"Boosting the other fellow"—Unitarian church Sunday at 11. 3-17

As announced last week, there will be two story hours at the public library Saturday morning: the first at the usual time, 9:30, and the second at 10:30. All children who cannot get to the library in time for the first are urged to come to the second. Miss Paxson will tell the following stories to both groups: "Bikku Matti," "The Elephant and the Ape," "Why the Sea is Salt."

"Boosting the other fellow"—Unitarian church Sunday at 11. 3-17

Books on the American Revolution, recommended for the contest which is being conducted among the pupils of the public schools by the Oregon Society of Sons of the American Revolution, are still being added to the shelves at the public library. The essays must be in the hands of the committee by April 1. Hence ambitious pupils have little time remaining for study of the questions. Most of the books are now listed at the library.

No shipments of perishable freight will be received by the Southern Pacific that cannot reach their destination by Saturday noon. The Oregon Electric announces that no perishable freight will be received that cannot be delivered by Sunday afternoon at 5 o'clock. We pay 25c trade for eggs. Seaman Bros., 121 S. Commercial.

The good housekeeper will have but little chance to pack eggs this spring at the low figure of one and two years ago. There is a strong demand in Portland and Seattle for storage eggs at the present price of 22 cents and the storage interests seem to think this is the bottom figure. It wasn't so long ago that eggs were retailing at 45 and 50 cents a dozen and even then the housekeeper was not quite sure whether they were "strictly fresh ranch eggs."

FINAL CONFERENCE MAY PREVENT STRIKE

Federal Mediators Will Meet at Biltmore Hotel at 9:30 Tonight

New York, Mar. 16.—The conference of federal mediators, brotherhood chiefs and railway managers, which the president hopes will avert the railway strike, will be held at the Biltmore hotel tonight.

W. G. Lee, brotherhood chief, announced that the trainmen representatives had been asked to be at the Biltmore at 9 o'clock. The four mediators are due to arrive from Washington at 9:30.

In both brotherhood and railway circles late this afternoon the impression prevailed that probably the first act of the federal mediators on their arrival here would be to call on the brotherhood chiefs to suspend their strike order pending conferences.

What President May Do

Two Americans Are Killed by Villistas

El Paso, Texas, March 16.—Two Americans were murdered by Villistas and his followers last week at Magistral, Durango, according to information brought to R. L. Stuler, local representative of the National Mines and Smelter company. The victims were L. A. Winn of New York City, assistant manager of the company, and Bert Siegel of Pittsburgh, Pa. It is reported the Americans were tortured and their bodies burned.

An ordinance will come up for passage at the meeting of the city council next Monday evening providing that the age when a young man may enter a pool hall be reduced from 21 years, which is the present law, to 18 years. The Ministerial Union is circulating a petition asking that the present law be not changed. There is no law preventing the young man under 21 from playing chess, checkers, ping pong or the like.

The Salem Fruit company is doing what it can to secure the building of a cleaning and grading factory here for beans. Parties interested will put up the factory provided they are assured of at least 300 acres. Growers who were successful in southern California, where more beans are grown than in any part of the U. S. have had success here. All that is now needed is a cleaning and grading plant by which growers will be assured of the highest market prices. A meeting will be held Saturday afternoon at 3 o'clock at the Commercial club to discuss the proposition and to interest farmers.

The average daily circulation of the Salem public library for the month of February was 221, according to the report of the librarian, Miss Flora M. Case. The total circulation for the month was 5,293. One hundred and forty-two new books were received, bringing the total number in the library up to 12,203. Besides holding all its old friends, during February 90 new mult borrowers were given cards and 74 children. Besides attending to the regular clerical work of the library, the librarians and assistants have the care of the books. During February 101 books were glued and 50 mended. The circulation averaged higher than February of one year ago and higher than January of this year.

Alleging that the suit against her was not commenced nor the complaint filed within the time limit required by law, Mabel Trivitt has filed a demurrer in the circuit court against the complaint brought by John Daly, et al, to set aside or annul a deed or patent to lands. It is declared in the demurrer that the action was not commenced within the requisite time limit of ten years. It also states that none of the plaintiffs

were seized or possessed of the land within the ten years limit.

Parrish, is also a purchaser of certain land, a motion was filed by him in the circuit court today asking for possession of the land purchased. He asks a writ of assistance requiring the sheriff to place him in quiet and peaceful possession.
