Aumsville People Are Working for Cheese Factory

The meeting of the business men and dairymen of Aumsville and vicinity held last night at Hein's hall for the purpose of considering the advisability of establishing a cheese factory here failed to develop concentrated action on the part of those present. Lack of a good representation of dairymen accounted for the argument for and against the proposition being mainly between the business men who had called the meeting together under the leadership of Mr. Quinn of the Northwest Creamery Supply company. It is thought the dairymen failed to attend on account of the bad weather.

Mr. Quinn, who is here for the purpose of establishing a cheese factory, said at the beginning of his short address: "I am here to do business with you in a business like way," and he here that statement out during the remainder of the evening.

A. W. Schunk was one of the first to speak strongly in favor of a cheese factory and when the question as to

whether we could make as good cheese here in Aumsville as is made in Tillamook was raised, said he for one didn't see any reason why we couldn't make even better cheese.

Mr. Webb, who is attempting to put through a cheese factory at Sublimity, enlightened the members of the meeting somewhat on the cheese and cheese factory question. He is an old hand at cheese making having learned the trade at the age of 12 in Wisconsin. He offered his services if a factory is established, on the commission basis. He would operate it in connection with other factories he is promoting. John Brock, of Crabtree, said we could not do better as he does good work in the Solo factory. Mr. Webb also worked in the Tillamook factories.

In regard to the facts of profits in the creamery business for the dairymen C. L. Martin gave a short interesting talk either for or against a cheese factory, but left his hearers to decide which was the most profitable.

C. M. Miller, D. F. Eastburn, and Chairman O. E. Darby talked in favor of a factory while others seemed in doubt. A. P. Speer says we are not ready for such an enterprise. Only two

signed the contract for shares but more were promised. Several left before the meeting was closed and as it was getting late and nothing definite done, it was decided to meet again Monday afternoon and attempt to get more dairymen out.

At 10 o'clock this morning about 8500 had been subscribed.—Record.

Edwin Deetz, son of H. H. Deetz, of Neely, broke his arm several days ago while visiting his friend Rex Beatty, south of town. The large bone in his left wrist was broken, though at first it was thought to be sprained. Sunday evening he was called to the hospital to have the fracture reduced.—Hubbard-Enterprise.

Rickey News

To set a valuation upon a portion of the Martin Giesey estate, which is located in Multnomah county, the county court has appointed as appraisers C. R. Jones, George I. Dove and I. L. Matthews. The property consists of one lot near the line between Washington and Multnomah counties.

Delora J. Davis, daughter of the deceased, has filed a petition with the county court contesting the will of the late George W. Stephenson. She also asks to be appointed administrator of the estate. The petitioner claims her father was not of sound mind when he made the will and that undue influence was exerted upon him by other persons at the time.—Observer.

STRIKERS ARE FIRM

Oakland, Cal., March 12.—No immediate hope of a settlement of the strike of 3000 members of the shipyard laborers union was in sight today. The men refused yesterday the graduated scale offered by the shipyard owners and declared they will stand out for their original demand of \$3 a day.

THE MARKETS

The following prices for fruits and vegetables are those asked by the wholesaler of the retailer, and not what is paid to the producer. All other prices are those paid the producer. Corrections are made daily.

There seems to be no change in the general market conditions since Saturday. Potato dealers claim the market is holding steady and a few believe the demand from the east will pick up again and prices stiffen.

Eggs seem to have touched the bottom mark at 21 cents as at that price the market has been held up by the storage demand.
