was built in 1905.

Two Lives Lost

London, Feb. 9.—Two were killed when a German submarine shelled and sunk the Norwegian steamer Ida, it was announced today. The Norwegian steamer Hanskinck was also reported sunk today.

There are two Norwegian vessels named Ida, according to Lloyd's register. Both are iron steamers, one of 1,300 tons and the other of 1,172 tons. One is registered at Haugesund, and the other at Lagesund. Both were built in 1883.

Not American Subject

Washington, Feb. 9.—Consul Frost, Queenstown, reported officially to the state department today that George Washington, negro, killed in the torpedoing of the Turino yesterday, was born in Alberta, Canada, and was apparently a British subject.

University Notes

Contrary to the student body decision made the first of the week, the executive committee ruled that the freshman glee be scheduled for Thursday, March 1. The student body ruling was that the date be set for the first open week after the conclusion of the glee club tour. In an effort last year to standardize the glee a student body resolution set the date for the second Friday in March, but as the presence of the glee club members is necessary for the success of the class contest, this date was not feasible this year.

Since the final date for the glee is only three weeks away all the classes are busily engaged writing and selecting the best song and music that any member can produce. The management of this contest is in the hands of the freshman class. The glee will be held in the armory this year as both the chapel and First Methodist church have proven inadequate to accommodate the crowds attracted by the entertainment.

Ed Rauch has been chosen general manager. He will be assisted by Victor Taylor, finances; Velma Baker, pianist; Fabian Rosch, decorations; Ethel McGilchrist, words and music for freshman song; Odell Savage, program; Paul Doney, judge. There will also be an interclass committee composed of one member from each class to finally select judges.

On the evening of Washington's birthday will occur the annual award day exercises. This event is to honor the athletic and forensic men for their work during the previous year, by presenting the official sweater and pin awards.

Grover Gates, a senior and a "W" man for four years, is general supervisor of the event. He has written to several prominent alumni inviting them to be present at the occasion. A large number of the old warriors are expected to be here, among them "Brick" Harrison and Emery Doane, both of whom served as student body presidents.

Jefferson was the scene of the first season's concert of the Men's Glee club. This presentation was one of the attractions on the Lyceum course this winter. The club appeared under the management of Burgess E. Ford, principal of the Jefferson high school. The program as will be featured on the spring tour was given.

Students and Salem folks will be pleased to hear that Miss Ada Ross, '16, has been employed as English teacher in the Amity high school for the second semester and next year. Miss Ross was employed in the Lexington schools but resigned at the close of the first term to accept this new position.

At a brief business meeting prior to the game, Wednesday, the Christophilian Literary society elected officers for the second semester. The president's chair will be occupied by Edward Rauch. His assistants are: Vice-president, Dean Pollock; recording secretary, Clarence Carpenter; corresponding secretary, Philip Furtholme; treasurer, Legg; sergeant-at-arms, William Masters; critic, Paul Doney.

Although this is the Cheswote first year, the members report a very profitable time. The society meets regularly in the Y. M. rooms, at the same hour as two other men's societies.
