When the new law goes into effect in May, it will be a misdemeanor in Oregon for a person with insufficient funds in the bank to cash a check, providing he does it with intent to defraud. Heretofore it has only been possible to prosecute for passing worthless checks by charging that money was obtained by false pretenses.

Added attraction, no raise in prices, the Indian string quartet at Ye Liberty today and tomorrow.

Eggs for breakfast are now about the most economical food the lady of the house can serve to the provider of the household as today several stores are displaying signs, "Strictly fresh eggs, 25 cents a dozen." And on top of this reassuring news come the hints that potatoes have about reached the top notch and that within six or seven weeks the new crop will begin to arrive which will have something to do in taking the potato out of the luxury class.

May Force Bernstorff and Zimmerman Out

Amsterdam, March 3--Resignation of German Foreign Secretary Zimmerman and an abrupt termination of the diplomatic career of Count Johann Von Bernstorff, former German ambassador to the United States, is regarded by Dutch officials in close touch with German conditions as sure to follow the revelation of the Zimmerman letter in the United States.

Up until a late hour last night, German newspapers had not been permitted to publish anything concerning the Zimmerman letter.

Dutch officials refused today to discuss the plot for publication but privately it was stated that the attempt was a crowning blunder of Teutonic diplomacy.

Corporal Robin of the Salem recruiting office, has the distinction of recruiting a man for the U. S. army with a chest expansion greater than that ever possessed by "Old Corbett" with his five and three-quarter inches, or that of Jack Johnson, who had an expansion of six inches in his palm days. The recruit's name is F. H. Radditz and he came from Black Rock. While undergoing a physical examination at Portland, he developed a chest expansion of six and one-fourth inches. Radditz was a logger at Black Rock and Corporal Robin convinced him that the army offered him better inducements than a logging camp where he worked part of the year and was broke the remainder.

The Salem Fruit Union yesterday sent out checks amounting to \$35,000 to close the 1916 Italian and Petite prune pool. Payments had already been made on this pool and in sending out the \$35,000, every one of the 230 members interested will receive the final payment. Only two more pools remain to be closed, that of apples and dried cherries. Final payments on the apple pool will be made within a week or 10 days amounting to about \$5,000 and the dried cherry pool, on which an advance has already been paid, will be closed within a few weeks. With the final payments on this pool, the slate of the Salem Union will be clean and everything ready for the 1917 business.

An ordinance will be introduced at the meeting of the city council next Monday evening to make it easier to enforce the automobile license and at the same time making it more difficult for auto owners who use their ears for hire to evade the law. As the ordinance now stands, the license is issued to a man and not for any certain car. According to the new ordinance to be introduced, the license will be issued for a certain car and the only way it can be used for another car is by paying a transfer fee of \$1. Heretofore, two or more cars were often operated by the same man on one license. The annual license fee is \$15. Hereafter, if any man shows a sign "For Hire" or solicits his business for his auto, he will come under the provisions of the ordinance. Stage lines operating exclusively to near-by towns are excepted.

Will Discuss Late Plots of Germany

Sunday evening at St. Paul's church, Episcopal, corner Church and Cheneketa streets, the Salem public will have an opportunity to hear an able discourse on the subject of Germany's plot, through her secretary, Zimmerman, to align Mexico and Japan against the United States. This has caused more intense interest and feeling throughout the country than anything since the outbreak of the European war, not even excepting the sinking of the Lusitania. The subject of this sermon will be "Carthago Delenda Est," Latin words signifying the destruction of Carthage. An attempt will be made to show just what the nations are fighting for and how the United States is interested in the issue and its results, also the significance of the Kaiser's attempt to align Mexico and Japan against the United States will be illustrated. The foregoing subject now occupies the minds of all thinking people and that which brings them nearer to a realization of the conditions which surround our nation, and of the folly of believing in our security and isolation from this world conflict should be of the greatest interest. A cordial invitation is extended to the public to be present at this service, which begins at 7:30 o'clock.

Board of Control Lets Printing Contract

A contract was awarded by the state printing board after the session of the board of control to the Irwin-Hodson Printing company, of Portland, for the printing of the special election pamphlets. The bid was not on a lump sum basis, but made on a "per thousand basis," which will include the mailing.

A resolution presented to the board of control by Secretary Olcott at the meeting this morning concerning the status of the Salem hospital situation was laid on the table by the board. The resolution was in line with the resolution presented to the board of control by the joint house and senate ways and means committee recommending that the attorney general be authorized to go ahead and take such steps as to secure actual possession for the Oregon State hospital. The resolution of joint ways and means committee was presented on February 14 and allowed only 69 days for the Salem hospital to vacate. The hospital states that it cannot vacate unless it has a building into which it can go.
