

# PRICES NOT ADVANCED AT STOCKTON'S

Almost the ENTIRE STOCK is at the same price as it was before the world-wide advance in prices began. There are a few exceptions, but the general stock is the same. This is accounted for by the fact that our SPOT CASH paying plan enabled us to go into the market and make purchases on Table Linens, Blankets, Gloves, in fact everything that does not change style, a year ago, having them shipped to us as we needed them. Some of the shipments have just arrived or are on the way now. Old prices prevail here. WE CALL ATTENTION TO A FEW PRICES THAT WILL INTEREST YOU. COMPARE OUR PRICES IN TODAY'S AND YESTERDAY'S ADS WITH OTHERS.

Other values in Trimming up to \$12.00 per yard, now all at REDUCED PRICES

### Screen Gossip

Seven million readers of the Saturday Evening Post have read the story of Skinnara Dress Suit and the picture is even better than the story. In Portland and Seattle the crowds never did get inside. Noted critics say it is the finest picture in three years and you will be just as well pleased if you see it at the Oregon theatre next Sunday, Monday and Tuesday.

The ladies will be more than pleased with the gowns worn by Mrs. Vernon Castle in Patria which will be shown at the Oregon next Sunday, Monday and Tuesday. One of the most interesting things about Mrs. Castle is that she personally designs all of her distinctive wardrobe which in the past few years have earned for her the reputation of being "the best known, best dressed woman in America."

George M. Cohan, the most famous American comedian of the stage has completed his first Artercraft Picture. It is Broadway Jones and is one of the great big successes of the spring. Critics say he is another Douglas Fairbanks which is some praise. Broadway Jones

### MARSHAL HAIG'S

(Continued from page one.)

cent. The smash by which these new positions were gained puts the British line another half mile southeast of Arras in the direction of Cambrai.

Occupation of Monchy had been forecast by the British commander in chief's night statement, detailing how the forward rush of his troops had carried them to the outskirts of the village five miles east of Arras. London was prepared for a report of sanguinary fighting in this section.

Front dispatches indicated no letup in the constant hammering along the whole of the fifty mile front at various sections of which Haig had been

### Gray Hair Becomes Dark and Beautiful

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know

Almost everyone knows that Sage Tea and Sulphur, properly compounded brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick, and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

### What Whole Wheat Can Do

By Carl Vrooman (Assistant Secretary of Agriculture) (Member National Emergency Food (Grain) Commission)

Washington, April 11.—Whole wheat which can be bought in the grain at seed or feed stores is one of the best all around cheap and nutritious foods in the country. Every American home should keep a supply of whole wheat. When soaked for several hours and cooked an equal length of time it makes a delicious breakfast food, equally palatable when made into bread or used as a cereal.

It has been estimated that whole wheat, cooked over night in a fireless cooker, or cooked all day on the back of the kitchen range, makes a cereal costing 1-16 the price of some of the patent commercial breakfast foods, and furnishes, moreover, fully equal nourishment.

Whole wheat may be cooked without cracking or grinding, but it requires many hours in a double boiler to cook thoroughly. Whole wheat ground in a hand grist mill should be cooked at least three hours over the fire or all night in a fireless cooker. To have the best flavor it should not be too moist. The longer it is cooked the better. It is possible to cook up enough for several days and warm it over as desired. If whole wheat is soaked several hours it will not need to be cooked so long.

The Bureau of Chemistry has worked out a recipe for bread made primarily from home ground meal. Two cupfuls of wheat meal, 1 cupful of white flour 1 1/2 cupfuls of hot warm water, 1/2 cake of compressed yeast, 1 level tablespoonful of salt, 1 level tablespoonful of sugar, and 1 level tablespoonful of shortening if desired, is the formula. Dough of this kind has only 2-3 of the usual rise of white bread. It should be baked slowly for 3-4 of an hour.

Every American woman should know and use whole wheat.

### Salem Public Library Broke Three Records

The Salem public library broke three records during the month of March, according to the monthly report just issued by the librarian, Miss Flora M. Case. The circulation for the month, 6175 volumes, broke every previous record. On March 3, a record was broken for any single day's circulation when 423 books were passed over the counter but this high record was again broken on March 24, when during the day 458 books were called for and given to patrons.

Then the circulation for the children's room was higher than for any month in the history of the library and the attendance at the morning children's hour for Saturday increased to such an extent that it was found advisable to hold two story hours instead of the one.

On April 1, 1917, there was 9574 books for adults in the library and 2567 for children, making a total of 12,333. New books are being received and old books are often withdrawn either for repairs or because they are worn out, but the net increase for the month was 56.

The readers of the library were inclined to rather serious reading, as the per cent of fiction fell to 73 for adults and 56 for children. That is, the old folks read more fiction than the youngsters.

The total circulation for the month of March one year ago was 5343 while for March 1917, it was 6175.

Cards in force April 1, 1917, were 6318, a gain of 183 over April 1 of one year ago. The average number of books taken out daily was 229, with 137 as the smallest day and 458 as the largest day.

### WOMEN! IT'S MAGIC!

CORNS SHRIVEL AND LIFT OUT—NO PAIN!

For a few cents you can get a small bottle of the magic drug Frezzone recently discovered by a Cincinnati man. Just ask at any drug store for a small bottle of Frezzone. Apply a few drops upon a tender, aching corn and instantly, yes immediately, all soreness disappears and shortly you will find the corn so loose that you lift it out, root and all, with the fingers.

Just think! of one bit of pain before applying Frezzone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet just seem to shrivel up and fall off without hurting a particle. It is almost magical. It is a compound made from ether says a well known druggist here and the genuine has a yellow label.
