 Mothers, you'll never know what you are missing until you make up this in-expensive, quick-acting cough syrup and try it. Children love its pleasant tast and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such case and promptness. It's equally as goed for grown-ups as for children.
This splendid cough syrup is mide by pouring 215 ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—a family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$2.
The moment it touches the inflamed, cold-congested membranes that line the throat and air pacages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or thes. Excellent for bornehiling the possible membranes and ordinary coughs are conquered by it in 24 hours or south and an pacages. We felt it was bound to come soon, and now it has arrived. Before Oregon went dry the proper designation of an extravagant person was one with "a champagne appetite and a beer income." Since the arid season set in comes this one to take the place of the other suggestive of poor old John Barleycorn; it is: "We want lobster on a ham and beans income." It is perhaps just as apt an illustration, but somehow it doesn't seem to fit as well.

Now that the snow has disappeared and gentle spring is overdue from tripping so much on her way, it is time for the old dispute as to whether Rickreall was born with that good honest name or is a degenerate descendant of La Creole, to start in business again. That is the one infalliable sign of the arrival of spring west of the Cascades.
