HAVE COLOR IN YOUR CHEEKS
Be Better Looking—Take Olive Tablets
If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.
Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.
Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.
To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.
Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.
They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

HOUSE, SATURDAY AFTERNOON
Forty bills were disposed of Saturday in the longest day's work yet held by the house of representatives. Of the above number 33 were passed, five were withdrawn and two indefinitely postponed.
Import among the bills passed was that authorizing the high schools to provide military training under state supervision. The measure brought forth the sentiments of the house regarding the matter of military training in the schools and it was favorable for establishing the training if it did not sow the seeds of militarism among the young men. Those who opposed the bill saw in it a danger that might result in making the country military. It was shown by the friends of the measure that the training was not compulsory and that it would do a great deal of good in preparing the young man to face the stern realities of life in ensuring him to discipline and obedience.
