The colonial party given by the Presbyterian women of Washington's birthday at the Masonic hall was a delightful success. Many who attended were in colonial costume. The Virginia Reel furnished pleasant diversion for the older folks. All enjoyed the splendid program, a delightful feature of which was the minut, danced by Cleo Goggin and Susie Chamberlain, attired as La Fayette and a little colonial dame. Mrs. H. D. Mars and Margaret Moeckel as George and Martha Washington, gave a recitation. The gentlemen were given a test in marksmanship when requested to shoot cherries from a restoration of the original tree. These cherries bore numbers corresponding to those on cherries held by the ladies. Refreshments were served from a colonial table set with old china and lighted with candles. The guests departed at a late hour expressing themselves well pleased with the evening's entertainment.

LES DARCY-DILLON BOUT A CERTAINTY

Attorney General Holds Contract Good, Both Men Are In Good Shape

By H. C. Hamilton.
(United Press staff correspondent.)
New York, March 1.—The announcement by Assistant Attorney General Obrey of New York, that Grant Hugh Browne's contract with Jack Dillon, calling for a 10-round bout between Dillon and Les Darcy, is a copper riveted legal document, has lulled to peaceful sleep all opposition to the affair. Governor Whitman administered a "final sleeping potion" when he caused to be issued from his office a complete denial that he was contemplating steps which would stop the scrap.

With these tremendous loads lifted from his mind Dillon began today to do the final training for the bout, the result in view being to work off several pounds of surplus flesh he carried when he kicked Al McCoy around a Brooklyn ring.

Darcy has trained himself into excellent shape. He realizes, as does Dillon, that a big task confronts him in making good before the American fight public. If he fails to make a good showing with Dillon he might as well cancel the orders for his limousines and things, for the shekels are going to quit trickling his way with abrupt suddenness.

A perfectly good piece of paper was used by Grant Hugh Browne to state that he would put Al McCoy on with Darcy in the second bout. Darcy has in this country. And it was a regular waste of words and time, for no one takes it seriously, in view of Browne's recent declaration that, having since burned his fingers, he proposed to let Al McCoy live his young life without the assistance of Browne money.

Next Saturday the Beavers tackle St. Louis college and on Sunday play the Chinese team again.

The game was played on a slick floor and players were frequently sprawled on the floor.
The line-up for Salem was: Gill and Ross, guards; Latham, center; Fry and Aekerman, forwards.
Victor Taylor, of Willamette, announced in the morning assembly that all high school students would be admitted free to the freshmen gym to be held in the armory Wednesday night.

It is the purpose of the coaches to make this an annual event.

That the tournament will be a success there is no doubt of considering the strong teams entered. The outcome is in doubt as most of the teams entered have not played each other.
Coach Homer Jamison, of Portland, has been secured to referee all the games.

High School Notes
Indications are that a military drill club will be formed at the high school. The legislature passed a law whereby high schools may form a drill club and receive equipment from the government. The law also provides that students that drill will receive credits toward graduation.
A committee composed of Tom McGilchrist, Kenneth Aspinwall and Frank Zenn has been appointed to look into the matter and report to the school at a future date.
Mr. Norton, an instructor at the high school, expressed his willingness to act as drill master if the club should be formed.
If Salem should form such a club it will be the first in the state to do so.

At a meeting last night the boxing club decided to fix up the attic as a club room. They will also petition the school board to buy them a mat. The members have sent for the athletic apparel necessary and will begin their lessons as soon as it arrives. About 31 members have joined the club and more express their intention to do so.

By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.

The prophet who predicted that no team would be successful in holding down first place in the percentage column of the Commercial Basketball series of the Y. M. C. A. for any length of time was certainly a good one. The Capital National Bank, the only team to have the undisputed right to occupy that position since the beginning of the series after holding it down for one week only, was last night again forced to divide honors with the Price Shoe company because of having been defeated by the Watt Shipp company in the opening game of the series. The game was rough and fast and early in the first half Edw. Scofield, guard of the Bank, and All Carson, center for the Shipp, squared off for a fistie encounter when referee Matthews intervened and disqualified both men for further participation in the game.

It was also necessary for the Price company to win its game against the Fry Drug team, while it was assumed that the game would be of little interest and that the Price company would easily win it was only after one of the hardest battles of the year that the Price company was successful in winning from the Fry's. Seeley, a recent addition to the Fry team, is a great improvement and with another week in which to prepare for the final game with the Capital National Bank there is no doubt but that the Drug team will play the best game which it has played since the beginning of the series. Captain Welborn of the Fry's, was unable to be with his team due to a severe attack of tonsillitis. Hauser Bros. defeated the Bishops in the second game of the evening. Hauser and Bishops each had a percentage of .500 per cent before last night's contests.

JAPAN'S AMBASSADOR (Continued from page one.)

tion and arms, has just finished its first act in Japan. Today the attention in diplomatic circles here is directed toward conjecture as to just what the Mexicans were at in their mission for the Carranza government.
The Mexican efforts meet with success, but their activities have been so intent as to arouse the daily watchfulness on the part of officials connected with both the American and British embassies here, the latter fearing that attempts were being made to aid the Germans.

When future developments are expected to heighten the sensational character of the Carranza mission, it is now known as a certainty that the Mexicans, assisted by two Japanese, a Dutch adventurer and a Welshman, discharged from the British army for conducting unbecoming an officer, succeeded in chartering the Kotohira Maru, a Japanese vessel of 4100 tons. After loading cargo, this boat left Yokohama during the night of January 4 and proceeded to Muroran, where it coaled and sailed direct for Salina Cruz, Mexico.
According to the manifest, the shipments consisted of 403 tons, but it is now known that this steamer of over 4000 tons did not sail direct for Salina Cruz with a cargo of only 400 tons, listed as machinery. It is also known that the Kotohira Maru carried 27 Japanese gun experts.

It is believed the Mexicans, handicapped in their operations by the lack of the Japanese government, were offered only inferior material of an old pattern and lacking in uniformity, so the trio finally resolved to add to their small arms purchase a quantity of machinery for the manufacture of guns and ammunition.
Mexicans Had Money
The three Mexicans were J. M. Carpio, R. Vargas and Guiterrez Astraga. They arrived in Yokohama November 24. They are all caranzista men. Carpio was chief of staff under General Obregon, Carranza's war minister.
The Mexicans had money—all kinds of it. They had credits issued by New York banks totaling more than \$2,000,000 gold. This money is generally known to have been deposited in the chartered bank, the First Bank of Japan and the Mitsui bank. In addition to these credits, there is a large sum of money deposited in a powerful bank.

here, the remnant of a sum placed here by General Horwitz when this bandit was supreme across the Rio Grande. During their stay here the Mexicans were frequently seen in company with two smooth looking, well dressed Filipinos, but while the movements of these Filipinos are being constantly watched, as yet their connection with the Mexicans has not been established. The two Japanese aiding the Mexicans were T. Sudaaki, former principal of the Tokio marine college, and M. Nakashima, who has been active in Mexican interests for years. Nakashima sailed for Mexico on the Kotohira Maru. He lived in Mexico for nearly ten years.

The Mexicans made frequent calls at the Mexican legation and were often seen in company with Colonel Romero, Carranza's minister here.
The latter claims, however, that his countrymen only came to Japan in quest of new trade markets for Mexican products.

ENGLAND HAS SUNK (Continued from page one.)

One is that the new "undersea" are less efficient of themselves by reason of hasty construction to meet the new program and that their crews are less efficient because of hasty training for the purpose.
Whereas many naval officers anticipated meeting something new and more terrible in the way of underwater fighting when Berlin announced the new policy of ruthlessness, there is reason to believe they have found the new boats easier to combat than were their predecessors.

Healed Off by Mines
Another reason, which has a good deal to substantiate its authenticity is that the new and frankly announced extension of the British mine fields has thrown a barrier across the ports of departure of the submarines that has successfully blocked in a big portion of those of the German admiralty hoped to send forth. At the same time, this barrier has prevented the return to home ports of many submarines that had been sent out before the ruthlessness was announced.
Headed home for a fresh supply of petrol, it is declared many a German submarine have found it impossible to get through the mine fields. Some have

been sunk and some have slipped away to hide.
At more than one supply station discovered and put out of business by British naval vessels, German submarines have turned up to find all supplies vanished, sometimes to be captured or sunk themselves by waiting British craft.
For reasons of the admiralty's own, the facts of British success against the submarines are being kept within the admiralty.
The same course was followed, it will be remembered, in the first days of the first big submarine menace when, as now, the admiralty did not allow the details of its success to become known until long afterward, confining such publicity as was permitted to general statements of the character here given.

"Whether the outcome be peace or war, President Wilson has finished writing notes," is one of the neatest things said since the "break." It was said by a newspaper that has long been accustomed to sneer at the president's "note writing," but wasn't sneering when it said that.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong---According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50%
In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me. A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems cleared. I can read even fine print without glasses. Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced severe headaches. I have worn glasses for several years both for distance and work.
