boat destroyers.

Adelbert Fischer, at liberty on bail, is a reserve officer in the German army.

**Had Access to Navy Files.**

A number of the employees of the Fischer firm have been on trial trips of American ships and are conversant with all the features of their construction.

The company is equipped with machinery with which to make shells and other munitions. It was used in the Spanish-American war for that purpose.

The attempt to smuggle chronometers ashore from the liners was the part played by Fischer's wife. Federal agents express the belief that it was the intention to use them as time clocks to set off timed explosives in event of war.

Fischer is not an American citizen and has been in this country only a few years. But because of his various contacts with the government he has had access to many exclusive files of the navy department.

Officials claim the company's method of obtaining contracts with the government was to bid so low as to actually lose money on the transactions.

Disclosure regarding the two raiders has made city officials more restive over their demand for moving the ships from League Island.

Mayor Smith has returned from Washington where he made an urgent request of Secretary Daniels for their removal. It is said Daniels granted the request.

**Knocks Obsolete Coughs in a Hurry**

A Simple Home-Made Remedy that Gets at the Cause.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hanging-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It is so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end.

It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately.

A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with guaiac and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

**ORGANIZED LABOR**  
(Continued from page one.)

It is de-lazed labor has borne the brunt of war's terrors and deprivations.

"Industrial justice is the light of those living within our country," the statement continues. "With this right there is associated obligation.

"In war time obligation takes the form of service in defense of the republic against enemies.

"We recognize that this service may be either military or industrial, both equally essential for national defense.

"We hold this to be incontrovertible that the government which demands that men and women give their labor power, their bodies or their lives to its service should demand also the service, in the interest of those human beings, of all wealth and the products of human toil—property."

**Against Unequal Sacrifice**

After denouncing influences which have forced "unequal sacrifice from labor" in previous wars, the statement says:

"Our labor movement distrusts and protests against militarism, because it knows militarism represents privilege and is the tool of special interests, exploiters and despots.

"But while it opposes militarism, it holds that it is the duty of a nation to defend itself against injustice and invasion.

"The labor movement demands, however, that a clear differentiation be made against military service for the nation and police duty and that military service should be carefully distinguished from service in industrial disputes."

**Strike in Ship Yard May Reach Settlement Today**

Oakland, Cal., Mar. 13.—The strike of 3,000 shipyard laborers may be settled today, in the opinion of Dr. F. F. Jackson, commissioner of public health and safety, who is acting as mediator.

Four conferences held yesterday by Dr. Jackson resulted in concessions by both sides. The men, asking a flat minimum wage of \$5 a day, have been receiving \$2 and up. The shipbuilders are willing to give the men a graduated scale higher than they received before the strike, Dr. Jackson said today.

Formal requests from members of Portland companies showed the interest being taken in the movement to form first a state-wide and later a national organization. The prime purpose of the organization is to perpetuate ideals of loyalty to the flag, inculcate a greater love of country and a deeper spirit of patriotism.

Portland, Ore., Mar. 13.—Shipments of Oregon spruce were given precedence over other eastbound freight here today, following the request that all available quantities be rushed to the Curtiss Aeroplane factory at Albany, N. Y., as rapidly as possible.

This request came from the army aviation corps chief of staff. In immediate response to it, railroads arranged to handle an unusual amount of spruce out of Astoria and it was sent on its way eastward from Portland without delay.

New Castle, Ind., Mar. 13.—Food, clothing and money for the relief of victims of the tornado which destroyed more than \$1,000,000 worth of property and took a toll of 19 lives in this city alone, was needed today. Food supplies are scarce and many families are forced to depend entirely on contributions.

Three persons are still missing today. It is believed that they, probably with others, are buried under the ruins. Twenty-five are in hospitals, seriously injured. Two children at the Home hospital are unable to give their names and no one has claimed them. It is believed their parents were killed.

**USE COCOANUT OIL FOR WASHING HAIR**  
\*\*\*\*\*

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain sulfated cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get sulfated cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

One of the many hunks that have practically disappeared before the advance of feminism is platonic love. It was always a delusion; oftimes a snare. Perhaps its substitutes are no better than it was, however.
